

## Con Edison, Inc. Reports 2007 First Quarter Earnings

May 10, 2007

### [1st Quarter 2007 Sales and Revenue Report](#)

NEW YORK, NY, May 10, 2007 (MARKET WIRE via COMTEX News Network) -- Consolidated Edison, Inc. (Con Edison) (NYSE: ED) today reported 2007 first quarter earnings of \$256 million or \$0.99 a share, compared with earnings of \$181 million or \$0.74 cents a share for the first quarter of 2006. These amounts reflect after-tax net mark-to-market losses of \$10 million or \$0.04 cents a share in the first quarter of 2007 and \$31 million or \$0.12 cents a share in the first quarter of 2006.

"Our performance for the first quarter represents a solid start for the year and is consistent with our expectations," said Kevin Burke, Chairman, President and Chief Executive Officer. "In addition, we continue to make significant investments throughout our system to meet the needs of our customers."

For the year 2007, the company confirms its previous forecast of earnings in the range of \$3.05 to \$3.25 per share, excluding the net mark-to-market effects of the competitive energy businesses, which are not presently determinable.

The results of operations for the three months ended March 31, 2007, as compared with the 2006 period, reflect sales growth and colder weather in 2007, the utilities' rate plans (which are designed to recover increased operations and maintenance expense, depreciation and property taxes, and interest charges) and the results of the competitive energy businesses including net mark-to-market effects. The following table presents the estimated effect on earnings per share and net income for the 2007 period, as compared to the 2006 period, resulting from these and other major factors:

	Earnings per Share Variation	Net Income Variation (Millions of Dollars)
	-----	-----
