

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549
FORM 10-Q**

Quarterly Report Pursuant To Section 13 or 15(d) of the Securities Exchange Act of 1934
FOR THE QUARTERLY PERIOD ENDED SEPTEMBER 30, 2015
OR

Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the transition period from _____ to _____

Commission File Number	Exact name of registrant as specified in its charter and principal office address and telephone number	State of Incorporation	I.R.S. Employer ID. Number
1-14514	Consolidated Edison, Inc. 4 Irving Place, New York, New York 10003 (212) 460-4600	New York	13-3965100
1-1217	Consolidated Edison Company of New York, Inc. 4 Irving Place, New York, New York 10003 (212) 460-4600	New York	13-5009340

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Consolidated Edison, Inc. (Con Edison) Yes No
Consolidated Edison Company of New York, Inc. (CECONY) Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Con Edison Yes No
CECONY Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Con Edison
Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
CECONY
Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Con Edison Yes No
CECONY Yes No

As of October 30, 2015, Con Edison had outstanding 293,192,258 Common Shares (\$.10 par value). All of the outstanding common equity of CECONY is held by Con Edison.

Filing Format

This Quarterly Report on Form 10-Q is a combined report being filed separately by two different registrants: Consolidated Edison, Inc. (Con Edison) and Consolidated Edison Company of New York, Inc. (CECONY). CECONY is a wholly-owned subsidiary of Con Edison and, as such, the information in this report about CECONY also applies to Con Edison. As used in this report, the term the "Companies" refers to Con Edison and CECONY. However, CECONY makes no representation as to the information contained in this report relating to Con Edison or the subsidiaries of Con Edison other than itself.

Glossary of Terms

The following is a glossary of abbreviations or acronyms that are used in the Companies' SEC reports:

Con Edison Companies

Con Edison	Consolidated Edison, Inc.
CECONY	Consolidated Edison Company of New York, Inc.
Con Edison Development	Consolidated Edison Development, Inc.
Con Edison Energy	Consolidated Edison Energy, Inc.
Con Edison Solutions	Consolidated Edison Solutions, Inc.
Con Edison Transmission	Consolidated Edison Transmission, LLC
O&R	Orange and Rockland Utilities, Inc.
Pike	Pike County Light & Power Company
RECO	Rockland Electric Company
The Companies	Con Edison and CECONY
The Utilities	CECONY and O&R

Regulatory Agencies, Government Agencies, and Other Organizations

EPA	U. S. Environmental Protection Agency
FASB	Financial Accounting Standards Board
FERC	Federal Energy Regulatory Commission
IRS	Internal Revenue Service
NJBPU	New Jersey Board of Public Utilities
NJDEP	New Jersey Department of Environmental Protection
NYISO	New York Independent System Operator
NYPA	New York Power Authority
NYSDEC	New York State Department of Environmental Conservation
NYSERDA	New York State Energy Research and Development Authority
NYSPSC	New York State Public Service Commission
NYSRC	New York State Reliability Council, LLC
PAPUC	Pennsylvania Public Utility Commission
PJM	PJM Interconnection LLC
SEC	U.S. Securities and Exchange Commission

Accounting

ASU	Accounting Standards Update
GAAP	Generally Accepted Accounting Principles in the United States of America
LILO	Lease In/Lease Out
OCI	Other Comprehensive Income
VIE	Variable interest entity

Environmental

CO2	Carbon dioxide
GHG	Greenhouse gases
MGP Sites	Manufactured gas plant sites
PCBs	Polychlorinated biphenyls
PRP	Potentially responsible party
Superfund	Federal Comprehensive Environmental Response, Compensation and Liability Act of 1980 and similar state statutes

Table of Contents

Units of Measure

AC	Alternating current
Dt	Dekatherms
kV	Kilovolt
kWh	Kilowatt-hour
MDt	Thousand dekatherms
MMlb	Million pounds
MVA	Megavolt ampere
MW	Megawatt or thousand kilowatts
MWH	Megawatt hour

Other

AFUDC	Allowance for funds used during construction
COSO	Committee of Sponsoring Organizations of the Treadway Commission
DER	Distributed energy resources
DSP	Distributed System Platform
Fitch	Fitch Ratings
First Quarter Form 10-Q	The Companies' combined Quarterly Report on Form 10-Q for the quarterly period ended March 31 of the current year
Second Quarter Form 10-Q	The Companies' combined Quarterly Report on Form 10-Q for the quarterly period ended June 30 of the current year
Third Quarter Form 10-Q	The Companies' combined Quarterly Report on Form 10-Q for the quarterly period ended September 30 of the current year
Form 10-K	The Companies' combined Annual Report on Form 10-K for the year ended December 31, 2014
LTIP	Long Term Incentive Plan
Moody's	Moody's Investors Service
REV	Reforming the Energy Vision
S&P	Standard & Poor's Financial Services LLC
VaR	Value-at-Risk

FORWARD-LOOKING STATEMENTS

This report includes forward-looking statements intended to qualify for the safe-harbor provisions of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements are statements of future expectation and not facts. Words such as “forecasts,” “expects,” “estimates,” “anticipates,” “intends,” “believes,” “plans,” “will” and similar expressions identify forward-looking statements. Forward-looking statements are based on information available at the time the statements are made, and accordingly speak only as of that time. Actual results or developments might differ materially from those included in the forward-looking statements because of various factors including:

- the Companies are extensively regulated and are subject to penalties;
- the Utilities' rate plans may not provide a reasonable return;
- the Companies may be adversely affected by changes to the Utilities' rate plans;
- the intentional misconduct of employees or contractors could adversely affect the Companies;
- the failure of, or damage to, the Companies' facilities could adversely affect the Companies;
- a cyber attack could adversely affect the Companies;
- the Companies are exposed to risks from the environmental consequences of their operations;
- a disruption in the wholesale energy markets or failure by an energy supplier could adversely affect the Companies;
- the Companies have substantial unfunded pension and other postretirement benefit liabilities;
- Con Edison's ability to pay dividends or interest depends on dividends from its subsidiaries;
- the Companies require access to capital markets to satisfy funding requirements;
- the Companies' strategies may not be effective to address changes in the external business environment; and
- the Companies also face other risks that are beyond their control.

NOTES TO THE FINANCIAL STATEMENTS (UNAUDITED)

General

These combined notes accompany and form an integral part of the separate consolidated financial statements of each of the two separate registrants: Consolidated Edison, Inc. and its subsidiaries (Con Edison) and Consolidated Edison Company of New York, Inc. and its subsidiaries (CECONY). CECONY is a subsidiary of Con Edison and as such its financial condition and results of operations and cash flows, which are presented separately in the CECONY consolidated financial statements, are also consolidated, along with those of Con Edison's other utility subsidiary, Orange and Rockland Utilities, Inc. (O&R) and Con Edison's competitive energy businesses (discussed below) in Con Edison's consolidated financial statements. The term "Utilities" is used in these notes to refer to CECONY and O&R.

As used in these notes, the term "Companies" refers to Con Edison and CECONY and, except as otherwise noted, the information in these combined notes relates to each of the Companies. However, CECONY makes no representation as to information relating to Con Edison or the subsidiaries of Con Edison other than itself.

The separate interim consolidated financial statements of each of the Companies are unaudited but, in the opinion of their respective managements, reflect all adjustments (which include only normally recurring adjustments) necessary for a fair presentation of the results for the interim periods presented. The Companies' separate interim consolidated financial statements should be read together with their separate audited financial statements (including the combined notes thereto) included in Item 8 of their combined Annual Report on Form 10-K for the year ended December 31, 2014 and their separate unaudited financial statements (including the combined notes thereto) included in Part I, Item 1 of their combined Quarterly Reports on Form 10-Q for the quarterly periods ended March 31, 2015 and June 30, 2015. Certain prior period amounts have been reclassified to conform to the current period presentation.

Con Edison has two regulated utility subsidiaries: CECONY and O&R. CECONY provides electric service and gas service in New York City and Westchester County. The company also provides steam service in parts of Manhattan. O&R, along with its regulated utility subsidiaries, provides electric service in southeastern New York and adjacent areas of northern New Jersey and eastern Pennsylvania (see Note O) and gas service in southeastern New York and adjacent areas of eastern Pennsylvania. Con Edison has the following competitive energy businesses: Consolidated Edison Solutions, Inc. (Con Edison Solutions), a company which sells to retail customers electricity purchased in wholesale markets (see Note O), enters into related hedging transactions and also provides energy-related products and services to retail customers; Consolidated Edison Energy, Inc. (Con Edison Energy), a company that provides energy-related products and services to wholesale customers; and Consolidated Edison Development, Inc. (Con Edison Development), a company that develops, owns and operates renewable and energy infrastructure projects. In addition, in 2014 Con Edison formed Consolidated Edison Transmission, LLC (Con Edison Transmission) to invest in a transmission company. See information about Con Edison Transmission under "Guarantees" in Note H.

Note A – Summary of Significant Accounting Policies

Earnings Per Common Share

For the three and nine months ended September 30, 2015 and 2014, basic and diluted earnings per share (EPS) for Con Edison are calculated as follows:

<i>(Millions of Dollars, except per share amounts/Shares in Millions)</i>	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2015	2014	2015	2014
Net income for common stock	\$428	\$436	\$1,017	\$1,010
Weighted average common shares outstanding – basic	292.9	292.9	292.9	292.9
Add: Incremental shares attributable to effect of potentially dilutive securities	1.3	1.1	1.3	1.1
Adjusted weighted average common shares outstanding – diluted	294.2	294.0	294.2	294.0
Net Income for common stock per common share – basic	\$1.46	\$1.49	\$3.47	\$3.45
Net Income for common stock per common share – diluted	\$1.45	\$1.48	\$3.46	\$3.44

The computation of diluted EPS for the three and nine months ended September 30, 2014 excludes immaterial amounts of performance share awards that were not included because of their anti-dilutive effect.

Table of Contents

Changes in Accumulated Other Comprehensive Income/(Loss) by Component

For the three and nine months ended September 30, 2015 and 2014, changes to accumulated other comprehensive income/(loss) (OCI) for Con Edison and CECONY are as follows:

<i>(Millions of Dollars)</i>	For the Three Months Ended September 30,			
	Con Edison		CECONY	
	2015	2014	2015	2014
Beginning balance, accumulated OCI, net of taxes (a)	\$(39)	\$(20)	\$(10)	\$(5)
Amounts reclassified from accumulated OCI related to pension plan liabilities, net of tax of \$(1) for Con Edison in 2015 and 2014 (a)(b)	1	1	1	—
Current period OCI, net of taxes	1	1	1	—
Ending balance, accumulated OCI, net of taxes	\$(38)	\$(19)	\$(9)	\$(5)

<i>(Millions of Dollars)</i>	For the Nine Months Ended September 30,			
	Con Edison		CECONY	
	2015	2014	2015	2014
Beginning balance, accumulated OCI, net of taxes (a)	\$(45)	\$(25)	\$(11)	\$(6)
OCI before reclassifications, net of tax of \$(2) and \$(1) for Con Edison in 2015 and 2014, respectively	3	2	—	—
Amounts reclassified from accumulated OCI related to pension plan liabilities, net of tax of \$(3) for Con Edison in 2015 and 2014 (a)(b)	4	4	2	1
Current period OCI, net of taxes	7	6	2	1
Ending balance, accumulated OCI, net of taxes	\$(38)	\$(19)	\$(9)	\$(5)

(a) Tax reclassified from accumulated OCI is reported in the income tax expense line item of the income statement.

(b) For the portion of unrecognized pension and other postretirement benefit costs relating to the regulated Utilities, costs are recorded into, and amortized out of, regulatory assets instead of OCI. The net actuarial losses and prior service costs recognized during the period are included in the computation of total periodic pension and other postretirement benefit cost. See Notes E and F.

Table of Contents

Note B — Regulatory Matters

Rate Plans

CECONY — Electric

In June 2015, the New York State Public Service Commission (NYSPSC) approved an April 2015 Joint Proposal entered into by CECONY, the staff of the NYSPSC and other parties. Under the Joint Proposal, the rate plan for 2016 does not include a rate increase or decrease. The rate plan for 2016 includes additional revenues from the amortization to income of net regulatory liabilities. The following table contains a summary of the rate plan for 2016:

Effective period	January 2016 – December 2016
Base rate changes	None (a)
Amortizations to income of net regulatory (assets) and liabilities	Additional \$123 million of net regulatory liabilities (b).
Other revenue sources	Continued retention of \$90 million of annual transmission congestion revenues.
Revenue decoupling mechanism	Continued reconciliation of actual electric delivery revenues to those authorized in the rate plan.
Recoverable energy costs	Continued current rate recovery of purchased power and fuel costs (c).
Negative revenue adjustments	Continued potential penalties (up to \$400 million annually) if certain performance targets are not met.
Cost reconciliations	Continued reconciliation of expenses for pension and other postretirement benefits, variable-rate tax-exempt debt, major storms, property taxes, municipal infrastructure support, the impact of new laws and environmental remediation to amounts reflected in rates (d).
Net utility plant reconciliations	Target levels reflected in rates are as follows: Transmission and distribution: \$17,929 million Storm hardening: \$268 million Other: \$2,069 million
Average rate base	\$18,282 million
Weighted average cost of capital (after-tax)	6.91 percent
Authorized return on common equity	9.0 percent
Earnings sharing	Most earnings above an annual earnings threshold of 9.6 percent are to be applied to reduce regulatory assets for environmental remediation and other costs.
Cost of long-term debt	5.09 percent
Common equity ratio	48 percent

- (a) The impact of 2014 and 2015 base rate changes under the current electric rate plan will continue to be deferred. \$249 million of annual revenues collected from electric customers will continue to be subject to potential refund following NYSPSC staff review of certain costs. Revenues will continue to include \$21 million as funding for major storm reserve.
- (b) Annual amortization of \$107 million of the regulatory asset for deferred Superstorm Sandy and other major storm costs will continue. The costs recoverable from customers will be reduced by \$4 million. The costs will no longer be subject to NYSPSC staff review and the recovery of the costs will no longer be subject to refund.
- (c) For transmission service provided pursuant to the open access transmission tariff of PJM Interconnection LLC (PJM), unless and until changed by the NYSPSC, the company will recover all charges incurred associated with the transmission service. In January 2014, PJM submitted to the Federal Energy Regulatory Commission (FERC) a request that would substantially increase the charges for the transmission service. FERC has granted the request and rejected CECONY's protests. CECONY is challenging the FERC's decision. In August 2015, PJM submitted a request to FERC that, if approved by FERC, would further increase the charges. In September 2015, CECONY filed a protest to this increase.
- (d) Deferrals for property taxes will continue to be limited to 90 percent of the difference from amounts reflected in rates, subject to an annual maximum for the remaining difference of not more than a 10 basis point impact on return on common equity. In general, if actual expenses for municipal infrastructure support (other than company labor) are below the amounts reflected in rates the company will defer the difference for credit to customers, and if the actual expenses are above the amount reflected in rates the company will defer for recovery from customers 80 percent of the difference subject to a maximum deferral of 30 percent of the amount reflected in rates.

O&R New York – Electric and Gas

In October 2015, the NYSPSC approved a June 2015 Joint Proposal entered into by O&R, the NYSPSC staff and other parties for new electric and gas rate plans. Under the Joint Proposal, the new rate plans are effective November 2015. The following tables contain a summary of the new rate plans:

Table of Contents

O&R New York - Electric

Effective period	November 2015 - October 2017
Base rate changes	Yr. 1 - \$9.3 million Yr. 2 - \$8.8 million
Amortizations to income of net regulatory (assets) and liabilities (a)	Yr. 1 - \$(8.5) million Yr. 2 - \$(9.4) million
Revenue decoupling mechanism	Continued reconciliation of actual electric delivery revenues to those authorized in the rate plan.
Recoverable energy costs	Continued current rate recovery of purchased power costs.
Negative revenue adjustments	Potential penalties (up to \$4 million annually) if certain performance targets are not met.
Cost reconciliations	Continued reconciliation of expenses for pension and other postretirement benefits, major storms, property taxes, the impact of new laws and environmental remediation to amounts reflected in rates.
Net utility plant reconciliations (b)	Target levels reflected in rates are: Yr. 1 - \$928 million Yr. 2 - \$970 million
Average rate base	Yr. 1 - \$763 million Yr. 2 - \$805 million
Weighted average cost of capital (after-tax)	Yr. 1 - 7.10 percent Yr. 2 - 7.06 percent
Authorized return on common equity	9.0 percent
Earnings sharing	Most earnings above an annual earnings threshold of 9.6 percent are to be applied to reduce regulatory assets.
Cost of long-term debt	Yr. 1 - 5.42 percent Yr. 2 - 5.35 percent
Common equity ratio	48 percent

(a) \$59.3 million of the regulatory asset for deferred storm costs is to be recovered from customers over a five-year period, including \$11.85 million in each of years 1 and 2, \$1 million of the regulatory asset for such costs will not be recovered from customers, and all outstanding issues related to Superstorm Sandy and other past major storms prior to November 2014 are resolved. Approximately \$4 million of regulatory assets for property tax and interest rate reconciliations will not be recovered from customers. Amounts that will not be recovered from customers were charged-off in June 2015.

(b) Excludes electric advanced metering infrastructure as to which the company will be required to defer as a regulatory liability the revenue requirement impact of the amount, if any, by which actual average net utility plant balances are less than amounts reflected in rates: \$1 million in year 1 and \$9 million in year 2.

Table of Contents

O&R New York - Gas

Effective period	November 2015 - October 2018
Base rate changes	Yr. 1 - \$16.4 million Yr. 2 - \$16.4 million Yr. 3 - \$5.8 million Yr. 3 - \$10.6 million collected through a surcharge
Amortizations to income of net regulatory (assets) and liabilities (a)	Yr. 1 - \$(1.7) million Yr. 2 - \$(2.1) million Yr. 3 - \$(2.5) million
Revenue decoupling mechanism	Continued reconciliation of actual gas delivery revenues to those authorized in the rate plan, including through weather normalization clause.
Recoverable energy costs	Continued current rate recovery of purchased gas costs.
Negative revenue adjustments	Potential penalties (up to \$3.7 million in Yr. 1, \$4.7 million in Yr. 2 and \$5.8 million in Yr. 3) if certain performance targets are not met.
Cost reconciliations	Continued reconciliation of expenses for pension and other postretirement benefits, property taxes, the impact of new laws and environmental remediation to amounts reflected in rates.
Net utility plant reconciliations (b)	Target levels reflected in rates are: Yr. 1 - \$492 million Yr. 2 - \$518 million Yr. 3 - \$546 million
Average rate base	Yr. 1 - \$366 million Yr. 2 - \$391 million Yr. 3 - \$417 million
Weighted average cost of capital (after-tax)	Yr. 1 - 7.10 percent Yr. 2 - 7.06 percent Yr. 3 - 7.06 percent
Authorized return on common equity	9.0 percent
Earnings sharing	Most earnings above an annual earnings threshold of 9.6 percent are to be applied to reduce regulatory assets.
Cost of long-term debt	Yr. 1 - 5.42 percent Yr. 2 - 5.35 percent Yr. 3 - 5.35 percent
Common equity ratio	48 percent
(a)	Reflects that the company will not recover from customers a total of approximately \$14 million of regulatory assets for property tax and interest rate reconciliations. Amounts that will not be recovered from customers were charged-off in June 2015.
(b)	Excludes gas advanced metering infrastructure as to which the company will be required to defer as a regulatory liability the revenue requirement impact of the amount, if any, by which actual average net utility plant balances are less than amounts reflected in rates: \$0.5 million in year 1, \$4.2 million in year 2 and \$7.2 million in year 3.

Other Regulatory Matters

In February 2009, the NYSPSC commenced a proceeding to examine the prudence of certain CECONY expenditures following the arrests of employees for accepting illegal payments from a construction contractor. Subsequently, additional employees were arrested for accepting illegal payments from materials suppliers and an engineering firm. The arrested employees were terminated by the company and have pled guilty or been convicted. Pursuant to NYSPSC orders, a portion of the company's revenues (currently, \$249 million, \$32 million and \$6 million on an annual basis for electric, gas and steam service, respectively) is being collected subject to potential refund to customers. The amount of electric revenues collected subject to refund, which was established in a different proceeding, and the amount of gas and steam revenues collected subject to refund were not established as indicative of the company's potential liability in this proceeding. At September 30, 2015, the company had collected an estimated \$1,889 million from customers subject to potential refund in connection with this proceeding. In January 2013, a NYSPSC consultant reported its estimate, with which the company does not agree, of \$208 million of overcharges with respect to a substantial portion of the company's construction expenditures from January 2000 to January 2009. The company disputed the consultant's estimate, including its determinations as to overcharges regarding specific construction expenditures it selected to review and its methodology of extrapolating such determinations over a substantial portion of the construction expenditures during this period. The NYSPSC's consultant has not reviewed the company's other expenditures. In September 2015, the company, the NYSPSC staff and others entered into a Joint Proposal to settle this proceeding and related matters. The Joint Proposal is subject to NYSPSC approval. Pursuant to the Joint Proposal, the company is required to credit \$116 million to customers and, for the period 2017 through 2044, to not seek to recover from customers an aggregate \$55 million relating to return on its capital expenditures. In addition, the company's revenues that were made subject to potential refund in this proceeding would no longer be subject to refund. At September 30, 2015, the company had a \$100 million regulatory liability for the remaining amount to be credited to customers related to this matter.

Table of Contents

In late October 2012, Superstorm Sandy caused extensive damage to the Utilities' electric distribution system and interrupted service to approximately 1.4 million customers. Superstorm Sandy also damaged CECONY's steam system and interrupted service to many of its steam customers. As of September 30, 2015, CECONY and O&R incurred response and restoration costs for Superstorm Sandy of \$509 million and \$91 million, respectively (including capital expenditures of \$148 million and \$15 million, respectively). Most of the costs that were not capitalized were deferred for recovery as a regulatory asset under the Utilities' electric rate plans. Collection from customers of these costs is provided for under the Utilities' current electric rate plans. See "Rate Plans," above.

In June 2014, the NYSPSC initiated a proceeding to investigate the practices of qualifying persons to perform plastic fusions on gas facilities. New York State regulations require gas utilities to qualify and, except in certain circumstances, annually requalify workers that perform fusion to join plastic pipe. The NYSPSC directed the New York gas utilities to provide information in this proceeding about their compliance with the qualification and requalification requirements and related matters; their procedures for compliance with all gas safety regulations; and their annual chief executive officer certifications regarding these and other procedures. CECONY's qualification and requalification procedures had not included certain required testing to evaluate specimen fuses. In addition, CECONY and O&R had not timely requalified certain workers that had been qualified under their respective procedures to perform fusion to join plastic pipe. CECONY and O&R have requalified their workers who perform plastic pipe fusions. In May 2015, the NYSPSC, which indicated that it would address enforcement at a later date, ordered CECONY, O&R and other gas utilities to perform risk assessment and remediation plans, additional leakage surveying and reporting; CECONY to hire an independent statistician to develop a risk assessment and remediation plan; and the gas utilities to implement certain new plastic fusion requirements. In October 2015, O&R submitted to the NYSPSC staff the company's risk assessment and its recommendation that the development of a remediation plan is unnecessary and that the NYSPSC staff determine that the company's risk assessment activities are complete.

Table of Contents

Regulatory Assets and Liabilities

Regulatory assets and liabilities at September 30, 2015 and December 31, 2014 were comprised of the following items:

<i>(Millions of Dollars)</i>	Con Edison		CECONY	
	2015	2014	2015	2014
Regulatory assets

Table of Contents

Note C — Capitalization

In April 2015, O&R redeemed at maturity \$40 million of 5.30 percent 10-year debentures. In June 2015, O&R issued \$120 million aggregate principal amount of 4.95 percent debentures, due 2045. Also in June 2015, a Con Edison Development subsidiary issued \$118 million aggregate principal amount of 3.94 percent senior notes, due 2036. The notes are secured by four of the company's solar projects. In August 2015, O&R redeemed at maturity \$55 million of 2.50 percent 5-year debentures and \$44 million of variable rate tax-exempt 20-year debt.

The carrying amounts and fair values of long-term debt at September 30, 2015 and December 31, 2014 are:

<i>(Millions of Dollars)</i>	2015		2014	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Long-Term Debt (including current portion)				
Con Edison	\$12,282	\$13,575	\$12,191	\$13,998
CECONY	\$11,215	\$12,385	\$11,214	\$12,846

Fair values of long-term debt have been estimated primarily using available market information. For Con Edison, \$12,939 million and \$636 million of the fair value of long-term debt at September 30, 2015 are classified as Level 2 and Level 3, respectively. For CECONY, \$11,749 million and \$636 million of the fair value of long-term debt at September 30, 2015 are classified as Level 2 and Level 3, respectively (see Note L). The \$636 million of long-term debt classified as Level 3 is CECONY's tax-exempt, auction-rate securities for which the market is highly illiquid and there is a lack of observable inputs.

Note D — Short-Term Borrowing

At September 30, 2015, Con Edison had \$1,160 million of commercial paper outstanding of which \$649 million was outstanding under CECONY's program. The weighted average interest rate at September 30, 2015 was 0.3 percent for both Con Edison and CECONY. At December 31, 2014, Con Edison had \$800 million of commercial paper outstanding of which \$450 million was outstanding under CECONY's program. The weighted average interest rate at December 31, 2014 was 0.4 percent for both Con Edison and CECONY.

At September 30, 2015 and December 31, 2014, no loans were outstanding under the credit agreement (Credit Agreement) and \$56 million (including \$11 million for CECONY) and \$11 million (including \$11 million for CECONY), respectively, of letters of credit were outstanding under the Credit Agreement.

Note E — Pension Benefits

Total Periodic Benefit Cost

The components of the Companies' total periodic benefit costs for the three and nine months ended September 30, 2015 and 2014 were as follows:

<i>(Millions of Dollars)</i>	For the Three Months Ended September 30,			
	Con Edison		CECONY	
	2015	2014	2015	2014
Service cost – including administrative expenses	\$74	\$57	\$70	\$53
Interest cost on projected benefit obligation	144	143	135	134
Expected return on plan assets	(222)	(208)	(210)	(198)
Recognition of net actuarial loss	194	154	183	146
Recognition of prior service costs	1	1	—	1
NET PERIODIC BENEFIT COST	\$191	\$147	\$178	\$136
Amortization of regulatory asset	1	1	1	1
TOTAL PERIODIC BENEFIT COST	\$192	\$148	\$179	\$137
Cost capitalized	(80)	(57)	(76)	(54)
Reconciliation to rate level	(14)	30	(14)	28
Cost charged to operating expenses	\$98	\$121	\$89	\$111

For the Nine Months Ended September 30,

<i>(Millions of Dollars)</i>	Con Edison		CECONY	
	2015	2014	2015	2014
Service cost – including administrative expenses	\$223	\$170	\$209	\$158
Interest cost on projected benefit obligation	431	429	404	402
Expected return on plan assets	(664)	(624)	(630)	(592)
Recognition of net actuarial loss	581	464	550	439
Recognition of prior service costs	3	3	1	2
NET PERIODIC BENEFIT COST	\$574	\$442	\$534	\$409
Amortization of regulatory asset	2	2	2	2
TOTAL PERIODIC BENEFIT COST	\$576	\$444	\$536	\$411
Cost capitalized	(224)	(166)	(214)	(156)
Reconciliation to rate level	(56)	86	(56)	78
Cost charged to operating expenses	\$296	\$364	\$266	\$333

Expected Contributions

Based on estimates as of September 30, 2015, the Companies expect to make contributions to the pension plans during 2015 of \$750 million (of which \$697 million is to be contributed by CECONY). The Companies' policy is to fund the total periodic benefit cost of the qualified plan to the extent tax deductible and to also contribute to the non-qualified supplemental plans. During the first nine months of 2015, the Companies contributed \$747 million (of which \$694 million was contributed by CECONY) to the pension plans. CECONY also contributed \$16 million to its external trust for supplemental plans.

Note F — Other Postretirement Benefits

Total Periodic Benefit Cost

The components of the Companies' total periodic other postretirement benefit costs for the three and nine months ended September 30, 2015 and 2014 were as follows:

For the Three Months Ended September 30,

<i>(Millions of Dollars)</i>	Con Edison		CECONY	
	2015	2014	2015	2014
Service cost	\$5	\$5	\$4	\$4
Interest cost on accumulated other postretirement benefit obligation	13	15	11	13
Expected return on plan assets	(20)	(19)	(17)	(17)
Recognition of net actuarial loss	8	14	7	13
Recognition of prior service cost	(5)	(5)	(4)	(4)
TOTAL PERIODIC OTHER POSTRETIREMENT BENEFIT COST	\$1	\$10	\$1	\$9
Cost capitalized	(1)	(4)	(1)	(4)
Reconciliation to rate level	4	3	2	1
Cost charged to operating expenses	\$4	\$9	\$2	\$6

For the Nine Months Ended September 30,

<i>(Millions of Dollars)</i>	Con Edison		CECONY	
	2015	2014	2015	2014
Service cost	\$15	\$14	\$11	\$11
Interest cost on accumulated other postretirement benefit obligation	38	45	32	39
Expected return on plan assets	(59)	(58)	(51)	(51)
Recognition of net actuarial loss	24	43	21	38
Recognition of prior service cost	(15)	(14)	(10)	(11)
TOTAL PERIODIC OTHER POSTRETIREMENT BENEFIT COST	\$3	\$30	\$3	\$26
Cost capitalized	(2)	(11)	(2)	(10)
Reconciliation to rate level	12	8	5	2
Cost charged to operating expenses	\$13	\$27	\$6	\$18

Table of Contents

Contributions

The Companies made a contribution of \$6 million, nearly all of which is for CECONY, to the other postretirement benefit plans in 2015. The Companies' policy is to fund the total periodic benefit cost of the plans to the extent tax deductible.

Note G — Environmental Matters

Superfund Sites

Hazardous substances, such as asbestos, polychlorinated biphenyls (PCBs) and coal tar, have been used or generated in the course of operations of the Utilities and their predecessors and are present at sites and in facilities and equipment they currently or previously owned, including sites at which gas was manufactured or stored.

The Federal Comprehensive Environmental Response, Compensation and Liability Act of 1980 and similar state statutes (Superfund) impose joint and several liability, regardless of fault, upon generators of hazardous substances for investigation and remediation costs (which include costs of demolition, removal, disposal, storage, replacement, containment and monitoring) and natural resource damages. Liability under these laws can be material and may be imposed for contamination from past acts, even though such past acts may have been lawful at the time they occurred. The sites at which the Utilities have been asserted to have liability under these laws, including their manufactured gas plant sites and any neighboring areas to which contamination may have migrated, are referred to herein as "Superfund Sites."

For Superfund Sites where there are other potentially responsible parties and the Utilities are not managing the site investigation and remediation, the accrued liability represents an estimate of the amount the Utilities will need to pay to investigate and, where determinable, discharge their related obligations. For Superfund Sites (including the manufactured gas plant sites) for which one of the Utilities is managing the investigation and remediation, the accrued liability represents an estimate of the company's share of the undiscounted cost to investigate the sites and, for sites that have been investigated in whole or in part, the cost to remediate the sites, if remediation is necessary and if a reasonable estimate of such cost can be made. Remediation costs are estimated in light of the information available, applicable remediation standards and experience with similar sites.

The accrued liabilities and regulatory assets related to Superfund Sites at September 30, 2015 and December 31, 2014 were as follows:

<i>(Millions of Dollars)</i>	Con Edison		CECONY	
	2015	2014	2015	2014
Accrued Liabilities:				
Manufactured gas plant sites	\$666	\$684	\$572	\$587
Other Superfund Sites	80	80	79	79
Total	\$746	\$764	\$651	\$666
Regulatory assets	\$884	\$925	\$784	\$820

Most of the accrued Superfund Site liability relates to sites that have been investigated, in whole or in part. However, for some of the sites, the extent and associated cost of the required remediation has not yet been determined. As investigations progress and information pertaining to the required remediation becomes available, the Utilities expect that additional liability may be accrued, the amount of which is not presently determinable but may be material. The Companies are unable to estimate the time period over which the remaining accrued liability will be incurred because, among other things, the required remediation has not been determined for some of the sites. Under their current rate plans, the Utilities are permitted to recover or defer as regulatory assets (for subsequent recovery through rates) certain site investigation and remediation costs.

Environmental remediation costs incurred and insurance recoveries received related to Superfund Sites for the three and nine months ended September 30, 2015 and 2014 were as follows:

<i>(Millions of Dollars)</i>	For the Three Months Ended September 30,			
	Con Edison		CECONY	
	2015	2014	2015	2014
Remediation costs incurred	\$6	\$5	\$6	\$2
Insurance recoveries received	—	—	—	—

For the Nine Months Ended September 30,

<i>(Millions of Dollars)</i>	Con Edison		CECONY	
	2015	2014	2015	2014
Remediation costs incurred	\$21	\$19	\$18	\$12
Insurance recoveries received (a)	—	5	—	5

(a) Reduced amount deferred for recovery from customers

In 2014, Con Edison and CECONY estimated that for their manufactured gas plant sites (including CECONY's Astoria site), the aggregate undiscounted potential liability for the investigation and remediation of coal tar and/or other environmental contaminants could range up to \$2.7 billion and \$2.5 billion, respectively. These estimates were based on the assumption that there is contamination at all sites, including those that have not yet been fully investigated and additional assumptions about the extent of the contamination and the type and extent of the remediation that may be required. Actual experience may be materially different.

Asbestos Proceedings

Suits have been brought in New York State and federal courts against the Utilities and many other defendants, wherein a large number of plaintiffs sought large amounts of compensatory and punitive damages for deaths and injuries allegedly caused by exposure to asbestos at various premises of the Utilities. The suits that have been resolved, which are many, have been resolved without any payment by the Utilities, or for amounts that were not, in the aggregate, material to them. The amounts specified in all the remaining thousands of suits total billions of dollars; however, the Utilities believe that these amounts are greatly exaggerated, based on the disposition of previous claims. At September 30, 2015 and December 31, 2014, Con Edison and CECONY had accrued their estimated aggregate undiscounted potential liabilities for these suits and additional suits that may be brought over the next 15 years of \$8 million and \$7 million, respectively. The estimates were based upon a combination of modeling, historical data analysis and risk factor assessment. Trial courts have begun, and unless otherwise determined by an appellate court may continue, to apply a different standard for determining liability in asbestos suits than the standard that applied historically. As a result, the Companies currently believe that there is a reasonable possibility of an exposure to loss in excess of the liability accrued for the suits. The Companies are unable to estimate the amount or range of such loss. In addition, certain current and former employees have claimed or are claiming workers' compensation benefits based on alleged disability from exposure to asbestos. Under its current rate plans, CECONY is permitted to defer as regulatory assets (for subsequent recovery through rates) costs incurred for its asbestos lawsuits and workers' compensation claims.

The accrued liability for asbestos suits and workers' compensation proceedings (including those related to asbestos exposure) and the amounts deferred as regulatory assets for the Companies at September 30, 2015 and December 31, 2014 were as follows:

<i>(Millions of Dollars)</i>	Con Edison		CECONY	
	2015	2014	2015	2014
Accrued liability – asbestos suits	\$8	\$8	\$7	\$7
Regulatory assets – asbestos suits	\$8	\$8	\$7	\$7
Accrued liability – workers' compensation	\$86	\$83	\$81	\$78
Regulatory assets – workers' compensation	\$11	\$8	\$11	\$8

Note H — Other Material Contingencies

Manhattan Steam Main Rupture

In July 2007, a CECONY steam main located in midtown Manhattan ruptured. It has been reported that one person died and others were injured as a result of the incident. Several buildings in the area were damaged. Debris from the incident included dirt and mud containing asbestos. The response to the incident required the closing of several buildings and streets for various periods. Approximately 90 suits are pending against the company seeking generally unspecified compensatory and, in some cases, punitive damages, for wrongful death, personal injury, property damage and business interruption. The company has notified its insurers of the incident and believes that the policies in force at the time of the incident will cover the company's costs to satisfy its liability to others in connection with the suits. In the company's estimation, there is not a reasonable possibility that an exposure to loss exists for the suits that is materially in excess of the estimated liability accrued. At September 30, 2015, the company has accrued its estimated liability for the suits of \$50 million and an insurance receivable in the same amount.

Manhattan Explosion and Fire

On March 12, 2014, two multi-use five-story tall buildings located on Park Avenue between 116th and 117th Street in Manhattan were destroyed by an explosion and fire. CECONY had delivered gas to the buildings through service lines from a distribution main located below ground on Park Avenue. Eight people died and more than 50 people were injured. Additional buildings were also damaged. The National Transportation Safety Board (NTSB) investigated. The parties to the investigation included the company, the City of New York, the Pipeline and Hazardous Materials Safety Administration and the NYSPPSC (which is also conducting an investigation). In June 2015, the NTSB issued a final report concerning the incident, its probable cause and safety recommendations. The NTSB determined that the probable cause of the incident was (1) the failure of a defective fusion joint at a service tee (which joined a plastic service line to a plastic distribution main) installed by the company that allowed gas to leak from the distribution main and migrate into a building where it ignited and (2) a breach in a City sewer line that allowed groundwater and soil to flow into the sewer, resulting in a loss of support for the distribution main, which caused it to sag and overstressed the defective fusion joint. The NTSB also made safety recommendations, including recommendations to the company that addressed its procedures for the preparation and examination of plastic fusions, training of its staff on conditions for notifications to the City's Fire Department and extension of its gas main isolation valve installation program. Approximately 70 suits are pending against the company seeking generally unspecified damages and, in one case, punitive damages, for wrongful death, personal injury, property damage and business interruption. The company has notified its insurers of the incident and believes that the policies in force at the time of the incident will cover the company's costs, in excess of a required retention (the amount of which is not material), to satisfy any liability it may have for damages in connection with the incident. The company is unable to estimate the amount or range of its possible loss related to the incident. At September 30, 2015, the company had not accrued a liability for the incident.

Other Contingencies

See "Other Regulatory Matters" in Note B and "Uncertain Tax Positions" in Note I.

Guarantees

Con Edison and its subsidiaries enter into various agreements providing financial or performance assurance primarily to third parties on behalf of their subsidiaries. Maximum amounts guaranteed by Con Edison totaled \$2,576 million and \$2,547 million at September 30, 2015 and December 31, 2014, respectively.

A summary, by type and term, of Con Edison's total guarantees at September 30, 2015 is as follows:

Guarantee Type	0 – 3 years	4 – 10 years	> 10 years	Total
<i>(Millions of Dollars)</i>				
NY Transco	\$946	\$413	\$—	\$1,359
Energy transactions	760	36	89	885
Renewable electric production projects	176	82	44	302
Other	30	—	—	30
Total	\$1,912	\$531	\$133	\$2,576

NY Transco — Con Edison has guaranteed payment by its subsidiary, Con Edison Transmission, of the contributions it agreed to make to New York Transco LLC (NY Transco). Con Edison Transmission acquired a 46 percent interest in NY Transco when it was formed in 2014. NY Transco's transmission projects are expected to be developed initially by CECONY and other New York transmission owners and then sold to NY Transco. The development of the projects would be subject to authorizations from the NYSPPSC, the FERC and other federal, state and local agencies. Guarantee amount shown is for the maximum possible required amount of Con Edison Transmission's contributions, which assumes that all of the NY Transco projects proposed when NY Transco was formed receive all required regulatory approvals and are completed at 175 percent of their estimated costs and that NY Transco does not use any debt financing for the projects. Guarantee term shown is assumed as the timing of the contributions is not known.

Energy Transactions — Con Edison guarantees payments on behalf of its competitive energy businesses in order to facilitate physical and financial transactions in gas, pipeline capacity, transportation, oil, electricity, renewable energy credits and energy services. To the extent that liabilities exist under the contracts subject to these guarantees, such liabilities are included in Con Edison's consolidated balance sheet.

Renewable Electric Production Projects — Con Edison and Con Edison Development guarantee payments associated with the investment in solar and wind energy facilities on behalf of their wholly-owned subsidiaries. In addition, Con Edison Development also provided \$3 million in guarantees to Travelers Insurance Company for

Table of Contents

indemnity agreements for surety bonds in connection with the construction and operation of solar energy facilities performed by its subsidiaries.

Other — Other guarantees primarily relate to guarantees provided by Con Edison to Travelers Insurance Company for indemnity agreements for surety bonds in connection with energy service projects performed by Con Edison Solutions for \$25 million. In addition, Con Edison issued a guarantee to the Public Utility Commission of Texas covering obligations of Con Edison Solutions as a retail electric provider. Con Edison's estimate of the maximum potential obligation for this guarantee is \$5 million as of September 30, 2015.

Note I — Income Tax

Con Edison's income tax expense decreased to \$249 million for the three months ended September 30, 2015 from \$259 million for the three months ended September 30, 2014. Con Edison's effective tax rate for the three months ended September 30, 2015 and 2014 was 37 percent. CECONY's income tax expense decreased to \$222 million for the three months ended September 30, 2015 from \$233 million for the three months ended September 30, 2014. CECONY's effective tax rate for the three months ended September 30, 2015 and 2014 was 37 percent.

Con Edison's income tax expense decreased to \$548 million for the nine months ended September 30, 2015 from \$559 million for the nine months ended September 30, 2014. Con Edison's effective tax rate for the nine months ended September 30, 2015 and 2014 was 35 percent and 36 percent, respectively. The decrease in Con Edison's effective tax rate is due primarily to higher production tax credits and amortization of investment tax credits from the competitive energy businesses. CECONY's income tax expense increased to \$515 million for the nine months ended September 30, 2015 from \$496 million for the nine months ended September 30, 2014. CECONY's effective tax rate for the nine months ended September 30, 2015 and 2014 was 35 percent.

In September 2015, Con Edison and subsidiaries filed its 2014 federal income tax return. As part of the filing, the company generated excess income tax credits (principally investment tax credits). The company plans to carryback a portion of the excess tax credits to the 2013 federal income tax return and request a tax refund of \$30 million.

Uncertain Tax Positions

At September 30, 2015, the estimated liability for uncertain tax positions for Con Edison was \$34 million (\$2 million for CECONY). Con Edison reasonably expects to resolve approximately \$25 million (\$16 million, net of federal taxes) of its uncertain tax positions within the next twelve months, of which the entire amount, if recognized, would reduce Con Edison's effective tax rate. The amount related to CECONY is approximately \$2 million (\$1 million, net of federal taxes), of which the entire amount, if recognized, would reduce CECONY's effective tax rate. The total amount of unrecognized tax benefits, if recognized, that would reduce Con Edison's effective tax rate is \$34 million (\$22 million, net of federal taxes).

The companies recognize interest on liabilities for uncertain tax positions in interest expense and would recognize penalties, if any, in operating expenses in the companies' consolidated income statements. In the three and nine months ended September 30, 2015, Con Edison recognized an immaterial amount of interest expense and no penalties for uncertain tax positions in its consolidated income statements. At September 30, 2015 and December 31, 2014, Con Edison recognized an immaterial amount of accrued interest on its consolidated balance sheets.

Note K — Derivative Instruments and Hedging Activities

Con Edison's subsidiaries hedge market price fluctuations associated with physical purchases and sales of electricity, natural gas, steam and, to a lesser extent, refined fuels by using derivative instruments including futures, forwards, basis swaps, options, transmission congestion contracts and financial transmission rights contracts. Derivatives are recognized on the balance sheet at fair value (see Note L), unless an exception is available under the accounting rules for derivatives and hedging. Qualifying derivative contracts that have been designated as normal purchases or normal sales contracts are not reported at fair value under the accounting rules.

Table of Contents

The fair values of the Companies' commodity derivatives including the offsetting of assets and liabilities on the consolidated balance sheet at September 30, 2015 and December 31, 2014 were:

<i>(Millions of Dollars)</i>	2015			2014		
	Gross Amounts of Recognized Assets/(Liabilities)	Gross Amounts Offset	Net Amounts of Assets/(Liabilities) (a)	Gross Amounts of Recognized Assets/(Liabilities)	Gross Amounts Offset	Net Amounts of Assets/(Liabilities) (a)

(a) Derivative instruments and collateral were offset on the consolidated balance sheet as applicable under the accounting rules. The Companies enter into master agreements for their commodity derivatives. These agreements typically provide offset in the event of contract termination. In such case, generally the non-defaulting party's payable will be offset by the defaulting party's payable. The non-defaulting party will customarily notify the defaulting party within a specific time period and come to an agreement on the early termination amount.

(b) At September 30, 2015 and December 31, 2014, margin deposits for Con Edison (\$17 million and \$27 million, respectively) and CECONY (\$17 million and \$25 million, respectively) were classified as derivative assets on the consolidated balance sheet, but not included in the table. Margin is collateral, typically cash, that the holder of a derivative instrument is required to deposit in order to transact on an exchange and to cover its potential losses with its broker or the exchange.

(c) Amounts represent derivative assets and liabilities included in assets and liabilities held for sale on the consolidated balance sheet (see Note O).

The Utilities generally recover their prudently incurred fuel, purchased power and gas costs, including hedging gains and losses, in accordance with rate provisions approved by the applicable state utility regulators. In accordance with the accounting rules for regulated operations, the Utilities record a regulatory asset or liability to defer recognition of unrealized gains and losses on their electric and gas derivatives. As gains and losses are realized in future periods, they will be recognized as purchased power, gas and fuel costs in the Companies' consolidated income statements. Con Edison's competitive energy businesses record realized and unrealized gains and losses on their derivative contracts in purchased power, gas purchased for resale and non-utility revenue in the reporting period in which they occur. Management believes that these derivative instruments represent economic hedges that mitigate exposure to fluctuations in commodity prices.

Table of Contents

The following table presents the realized and unrealized gains or losses on commodity derivatives that have been deferred or recognized in earnings for the three and nine months ended September 30, 2015 and 2014:

For the Three Months Ended September 30,					
		Con Edison		CECONY	
(Millions of Dollars)	Balance Sheet Location	2015	2014	2015	2014
Pre-tax gains/(losses) deferred in accordance with accounting rules for regulated operations:					
Current	Deferred derivative gains	\$(1)	\$(6)	\$(1)	\$(5)
Noncurrent	Deferred derivative gains	—	(5)	—	(5)
Total deferred gains/(losses)		\$(1)	\$(11)	\$(1)	\$(10)
Current	Deferred derivative losses	\$8	\$(6)	\$8	\$(5)
Current	Recoverable energy costs	(53)	(33)	(49)	(29)
Noncurrent	Deferred derivative losses	14	3	13	3
Total deferred gains/(losses)		\$(31)	\$(36)	\$(28)	\$(31)
Net deferred gains/(losses)		\$(32)	\$(47)	\$(29)	\$(41)
Income Statement Location					
Pre-tax gain/(loss) recognized in income					
	Purchased power expense	\$(31) (a)	\$(28) (b)	\$—	\$—
	Gas purchased for resale	(26)	(29)	—	—
	Non-utility revenue	5 (a)	20 (b)	—	—
Total pre-tax gain/(loss) recognized in income		\$(52)	\$(37)	\$—	\$—

(a) For the three months ended September 30, 2015, Con Edison recorded in purchased power expense an unrealized pre-tax gain of \$12 million.

(b) For the three months ended September 30, 2014, Con Edison recorded in purchased power expense an unrealized pre-tax loss of \$(1) million.

For the Nine Months Ended September 30,					
		Con Edison		CECONY	
(Millions of Dollars)	Balance Sheet Location	2015	2014	2015	2014
Pre-tax gains/(losses) deferred in accordance with accounting rules for regulated operations:					
Current	Deferred derivative gains	\$—	\$25	\$1	\$20
Noncurrent	Deferred derivative gains	—	1	—	1
Total deferred gains/(losses)		\$—	\$26	\$1	\$21
Current	Deferred derivative losses	\$40	\$10	\$40	\$10
Current	Recoverable energy costs	(92)	54	(87)	41
Noncurrent	Deferred derivative losses	(7)	3	(5)	2
Total deferred gains/(losses)		\$(59)	\$67	\$(52)	\$53
Net deferred gains/(losses)		\$(59)	\$93	\$(51)	\$74
Income Statement Location					
Pre-tax gain/(loss) recognized in income					
	Purchased power expense	\$(60) (a)	\$134 (b)	\$—	\$—
	Gas purchased for resale	(94)	(75)	—	—
	Non-utility revenue	20 (a)	10 (b)	—	—
Total pre-tax gain/(loss) recognized in income		\$(134)	\$69	\$—	\$—

(a) For the nine months ended September 30, 2015, Con Edison recorded unrealized pre-tax gains and losses in non-utility operating revenue (\$3 million loss) and purchased power expense (\$6 million gain).

(b) For the nine months ended September 30, 2014, Con Edison recorded in purchased power expense an unrealized pre-tax gain of \$14 million.

Table of Contents

The following table presents the hedged volume of Con Edison's and CECONY's derivative transactions at September 30, 2015:

	Electric Energy (MWHs) (a)(b)	Capacity (MWs) (a)	Natural Gas (Dt) (a)(b)	Refined Fuels (gallons)
Con Edison (c)	18,475,688	7,201	63,386,967	4,620,000
CECONY	5,972,325	2,400	56,690,000	4,620,000

(a) Volumes are reported net of long and short positions, except natural gas collars where the volumes of long positions are reported.

(b) Excludes electric congestion and gas basis swap contracts which are associated with electric and gas contracts and hedged volumes.

(c) Includes 11,445,799 MWHs for electric energy, 5,436 MWs for capacity and 509,294 Dt for natural gas derivative transactions that are held for sale.

The Companies are exposed to credit risk related to transactions entered into primarily for the various energy supply and hedging activities by the Utilities and the competitive energy businesses. Credit risk relates to the loss that may result from a counterparty's nonperformance. The Companies use credit policies to manage this risk, including an established credit approval process, monitoring of counterparty limits, netting provisions within agreements, collateral or prepayment arrangements, credit insurance and credit default swaps. The Companies measure credit risk exposure as the replacement cost for open energy commodity and derivative positions plus amounts owed from counterparties for settled transactions. The replacement cost of open positions represents unrealized gains, net of any unrealized losses where the Companies have a legally enforceable right to offset.

At September 30, 2015, Con Edison and CECONY had \$154 million and \$17 million of credit exposure in connection with energy supply and hedging activities, net of collateral, respectively. Con Edison's net credit exposure consisted of \$71 million with commodity exchange brokers, \$69 million with independent system operators, \$7 million with investment-grade counterparties and \$7 million with non-investment grade/non-rated counterparties. CECONY's net credit exposure was with commodity exchange brokers.

The collateral requirements associated with, and settlement of, derivative transactions are included in net cash flows from operating activities in the Companies' consolidated statement of cash flows. Most derivative instrument contracts contain provisions that may require a party to provide collateral on its derivative instruments that are in a net liability position. The amount of collateral to be provided will depend on the fair value of the derivative instruments and the party's credit ratings.

The following table presents the aggregate fair value of the Companies' derivative instruments with credit-risk-related contingent features that are in a net liability position, the collateral posted for such positions and the additional collateral that would have been required to be posted had the lowest applicable credit rating been reduced one level and to below investment grade at September 30, 2015:

(Millions of Dollars)	Con Edison (a)	CECONY (a)
Aggregate fair value – net liabilities	\$52	\$32
Collateral posted	5	—
Additional collateral (b) (downgrade one level from current ratings)	1	—
Additional collateral (b) (downgrade to below investment grade from current ratings)	72 (c)	43 (c)

(a) Non-derivative transactions for the purchase and sale of electricity and gas and qualifying derivative instruments, which have been designated as normal purchases or normal sales, are excluded from the table. These transactions primarily include purchases of electricity from independent system operators. In the event the Utilities and the competitive energy businesses were no longer extended unsecured credit for such purchases, the Companies would be required to post additional collateral of \$3 million at September 30, 2015. For certain other such non-derivative transactions, the Companies could be required to post collateral under certain circumstances, including in the event counterparties had reasonable grounds for insecurity.

(b) The Companies measure the collateral requirements by taking into consideration the fair value amounts of derivative instruments that contain credit-risk-related contingent features that are in a net liabilities position plus amounts owed to counterparties for settled transactions and amounts required by counterparties for minimum financial security. The fair value amounts represent unrealized losses, net of any unrealized gains where the Companies have a legally enforceable right to offset.

(c) Derivative instruments that are net assets have been excluded from the table. At September 30, 2015, if Con Edison had been downgraded to below investment grade, it would have been required to post additional collateral for such derivative instruments of \$9 million.

Note L — Fair Value Measurements

The accounting rules for fair value measurements and disclosures define fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in a principal or most advantageous market. Fair value is a market-based measurement that is determined based on inputs, which refer broadly to assumptions that market participants use in pricing assets or

Table of Contents

liabilities. These inputs can be readily observable, market corroborated, or generally unobservable firm inputs. The Companies often make certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, and the risks inherent in the inputs to valuation techniques. The Companies use valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs.

The accounting rules for fair value measurements and disclosures established a fair value hierarchy, which prioritizes the inputs to valuation techniques used to measure fair value in three broad levels. The rules require that assets and liabilities be classified in their entirety based on the level of input that is significant to the fair value measurement. Assessing the significance of a particular input may require judgment considering factors specific to the asset or liability, and may affect the valuation of the asset or liability and their placement within the fair value hierarchy. The Companies classify fair value balances based on the fair value hierarchy defined by the accounting rules for fair value measurements and disclosures as follows:

- Level 1 – Consists of assets or liabilities whose value is based on unadjusted quoted prices in active markets at the measurement date. An active market is one in which transactions for assets or liabilities occur with sufficient frequency and volume to provide pricing information on an ongoing basis. This category includes contracts traded on active exchange markets valued using unadjusted prices quoted directly from the exchange.
- Level 2 – Consists of assets or liabilities valued using industry standard models and based on prices, other than quoted prices within Level 1, that are either directly or indirectly observable as of the measurement date. The industry standard models consider observable assumptions including time value, volatility factors and current market and contractual prices for the underlying commodities, in addition to other economic measures. This category includes contracts traded on active exchanges or in over-the-counter markets priced with industry standard models.
- Level 3 – Consists of assets or liabilities whose fair value is estimated based on internally developed models or methodologies using inputs that are generally less readily observable and supported by little, if any, market activity at the measurement date. Unobservable inputs are developed based on the best available information and subject to cost benefit constraints. This category includes contracts priced using models that are internally developed and contracts placed in illiquid markets. It also includes contracts that expire after the period of time for which quoted prices are available and internal models are used to determine a significant portion of the value.

Assets and liabilities measured at fair value on a recurring basis as of September 30, 2015 and December 31, 2014 are summarized below.

(Millions of Dollars)	2015					2014				
	Level 1	Level 2	Level 3	Netting Adjustment (e)	Total	Level 1	Level 2	Level 3	Netting Adjustment (e)	Total
Con Edison										
Derivative assets:										
Commodity (a)(b)(c)	\$1	\$15	\$11	\$6	\$33	\$3	\$78	\$28	\$(27)	\$82
Commodity held for sale (f)	—	37	—	(37)	—	—	—	—	—	—
Other (a)(b)(d)	181	112	—	—	293	163	116	—	—	279
Total assets	\$182	\$164	\$11	\$(31)	\$326	\$166	\$194	\$28	\$(27)	\$361

Commodity (a)(b)(c)	\$11	\$67	\$—	\$(45)	\$33	\$16	\$91	\$—	\$(49)	\$58

Table of Contents

- (a) The Companies' policy is to review the fair value hierarchy and recognize transfers into and transfers out of the levels at the end of each reporting period. There were no transfers between levels 1, 2 and 3 for the nine months ended September 30, 2015 and for the year ended December 31, 2014.
- (b) Level 2 assets and liabilities include investments held in the deferred compensation plan and/or non-qualified retirement plans, exchange-traded contracts where there is insufficient market liquidity to warrant inclusion in Level 1, certain over-the-counter derivative instruments for electricity, refined products and natural gas. Derivative instruments classified as Level 2 are valued using industry standard models that incorporate corroborated observable inputs; such as pricing services or prices from similar instruments that trade in liquid markets, time value and volatility factors.
- (c) The accounting rules for fair value measurements and disclosures require consideration of the impact of nonperformance risk (including credit risk) from a market participant perspective in the measurement of the fair value of assets and liabilities. At September 30, 2015 and December 31, 2014, the Companies determined that nonperformance risk would have no material impact on their financial position or results of operations.
- (d) Other assets are comprised of assets such as life insurance contracts within the deferred compensation plan and non-qualified retirement plans.
- (e) Amounts represent the impact of legally-enforceable master netting agreements that allow the Companies to net gain and loss positions and cash collateral held or placed with the same counterparties.
- (f) Amounts represent derivative assets and liabilities included in Assets and Liabilities held for sale on the consolidated balance sheet (see Note O).

The employees in the Companies' risk management group develop and maintain the Companies' valuation policies and procedures for, and verify pricing and fair value valuation of, commodity derivatives. Under the Companies' policies and procedures, multiple independent sources of information are obtained for forward price curves used to value commodity derivatives. Fair value and changes in fair value of commodity derivatives are reported on a monthly basis to the Companies' risk committees, comprised of officers and employees of the Companies that oversee energy hedging at the Utilities and the competitive energy businesses. The risk management group reports to the Companies' Vice President and Treasurer.

	Fair Value of Level 3 at September 30, 2015 (Millions of Dollars)	Valuation Techniques	Unobservable Inputs	Range
Con Edison – Commodity				
Electricity	\$(5)	Discounted Cash Flow	Forward energy prices (a)	\$18.50-\$91.75 per MWH
		Discounted Cash Flow	Forward capacity prices (a)	\$2.96-\$15.01 per kW-month
Transmission Congestion Contracts/Financial Transmission Rights	9	Discounted Cash Flow	Discount to adjust auction prices for inter-zonal forward price curves (b)	40.8%-57.9%
			Discount to adjust auction prices for historical monthly realized settlements (b)	37.5%-82.2%
			Inter-zonal forward price curves adjusted for historical zonal losses (b)	\$(5.30)-\$2.94 per MWH
Total Con Edison—Commodity	\$4			
CECONY—Commodity				
Transmission Congestion Contracts	\$8	Discounted Cash Flow	Discount to adjust auction prices for inter-zonal forward price curves (b)	40.8%-57.9%
			Discount to adjust auction prices for historical monthly realized settlements (b)	37.5%-82.2%

(a) Generally, increases/(decreases) in this input in isolation would result in a higher/(lower) fair value measurement.

(b) Generally, increases/(decreases) in this input in isolation would result in a lower/(higher) fair value measurement.

The table listed below provides a reconciliation of the beginning and ending net balances for assets and liabilities measured at fair value as of September 30, 2015 and 2014 and classified as Level 3 in the fair value hierarchy:

(Millions of Dollars)	For the Three Months Ended September 30,			
	Con Edison		CECONY	
	2015	2014	2015	2014
Beginning balance as of July 1,	\$13	\$27	\$11	\$14
Included in earnings	(4)	(8)	(1)	(3)
Included in regulatory assets and liabilities	(1)	(4)	(1)	(4)
Purchases	1	3	1	3
Settlements	(5)	3	(2)	1
Ending balance as of September 30,	\$4	\$21	\$8	\$11

<i>(Millions of Dollars)</i>	For the Nine Months Ended September 30,			
	Con Edison		CECONY	
	2015	2014	2015	2014
Beginning balance as of January 1,	\$20	\$9	\$13	\$6
Included in earnings	(18)	41	(5)	6
Included in regulatory assets and liabilities	(1)	4	(1)	4
Purchases	9	15	5	13
Settlements	(6)	(48)	(4)	(18)
Ending balance as of September 30,	\$4	\$21	\$8	\$11

For the Utilities, realized gains and losses on Level 3 commodity derivative assets and liabilities are reported as part of purchased power, gas and fuel costs. The Utilities generally recover these costs in accordance with rate provisions approved by the applicable state public utilities regulators. Unrealized gains and losses for commodity derivatives are generally deferred on the consolidated balance sheet in accordance with the accounting rules for regulated operations.

For the competitive energy businesses, realized and unrealized gains and losses on Level 3 commodity derivative assets and liabilities are reported in non-utility revenues (immaterial for both periods) and purchased power costs (\$3 million loss and \$5 million loss) on the consolidated income statement for the three months ended September 30, 2015 and 2014, respectively. Realized and unrealized gains and losses on Level 3 commodity derivative assets and liabilities are reported in non-utility revenues (immaterial for both periods) and purchased power costs (\$12 million loss and \$35 million gain) on the consolidated income statement for the nine months ended September 30, 2015 and 2014, respectively.

The change in fair value relating to Level 3 commodity derivative assets and liabilities held at September 30, 2015 and 2014 is included in non-utility revenues (immaterial for both periods) and purchased power costs (\$3 million loss and \$2 million loss) on the consolidated income statement for the three months ended September 30, 2015 and 2014, respectively. For the nine months ended September 30, 2015 and 2014, the change in fair value relating to Level 3 commodity derivative assets and liabilities is included in non-utility revenues (immaterial for both periods) and purchased power costs (\$8 million loss and \$8 million gain) on the consolidated income statement, respectively.

Note M — Variable Interest Entities

Con Edison enters into arrangements including leases, partnerships and electricity purchase agreements, with various entities. As a result of these arrangements, Con Edison retains or may retain a variable interest in these entities.

CECONY has a variable interest in a non-consolidated variable interest entity (VIE), Astoria Energy, LLC (Astoria Energy), with which CECONY has entered into a long-term electricity purchase agreement. CECONY is not the primary beneficiary of this VIE because CECONY does not have the power to direct activities that it deems most significant to the economic performance of Astoria Energy. In particular, CECONY has not invested in, or guaranteed the indebtedness of, Astoria Energy and CECONY does not operate or maintain Astoria Energy's generating facilities. CECONY also has long-term electricity purchase agreements with the following three potential VIEs: Cogen Technologies Linden Venture, LP, Brooklyn Navy Yard Cogeneration Partners, LP and Indeck Energy Services of Corinth, Inc. In 2014, requests were made of these three counterparties for information necessary to determine whether the entity was a VIE and whether CECONY is the primary beneficiary; however, the information was not made available. The payments pursuant to these agreements, which constitute CECONY's maximum exposure to loss with respect to the potential VIEs, for the three months ended September 30, 2015 were \$255 million for Cogen Technologies Linden Venture, LP, \$83 million for Brooklyn Navy Yard Cogeneration Partners, LP and \$25 million for Indeck Energy Services of Corinth, Inc.

In September 2015, Con Edison Development purchased a 50 percent membership interest in Panoche Holdings, LLC (Panoche Valley). As a result, Con Edison has a variable interest in Panoche Valley, which is a non-consolidated entity. Panoche Valley owns a project company that is developing a 247 MW (AC) solar electric production project in California. Electricity generated by the project is to be sold to the Southern California Edison Company pursuant to a long-term power purchase agreement. Con Edison is not the primary beneficiary since the power to direct the activities that most significantly impact the economics of Panoche Valley is shared equally between Con Edison Development and a third party. At September 30, 2015, Con Edison's consolidated balance sheet includes \$33 million in investments and \$25 million representing a note receivable related to Panoche Valley,

Table of Contents

which assessed in accordance with the accounting rules for variable interest entities, is Con Edison's current maximum exposure to loss in the entity.

The following table summarizes the VIEs in which Con Edison Development has entered into as of September 30, 2015:

Project Name (a)	Generating Capacity (b) (MWs AC)	Power Purchase Agreement Term in Years	Year of Initial Investment	Location	Maximum Exposure to Loss (Millions of Dollars) (c)
Copper Mountain Solar 3	128	20	2014	Nevada	\$189
Mesquite Solar 1	83	20	2013	Arizona	108
Copper Mountain Solar 2	75	25	2013	Nevada	85
California Solar	55	25	2012	California	76
Panoche Valley	124	20	2015	California	58
Broken Bow II	37	25	2014	Nebraska	55
Texas Solar 4	32	25	2014	Texas	49
Pilesgrove	9	n/a (d)	2010	New Jersey	26

(a) With the exception of Texas Solar 4, Con Edison's ownership interest is 50 percent and these projects are accounted for using the equity method of accounting. Con Edison is not the primary beneficiary since the power to direct the activities that most significantly impact the economics of the entities are shared equally between Con Edison Development and third parties. Con Edison's ownership interest in Texas Solar 4 is 80 percent and is consolidated in the financial statements. Con Edison is the primary beneficiary since the power to direct the activities that most significantly impact the economics of Texas Solar 4 is held by Con Edison Development. The maximum exposure for Texas Solar 4 is the net assets of the investment offset by a \$9 million noncontrolling interest.

(b) Represents Con Edison Development's ownership interest in the project.

(c) For investments accounted for under the equity method, maximum exposure is equal to the carrying value of the investment on the consolidated balance sheet and any related receivables due from the project. For consolidated investments, maximum exposure is equal to the net assets of the investment on the consolidated balance sheet less any applicable noncontrolling interest. Con Edison did not provide any financial or other support during the year that was not previously contractually required.

(d) Pilesgrove has 3-5 year Solar Renewable Energy Credit hedges in place.

Note N — New Financial Accounting Standards

In May 2014, the Financial Accounting Standards Board (FASB) and the International Accounting Standards Board (IASB) jointly issued a revenue recognition standard that will supersede the revenue recognition requirements within Accounting Standards Codification Topic 605, "Revenue Recognition," and most industry-specific guidance under the Codification through Accounting Standards Update (ASU) No. 2014-09, "Revenue from Contracts with Customers (Topic 606)." The purpose of the new guidance is to create a consistent framework for revenue recognition. The guidance clarifies how to measure and recognize revenue arising from customer contracts to depict the transfer of goods or services in an amount that reflects the consideration the entity expects to receive. In August 2015, the FASB issued amendments to defer the effective date of ASU No. 2014-09 to reporting periods beginning after December 15, 2017 through ASU No. 2015-14, "Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date". Early adoption is permitted for reporting periods beginning after December 15, 2016. The Companies are in the process of evaluating the application and impact of the new guidance on the Companies' financial position, results of operations and liquidity.

In January 2015, the FASB issued amendments on income statement guidance through ASU No. 2015-01, "Income Statement—Extraordinary and Unusual Items (Subtopic 225-20)." The amendments eliminate from GAAP the concept of extraordinary items. The amendments are effective for reporting periods beginning after December 15, 2015. Early adoption is permitted provided that the guidance is applied from the beginning of the fiscal year of adoption. The application of this guidance is not expected to have a material impact on the Companies' financial position, results of operations and liquidity.

In February 2015, the FASB issued amendments on consolidation guidance through ASU No. 2015-02, "Consolidation (Topic 810)." The amendments provide additional guidance for VIE accounting of limited partnerships and similar legal entities, fees paid to decision makers of a VIE, the effect of fee arrangements on primary beneficiary determination, and the effect of related parties on primary beneficiary determination. The amendments are effective prospectively for reporting periods beginning on or after December 15, 2015. Early adoption is permitted. The application of this guidance is not expected to have a material impact on the Companies' financial position, results of operations and liquidity.

In April 2015, the FASB issued amendments on debt issuance costs guidance through ASU No. 2015-03, "Interest—Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs." The amendments provide additional guidance requiring that debt issuance costs related to a recognized debt liability be presented in

Table of Contents

the balance sheet as a reduction of that debt liability rather than as a deferred cost (i.e. an asset) as required by current guidance. The FASB further clarified debt issuance cost guidance in August 2015 through ASU 2015-15, "Presentation and Subsequent Measurement of Debt Issuance Costs Associated With Line-of-Credit Arrangements," which allows entities to continue presenting debt issuance costs related to line-of-credit arrangements as deferred costs on the balance sheet. For public entities, the amendments are effective for reporting periods beginning on or after December 15, 2015. Early adoption is permitted. The application of this guidance is not expected to have a material impact on the Companies' financial position, results of operations and liquidity.

In April 2015, the FASB issued amendments on internal-use software guidance through ASU No. 2015-05, "Intangibles—Goodwill and Other—Internal-Use Software (Subtopic 350-40): Customer's Accounting for Fees Paid in a Cloud Computing Arrangement." The amendments provide guidance to customers about whether a cloud computing arrangement should be accounted for as a license of internal use software or as a service contract. For public entities, the amendments are effective for reporting periods beginning on or after December 15, 2015. Early adoption is permitted. The application of this guidance is not expected to have a material impact on the Companies' financial position, results of operations and liquidity.

In May 2015, the FASB issued amendments on disclosure guidance for investments using Net Asset Value per Share through ASU No. 2015-07, "Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)." The amendments remove the requirement to categorize investments in the fair value hierarchy if Net Asset Value per Share is used as a practical expedient to determine the fair value of the investment. For public entities, the amendments are effective for reporting periods beginning on or after December 15, 2015. Early adoption is permitted. The application of this guidance is not expected to have a material impact on the Companies' financial position, results of operations and liquidity.

In July 2015, the FASB issued amendments on the measurement of first-in, first-out and average cost inventory through ASU No. 2015-11, "Inventory (Topic 330): Simplifying the Measurement of Inventory." The amendments require that inventory within the scope of the guidance be measured at the lower of cost and net realizable value rather than cost and market value. For public entities, the amendments are effective for reporting periods beginning on or after December 15, 2016. Early adoption is permitted. The application of this guidance is not expected to have a material impact on the Companies' financial position, results of operations and liquidity.

In August 2015, the FASB issued amendments on the accounting for derivative contracts through ASU No. 2015-13, "Derivatives and Hedging (Topic 815): Application of the Normal Purchases and Normal Sales Scope Exception to Certain Electricity Contracts within Nodal Energy Markets." The amendments specify that the use of locational marginal pricing by an independent system operator does not constitute a net settlement of a contract and would not cause the contract to fail the physical delivery criterion of the normal purchases and normal sales scope exception. The amendments are effective upon issuance and should be applied prospectively. The application of this guidance does not have a material impact on the Companies' financial position, results of operations and liquidity.

In September 2015, the FASB issued an amendment to guidance for business combinations through ASU No. 2015-16, "Business Combinations (Topic 805): Simplifying the Accounting for Measurement-Period Adjustments." The amendment requires that an acquirer recognize adjustments to provisional amounts that are identified during the measurement period in the reporting period in which the adjustment amounts are determined as opposed to recognizing retrospectively. The amendment also requires that the acquirer record, in the same period's financial statements, the effect on earnings of changes in depreciation, amortization, or other income effects, if any, as a result of the change to the provisional amounts, calculated as if the accounting had been completed at the acquisition date. For public entities, the amendment is effective prospectively for reporting periods beginning after December 15, 2015. Early adoption is permitted. The application of this guidance is not expected to have a material impact on the Companies' financial position, results of operations and liquidity.

Note O — Assets Held For Sale

In June 2015, upon evaluating strategic alternatives, Con Edison initiated a plan to actively market and sell the retail electric supply business of its competitive energy businesses. The company expects the sale to close within the next twelve months. The company classified as held for sale the related assets and liabilities and ceased recording depreciation expense on these assets. There was no impairment of the assets held for sale, as the estimated fair value less costs to sell exceeded the carrying amount.

Table of Contents

In October 2015, upon evaluating strategic alternatives, O&R entered into an agreement to sell Pike County Light & Power Company (Pike) to Corning Natural Gas Holding Corporation for \$16 million, including estimated working capital adjustments. The closing of the sale, which the company expects to occur within the next twelve months, is subject to certain regulatory approvals by the NYSPSC, FERC and Pennsylvania Public Utility Commission. At September 30, 2015, the company classified the related electric and gas assets and liabilities as held for sale and ceased recording depreciation expense on these assets. O&R recorded an impairment charge of \$5 million (\$3 million net of taxes), representing the difference between the carrying amount of Pike's assets and the estimated sales proceeds. The impairment is reported in other deductions on Con Edison's consolidated income statement for the three and nine months ended September 30, 2015 and reflected in the amount included in assets held for sale on the company's consolidated balance sheet at September 30, 2015.

At September 30, 2015, the carrying amounts of the assets and liabilities designated as held for sale were as follows:

<i>(Millions of Dollars)</i>	Retail Electric Supply Business	Pike	Total
Cash and temporary cash investments	\$—	\$2	\$2
Accounts receivable	89	—	89
Accrued unbilled revenue	78	—	78
Other assets	2	1	3
Total current assets	169	3	172

Total liabilities held for sale	\$77	\$5	\$82

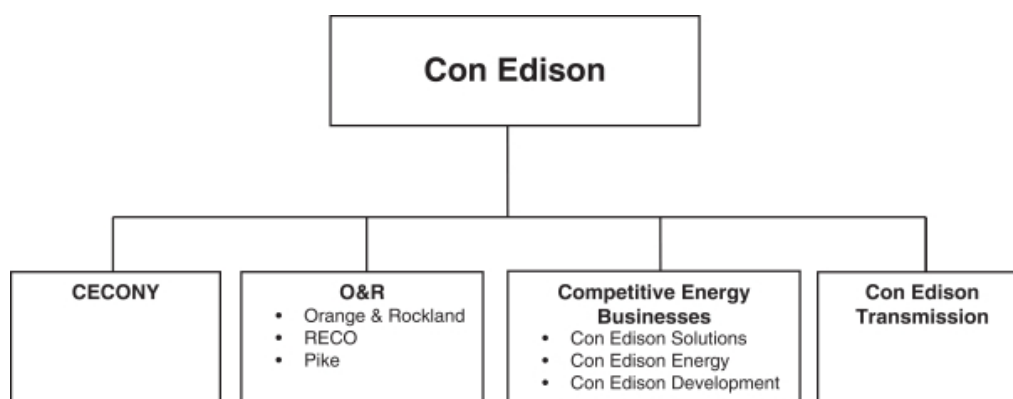

Item 2: Management’s Discussion and Analysis of Financial Condition and Results of Operations

This combined management’s discussion and analysis of financial condition and results of operations (MD&A) relates to the consolidated financial statements (the Third Quarter Financial Statements) included in this report of two separate registrants: Consolidated Edison, Inc. (Con Edison) and Consolidated Edison Company of New York, Inc. (CECONY) and should be read in conjunction with the financial statements and the notes thereto. As used in this report, the term the “Companies” refers to Con Edison and CECONY. CECONY is a subsidiary of Con Edison and, as such, information in this management’s discussion and analysis about CECONY applies to Con Edison.

This MD&A should be read in conjunction with the Third Quarter Financial Statements and the notes thereto, the MD&A in Item 7 of the Companies’ combined Annual Report on Form 10-K for the year ended December 31, 2014 (File Nos. 1-14514 and 1-1217, the Form 10-K) and the MD&A in Part 1, Item 2 of the Companies’ combined Quarterly Reports on Form 10-Q for the quarterly periods ended March 31, 2015 and June 30, 2015 (File Nos. 1-14514 and 1-1217).

Information in any item of this report referred to in this discussion and analysis is incorporated by reference herein. The use of terms such as “see” or “refer to” shall be deemed to incorporate by reference into this discussion and analysis the information to which reference is made.

Con Edison, incorporated in New York State in 1997, is a holding company that owns all of the outstanding common stock of CECONY, Orange and Rockland Utilities, Inc. (O&R) and the competitive energy businesses. In addition, in 2014 Con Edison formed Consolidated Edison Transmission, LLC (Con Edison Transmission) to invest in a transmission company. As used in this report, the term the “Utilities” refers to CECONY and O&R.

Con Edison’s principal business operations are those of CECONY, O&R and the competitive energy businesses. CECONY’s principal business operations are its regulated electric, gas and steam delivery businesses. O&R’s principal business operations are its regulated electric and gas delivery businesses. The competitive energy businesses sell electricity to retail customers, provide energy-related products and services, and develop, own and operate renewable and energy infrastructure projects.

Con Edison seeks to provide shareholder value through continued dividend growth, supported by earnings growth in regulated utilities and contracted assets. The company invests to provide reliable, resilient, safe and clean energy critical for New York City’s growing economy. The company is an industry leading owner and operator of contracted, large-scale solar generation in the United States. Con Edison is a responsible neighbor, helping the communities it serves become more sustainable.

Table of Contents

CECONY

Electric

CECONY provides electric service to approximately 3.4 million customers in all of New York City (except a part of Queens) and most of Westchester County, an approximately 660 square mile service area with a population of more than nine million.

During the summer of 2015, electric peak demand in the company's service area was 12,316 MW (which occurred on July 20, 2015). At design conditions, electric peak demand in the company's service area would have been about 13,600 MW in 2015 compared to the company's forecast of 13,775 MW. The company decreased its five-year forecast of average annual growth of the electric peak demand in its service area at design conditions from approximately 0.9 percent (for 2015 to 2019) to 0.2 percent (for 2016 to 2020).

Gas

CECONY delivers gas to approximately 1.1 million customers in Manhattan, the Bronx, parts of Queens and most of Westchester County.

In May 2015, the company decreased its five-year forecast of average annual growth of the peak gas demand in its service area at design conditions from approximately 2.8 percent (for 2015 to 2019) to 2.3 percent (for 2016 to 2020). The decrease reflects, among other things, that the new five-year forecast no longer covers the 2014/2015 heating season, the fourth year in which there was a significant increase in oil-to-gas conversions following changes to New York City regulations that will phase out the use of certain types of heating oil.

Steam

CECONY operates the largest steam distribution system in the United States by producing and delivering approximately 23,000 MMlb of steam annually to approximately 1,700 customers in parts of Manhattan.

O&R

Electric

O&R and its utility subsidiaries, Rockland Electric Company (RECO) and Pike County Light & Power Company (Pike) (together referred to herein as O&R) provide electric service to approximately 0.3 million customers in southeastern New York and in adjacent areas of northern New Jersey and northeastern Pennsylvania, an approximately 1,350 square mile service area.

During the summer of 2015, electric peak demand in the company's service area was 1,405 MW (which occurred on July 20, 2015). At design conditions, electric peak demand in the company's service area would have been about 1,617 MW in 2015 compared to the company's forecast of 1,645 MW. The company decreased its five-year forecast of average annual growth of the electric peak demand in its service area at design conditions from approximately 0.9 percent (for 2015 to 2019) to 0.3 percent (2016 to 2020).

Gas

O&R delivers gas to over 0.1 million customers in southeastern New York and adjacent areas of northeastern Pennsylvania.

Assets Held for Sale

In October 2015, O&R entered into an agreement to sell Pike to Corning Natural Gas Holding Corporation (see Note O to the Third Quarter Financial Statements).

Table of Contents

Competitive Energy Businesses

Con Edison pursues competitive energy opportunities through three wholly-owned subsidiaries: Con Edison Solutions, Con Edison Energy and Con Edison Development. These businesses sell to retail customers electricity purchased in wholesale markets and enter into related hedging transactions, provide energy-related products and services to wholesale and retail customers, and develop, own and operate renewable and energy infrastructure projects. In June 2015, Con Edison initiated a plan to actively market and sell the retail electric supply business of its competitive energy businesses (see Note O to the Third Quarter Financial Statements). At September 30, 2015, Con Edison's equity investment in its competitive energy businesses was \$729 million and their assets were \$1,547 million (including \$173 million of assets classified as held for sale).

Certain financial data of Con Edison's businesses are presented below:

(Millions of Dollars, except percentages)	Three Months Ended September 30, 2015				Nine Months Ended September 30, 2015				At September 30, 2015	
	Operating Revenues		Net Income for Common Stock		Operating Revenues		Net Income for Common Stock		Assets	
CECONY	\$2,829	82%	\$375	88%	\$8,122	82%	\$935	92%	\$39,670	88%
O&R (a)	229	7%	20	5%	640	7%	35	3%	2,713	6%
Total Utilities	3,058	89%	395	93%	8,762	89%	970	95%	42,383	94%
Con Edison Solutions (b)(c)	343	10%	22	5%	962	10%	21	2%	373	1%
Con Edison Energy (b)(c)	25	1%	1	—%	80	1%	7	1%	159	—%
Con Edison Development	17	—%	14	3%	40	—%	27	3%	1,084	3%
Other (d)	—	—%	(4)	(1)%	3	—%	(8)	(1)%	972	2%
Total Con Edison	\$3,443	100%	\$428	100%	\$9,847	100%	\$1,017	100%	\$44,971	100%

- (a) Net income for the three and nine months ended September 30, 2015 includes \$3 million related to the impairment of certain assets held for sale. Assets at September 30, 2015 include assets classified as held for sale of \$21 million. See Note O to the Third Quarter Financial Statements.
- (b) Net income from the competitive energy businesses for the three and nine months ended September 30, 2015 includes \$7 million and \$2 million, respectively, of net after-tax mark-to-market gains/(losses) (Con Edison Solutions, \$7 million and \$4 million and Con Edison Energy, \$0 million and \$(2) million).
- (c) Operating revenues and net income from the competitive energy businesses for the three and nine months ended September 30, 2015 includes \$327 million and \$921 million, and \$23 million and \$25 million, respectively, related to their retail electric supply business. Assets at September 30, 2015 include assets classified as held for sale of \$173 million (see Note O to the Third Quarter Financial Statements).
- (d) Other includes parent company and consolidation adjustments.

Results of Operations

Net income for common stock and earnings per share for the three and nine months ended September 30, 2015 and 2014 were as follows:

(Millions of Dollars, except per share amounts)	Three Months Ended September 30,				Nine Months Ended September 30,			
	2015	2014	2015	2014	2015	2014	2015	2014
	Net Income for Common Stock		Earnings per Share		Net Income for Common Stock		Earnings per Share	
CECONY	\$375	\$399	\$1.28	\$1.36	\$935	\$905	\$3.19	\$3.09
O&R (a)	20	20	0.07	0.07	35	49	0.12	0.17
Competitive energy businesses (b)(c)	37	20	0.12	0.07	55	62	0.19	0.21
Other (d)	(4)	(3)	(0.01)	(0.01)	(8)	(6)	(0.03)	(0.02)
Con Edison (e)	\$428	\$436	\$1.46	\$1.49	\$1,017	\$1,010	\$3.47	\$3.45

- (a) Includes \$3 million or \$0.01 a share of net loss for the three and nine months ended September 30, 2015 related to the impairment of certain assets held for sale (see Note O to the Third Quarter Financial Statements).
- (b) Includes \$7 million or \$0.02 a share and \$0 million of net after-tax mark-to-market gains/(losses) for the three months ended September 30, 2015 and 2014, and \$2 million or \$0.01 a share and \$8 million or \$0.03 a share of net after-tax mark-to-market gains for the nine months ended September 30, 2015 and 2014, respectively. Includes an after-tax gain on sale of solar electric production projects of \$26 million or \$0.09 a share for the nine months ended September 30, 2014. Also includes an after-tax benefit of \$7 million or \$0.02 a share relating to the lease in/lease out (LILO) transactions terminated in 2013 for the nine months ended September 30, 2014.
- (c) Includes \$23 million or \$0.08 a share and \$7 million or \$0.02 a share of net income for the three months ended September 30, 2015 and 2014, respectively, and \$25 million or \$0.09 a share and \$3 million or \$0.01 a share of net income for the nine months ended September 30, 2015 and 2014, respectively, related to the retail electric supply business. See Note O to the Third Quarter Financial Statements. These amounts reflect net after-tax mark-to-market gains/(losses) of \$7 million or \$0.02 a share and \$(1) million for the three months ended September 30, 2015 and 2014, respectively, and \$4 million or \$0.01 a share and \$7 million or \$0.03 a share for the nine months ended September 30, 2015 and 2014, respectively.

Table of Contents

- (d) Other includes parent company and consolidation adjustments.
(e) Earnings per share on a diluted basis were \$1.45 a share and \$1.48 a share for the three months ended September 30, 2015 and 2014, respectively, and \$3.46 a share and \$3.44 a share for the nine months ended September 30, 2015 and 2014, respectively.

The Companies' results of operations for the three and nine months ended September 30, 2015, as compared with the 2014 periods, reflect the performance of the Utilities' rate plans and higher interest expense related to debt financing, and for the nine months ended September 30, 2015, growth in gas delivery service related to oil-to-gas conversions and lower other operations and maintenance expenses. The rate plans provide for revenues to cover expected increases in certain operating costs including depreciation and property taxes. In addition, under the rate plans, pensions and other postretirement costs and certain other costs are reconciled to amounts reflected in rates for such costs. The results of operations also include the net mark-to-market effects of the competitive energy businesses, the impairment of certain assets held for sale, the gain on sale of solar electric production projects and the impact of the LILO transactions.

The following table presents the estimated effect on earnings per share and net income for common stock for the three and nine months ended September 30, 2015 periods as compared with 2014 periods, resulting from these and other major factors:

	Three Months Variation		Nine Months Variation	
	Earnings per Share Variation	Net Income for Common Stock Variation	Earnings per Share Variation	Net Income for Common Stock Variation
<i>(Millions of Dollars, except per share amounts)</i>				
CECONY (a)				
Rate plans, primarily to recover increases in certain costs	\$0.10	\$31	\$0.27	\$82
Other operations and maintenance expenses	—	(1)	0.07	19
Depreciation and property taxes	(0.10)	(30)	(0.14)	(42)
Net interest expense	(0.02)	(7)	(0.08)	(23)
Other (b)	(0.06)	(17)	(0.02)	(6)
Total CECONY	(0.08)	(24)	0.10	30
O&R (a)				
Rate plans	0.01	2	—	—
Other operations and maintenance expenses	—	—	(0.03)	(8)
Other (c)	(0.01)	(2)	(0.02)	(6)
Total O&R	—	—	(0.05)	(14)
Competitive energy businesses				
Operating revenues less energy costs	0.07	21	0.10	29
Gain on sale of solar electric production projects	—	—	(0.09)	(26)
Other operations and maintenance expenses	(0.02)	(5)	(0.04)	(12)
Other	—	1	0.01	2
Total competitive energy businesses (c)	0.05	17	(0.02)	(7)
Other, including parent company expenses	—	(1)	(0.01)	(2)
Total variations	\$(0.03)	\$(8)	\$0.02	\$7

- (a) Under the revenue decoupling mechanisms in the Utilities' New York electric and gas rate plans and the weather-normalization clause applicable to their gas businesses, revenues are generally not affected by changes in delivery volumes from levels assumed when rates were approved. In general, the Utilities recover on a current basis the fuel, gas purchased for resale and purchased power costs they incur in supplying energy to their full-service customers. Accordingly, such costs do not generally affect the Companies' results of operations.
(b) These variations include a sales and use tax refund received of \$9 million or \$0.03 a share for the three and nine months ended September 30, 2014. In addition, the variations include the gain on sale of certain non-utility properties of \$5 million or \$0.02 a share and \$8 million or \$0.03 a share for the three and nine months ended September 30, 2014, respectively.
(c) These variations include the impairment of certain assets held for sale, the net mark-to-market effects and the impact of the LILO transactions shown in notes (a) and (b) in the Results of Operations table above.

The Companies' other operations and maintenance expenses for the three and nine months ended September 30, 2015 and 2014 were as follows:

Table of Contents

(Millions of Dollars)	Three Months Ended September 30,		Nine Months Ended September 30,

Electric

CECONY's results of electric operations for the three months ended September 30, 2015 compared with the 2014 period is as follows:

(Millions of Dollars)	Three Months Ended		
	September 30, 2015	September 30, 2014	Variation
Operating revenues	\$2,558	\$2,582	\$(24)
Purchased power	519	564	(45)
Fuel	24	37	(13)
Other operations and maintenance	598	603	(5)
Depreciation and amortization	207	198	9
Taxes, other than income taxes	399	369	30
Electric operating income	\$811	\$811	\$—

CECONY's electric sales and deliveries for the three months ended September 30, 2015 compared with the 2014 period were:

Description	Millions of kWhs Delivered				Revenues in Millions (a)			
	Three Months Ended				Three Months Ended			
	September 30, 2015	September 30, 2014	Variation	Percent Variation	September 30, 2015	September 30, 2014	Variation	Percent Variation
Residential/Religious (b)	3,577	3,129	448	14.3%	\$903	\$852	\$51	6.0%
Commercial/Industrial	2,692	2,725	(33)	(1.2)	574	606	(32)	(5.3)
Energy choice customers	7,822	7,479	343	4.6	888	891	(3)	(0.3)
NYPA, Municipal Agency and other sales	2,731	2,779	(48)	(1.7)	198	194	4	2.1
Other operating revenues (c)	—	—	—	—	(5)	39	(44)	Large
Total	16,822	16,112	710	4.4%	\$2,558	\$2,582	\$(24)	(0.9)%

- (a) Revenues from electric sales are subject to a revenue decoupling mechanism, as a result of which delivery revenues generally are not affected by changes in delivery volumes from levels assumed when rates were approved.
- (b) "Residential/Religious" generally includes single-family dwellings, individual apartments in multi-family dwellings, religious organizations and certain other not-for-profit organizations.
- (c) Other electric operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the revenue decoupling mechanism and other provisions of the company's rate plans.
- (d) After adjusting for variations, principally weather and billing days, electric delivery volumes in CECONY's service area decreased 2.3 percent in the three months ended September 30, 2015 compared with the 2014 period.

Table of Contents

Operating revenues decreased \$24 million in the three months ended September 30, 2015 compared with the 2014 period due primarily to lower purchased power (\$45 million) and fuel expenses (\$13 million), offset in part by higher revenues from the electric rate plan (\$31 million).

Purchased power expenses decreased \$45 million in the three months ended September 30, 2015 compared with the 2014 period due to a decrease in unit costs (\$124 million), offset by higher purchased volumes (\$79 million).

Fuel expenses decreased \$13 million in the three months ended September 30, 2015 compared with the 2014 period due to lower unit costs (\$15 million), offset by higher sendout volumes from the company's electric generating facilities (\$2 million).

Other operations and maintenance expenses decreased \$5 million in the three months ended September 30, 2015 compared with the 2014 period due primarily to lower pension costs (\$21 million) and lower costs for the support and protection of company underground facilities to accommodate New York City municipal projects (\$4 million), offset in part by higher electric operating costs (\$12 million) and an increase in the surcharges for assessments and fees that are collected in revenues from customers (\$9 million).

Depreciation and amortization increased \$9 million in the three months ended September 30, 2015 compared with the 2014 period due primarily to higher electric utility plant balances.

Taxes, other than income taxes increased \$30 million in the three months ended September 30, 2015 compared with the 2014 period principally due to the higher property taxes (\$19 million) and a sales and use tax refund received in 2014 (\$12 million).

Gas

CECONY's results of gas operations for the three months ended September 30, 2015 compared with the 2014 period is as follows:

(Millions of Dollars)	Three Months Ended		
	September 30, 2015	September 30, 2014	Variation
Operating revenues	\$213	\$210	\$3
Gas purchased for resale	30	36	(6)
Other operations and maintenance	106	102	4
Depreciation and amortization	35	33	2
Taxes, other than income taxes	59	53	6
Gas operating income	\$(17)	\$(14)	\$(3)

CECONY's gas sales and deliveries, excluding off-system sales, for the three months ended September 30, 2015 compared with the 2014 period were:

Description	Thousands of Dt Delivered				Revenues in Millions (a)			
	Three Months Ended				Three Months Ended			
	September 30, 2015	September 30, 2014	Variation	Percent Variation	September 30, 2015	September 30, 2014	Variation	Percent Variation
Residential	4,118	3,844	274	7.1%	\$83	\$88	\$(5)	(5.7)%
General	3,226	3,527	(301)	(8.5)	35	43	(8)	(18.6)
Firm transportation	8,185	8,090	95	1.2	58	61	(3)	(4.9)
Total firm sales and transportation	15,529	15,461	68	0.4	176	192	(16)	(8.3)

Total	66,446	66,504	(58)	(0.1)%	\$213	\$210	\$3	1.4%

Table of Contents

- (a) Revenues from gas sales are subject to a weather normalization clause and a revenue decoupling mechanism as a result of which delivery revenues are generally not affected by changes in delivery volumes from levels assumed when rates were approved. Delivery revenues, however, are affected by changes in volumes attributable to changes in the average number of customers.
- (b) After adjusting for variations, principally billing days, firm gas sales and transportation volumes in the company's service area increased 0.6 percent in the three months ended September 30, 2015 compared with the 2014 period.
- (c) Includes 765 and 246 thousands of Dt for the 2015 and 2014 periods, which are also reflected in firm transportation and other.
- (d) Other gas operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the company's rate plans.

Operating revenues increased \$3 million in the three months ended September 30, 2015 compared with the 2014 period due primarily to higher revenues from the gas rate plan (\$13 million), offset in part by lower gas purchased for resale expense (\$6 million).

Gas purchased for resale decreased \$6 million in the three months ended September 30, 2015 compared with the 2014 period due to lower unit costs (\$11 million), offset by higher sendout volumes (\$5 million).

Other operations and maintenance expenses increased \$4 million in the three months ended September 30, 2015 compared with the 2014 period due primarily to higher operating costs attributable to emergency response (\$9 million), offset in part by a decrease in the surcharges for assessments and fees that are collected in revenues from customers (\$5 million).

Depreciation and amortization increased \$2 million in the three months ended September 30, 2015 compared with the 2014 period due primarily to higher gas utility plant balances.

Taxes, other than income taxes increased \$6 million in the three months ended September 30, 2015 compared with the 2014 period principally due to higher property taxes (\$5 million) and a sales and use tax refund received in 2014 (\$2 million).

Steam

CECONY's results of steam operations for the three months ended September 30, 2015 compared with the 2014 period is as follows:

<i>(Millions of Dollars)</i>	Three Months Ended		
	September 30, 2015	September 30, 2014	Variation
Operating revenues	\$58	\$46	\$12
Purchased power	7	9	(2)
Fuel	7	5	2
Other operations and maintenance	46	43	3
Depreciation and amortization	20	19	1
Taxes, other than income taxes	27	11	16
Steam operating income	\$(49)	\$(41)	\$(8)

CECONY's steam sales and deliveries for the three months ended September 30, 2015 compared with the 2014 period were:

Description	Millions of Pounds Delivered				Revenues in Millions			
	Three Months Ended				Three Months Ended			
	September 30, 2015	September 30, 2014	Variation	Percent Variation	September 30, 2015	September 30, 2014	Variation	Percent Variation
General	19	14	5	35.7%	\$2	\$2	\$—	—
Apartment house	816	845	(29)	(3.4)	16	16	—	—
Annual power	2,961	2,779	182	6.5	46	46	—	—
Other operating revenues (a)	—	—	—	—	(6)	(18)	12	66.7%
Total	3,796	3,638	158	4.3%	\$(6)	\$(18)	\$12	26.1%

(a) Other steam operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the company's rate plans.

(b) After adjusting for variations, principally weather and billing days, steam sales and deliveries decreased 3.4 percent in three months ended September 30, 2015 compared with the 2014 period.

Table of Contents

Operating revenues increased \$12 million in the three months ended September 30, 2015 compared with the 2014 period due primarily to higher revenues from the steam rate plan (\$8 million), the weather impact on revenues (\$2 million) and higher fuel expenses (\$2 million), offset in part by lower purchased power costs (\$2 million).

Purchased power expenses decreased \$2 million in the three months ended September 30, 2015 compared with the 2014 period due to a decrease in unit costs.

Fuel expenses increased \$2 million in the three months ended September 30, 2015 compared with the 2014 period due to higher unit costs.

Other operations and maintenance expenses increased \$3 million in the three months ended September 30, 2015 compared with the 2014 period due primarily to higher steam operating costs.

Depreciation and amortization increased \$1 million in the three months ended September 30, 2015 compared with the 2014 period due primarily to higher steam utility plant balances.

Taxes, other than income taxes increased \$16 million in the three months ended September 30, 2015 compared with the 2014 period principally due to higher property taxes (\$15 million) and a sales and use tax refund received in 2014 (\$1 million).

Other Income (Deductions)

Other income (deductions) decreased \$13 million in the three months ended September 30, 2015 compared with the 2014 period due primarily to the gain on sale of certain non-utility property in 2014.

Net Interest Expense

Net interest expense increased \$11 million in the three months ended September 30, 2015 compared with the 2014 period due primarily to new debt issuances in late 2014.

Income Tax Expense

Income taxes decreased \$11 million in the three months ended September 30, 2015 compared with the 2014 period due primarily to lower income before income tax expense.

O&R

(Millions of Dollars)	Three Months Ended September 30, 2015			Three Months Ended September 30, 2014			2015-2014 Variation
	Electric	Gas	2015 Total	Electric	Gas	2014 Total	
Operating revenues	\$205	\$24	\$229	\$205	\$27	\$232	\$(3)

Electric

O&R's results of electric operations for the three months ended September 30, 2015 compared with the 2014 period is as follows:

Table of Contents

<i>(Millions of Dollars)</i>	Three Months Ended		
	September 30, 2015	September 30, 2014	Variation
Operating revenues	\$205	\$205	\$—
Purchased power	64	67	(3)
Other operations and maintenance	66	65	1
Depreciation and amortization	13	12	1
Taxes, other than income taxes	11	10	1
Electric operating income	\$51	\$51	\$—

O&R's electric sales and deliveries for the three months ended September 30, 2015 compared with the 2014 period were:

Description	Millions of kWhs Delivered				Revenues in Millions (a)			
	Three Months Ended				Three Months Ended			
	September 30, 2015	September 30, 2014	Variation	Percent Variation	September 30, 2015	September 30, 2014	Variation	Percent Variation
Residential/Religious (b)	533	477	56	11.7%	\$99	\$98	\$1	1.0%
Commercial/Industrial	220	211	9	4.3	35	36	(1)	(2.8)
Energy choice customers	926	884	42	4.8	69	66	3	4.5
Public authorities	28	28	—	—	3	3	—	—
Other operating revenues (c)	—	—	—	—	(1)	2	(3)	Large
Total	1,707	1,600	107	6.7% (d)	\$205	\$205	\$—	—

(a) O&R's New York electric delivery revenues are subject to a revenue decoupling mechanism, as a result of which delivery revenues are generally not affected by changes in delivery volumes from levels assumed when rates were approved. O&R's electric sales in New Jersey and Pennsylvania are not subject to a decoupling mechanism, and as a result, changes in such volumes do impact revenues.

(b) "Residential/Religious" generally includes single-family dwellings, individual apartments in multi-family dwellings, religious organizations and certain other not-for-profit organizations.

(c) Other electric operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the company's electric rate plan.

(d) After adjusting for weather and other variations, electric delivery volumes in O&R's service area decreased 0.2 percent in the three months ended September 30, 2015 compared with the 2014 period.

Purchased power expenses decreased \$3 million in the three months ended September 30, 2015 compared with the 2014 period due to a decrease in purchased volumes.

Other operations and maintenance expenses increased \$1 million in the three months ended September 30, 2015 compared with the 2014 period due primarily to an increase in surcharges for assessments and fees that are collected in revenues from customers.

Depreciation and amortization increased \$1 million in the three months ended September 30, 2015 compared with the 2014 period due primarily to higher electric utility plant balances.

Gas

O&R's results of gas operations for the three months ended September 30, 2015 compared with the 2014 period is as follows:

<i>(Millions of Dollars)</i>	Three Months Ended		
	September 30, 2015	September 30, 2014	Variation
Operating revenues	\$24	\$27	\$(3)
Gas purchased for resale	9	11	(2)
Other operations and maintenance	16	16	—
Depreciation and amortization	4	4	—
Taxes, other than income taxes	4	4	—
Gas operating income	\$(9)	\$(8)	\$(1)

Table of Contents

O&R's gas sales and deliveries, excluding off-system sales, for the three months ended September 30, 2015 compared with the 2014 period were:

Description	Thousands of Dt Delivered				Revenues in Millions (a)			
	Three Months Ended				Three Months Ended			
	September 30, 2015	September 30, 2014	Variation	Percent Variation	September 30, 2015	September 30, 2014	Variation	Percent Variation
Residential	481	487	(6)	(1.2)%	\$7	\$8	\$(1)	(12.5)%
General	120	125	(5)	(4.0)	1	2	(1)	(50.0)
Firm transportation	980	1,039	(59)	(5.7)	8	9	(1)	(11.1)
Total firm sales and transportation	1,581	1,651	(70)	(4.2)	16	19	(3)	(15.8)
Interruptible sales	938	891	47	5.3	—	—	—	—
Generation plants	10	21	(11)	(52.4)	—	—	—	—
Other	70	76	(6)	(7.9)	—	—	—	—
Other gas revenues	—	—	—	—	8	8	—	—
Total	2,599	2,639	(40)	(1.5)%	\$24	\$27	\$(3)	(11.1)%

(a) Revenues from New York gas sales are subject to a weather normalization clause and a revenue decoupling mechanism as a result of which delivery revenues are generally not affected by changes in delivery volumes from levels assumed when rates were approved. Delivery revenues, however, are affected by changes in volumes attributable to changes in the average number of customers.

Operating revenues decreased \$3 million in the three months ended September 30, 2015 compared with the 2014 period due primarily to a decrease in gas purchased for resale (\$2 million).

Gas purchased for resale decreased \$2 million in the three months ended September 30, 2015 compared with the 2014 period due to a decrease in purchased volumes (\$9 million), offset by an increase in unit costs (\$7 million).

Other Income (Deductions)

Other income (deductions) decreased \$5 million in the three months ended September 30, 2015 compared with the 2014 period due primarily to the impairment of certain assets held for sale (see Note O to the Third Quarter Financial Statements).

Income Tax Expense

Income taxes decreased \$7 million in the three months ended September 30, 2015 compared with the 2014 period due primarily to lower income before income tax expense and a tax benefit from a corporate-owned life insurance policy (\$2 million).

Competitive Energy Businesses

The competitive energy businesses' results of operations for the three months ended September 30, 2015 compared with the 2014 period is as follows:

(Millions of Dollars)	Three Months Ended		
	September 30, 2015	September 30, 2014	Variation
Operating revenues	\$386	\$321	\$65
Purchased power	270	236	34
Gas purchased for resale	25	29	(4)
Other operations and maintenance	37	28	9
Depreciation and amortization	6	3	3
Taxes, other than income taxes	5	5	—
Operating income	\$43	\$20	\$23

Operating revenues increased \$65 million in the three months ended September 30, 2015 compared with the 2014 period, due primarily to higher electric retail revenues. Electric retail revenues increased \$62 million due to higher sales volume (\$58 million) and higher unit prices (\$4 million). Wholesale revenues decreased \$5 million due to lower sales volumes. Solar revenues increased \$8 million primarily due to an increase in solar electric production

Table of Contents

projects in operation. Net mark-to-market values increased \$12 million, of which \$14 million in gains are reflected in purchased power expenses and \$2 million in losses are reflected in revenues. Other revenues increased \$2 million due primarily to higher energy services revenues.

Purchased power expenses increased \$34 million in the three months ended September 30, 2015 compared with the 2014 period due primarily to higher volumes (\$46 million) and unit prices (\$2 million), offset by changes in mark-to-market gains (\$14 million).

Gas purchased for resale decreased \$4 million in the three months ended September 30, 2015 compared with the 2014 period due to lower purchased volumes.

Other operations and maintenance expenses increased \$9 million in the three months ended September 30, 2015 compared with the 2014 period due primarily to an increase in energy services costs (\$4 million), other general operating expenses (\$4 million) and business development costs (\$1 million).

Depreciation and amortization increased \$3 million in the three months ended September 30, 2015 compared with the 2014 period due an increase in solar electric production projects in operation during 2015.

Income Tax Expense

Income taxes increased \$6 million in the three months ended September 30, 2015 compared with the 2014 period due primarily to higher income before income tax expense, offset in part by higher production tax credits and amortization of investment tax credits (\$2 million).

Other

For Con Edison, "Other" includes parent company and consolidation adjustments.

Depreciation and amortization	610	581	29
Taxes, other than income taxes	1,127	1,103	24
Electric operating income	\$1,511	\$1,416	\$95

CECONY's electric sales and deliveries for the nine months ended September 30, 2015 compared with the 2014 period were:

Description	Millions of kWhs Delivered				Revenues in Millions (a)			
	Nine Months Ended				Nine Months Ended			
	September 30, 2015	September 30, 2014	Variation	Percent Variation	September 30, 2015	September 30, 2014	Variation	Percent Variation
Residential/Religious (b)	8,247	7,636	611	8.0%	\$2,198	\$2,234	\$(36)	(1.6)%
Commercial/Industrial	7,375	7,472	(97)	(1.3)	1,549	1,697	(148)	(8.7)
Energy choice customers	20,339	20,014	325	1.6	2,102	2,012	90	4.5
NYPA, Municipal Agency and other sales	7,687	7,807	(120)	(1.5)	467	480	(13)	(2.7)
Other operating revenues (c)	—	—	—	—	100	212	(112)	(52.8)
Total	43,648	42,929	719	1.7%	\$6,416	\$6,635	\$(219)	(3.3)%

(a) Revenues from electric sales are subject to a revenue decoupling mechanism, as a result of which delivery revenues generally are not affected by changes in delivery volumes from levels assumed when rates were approved.

(b) "Residential/Religious" generally includes single-family dwellings, individual apartments in multi-family dwellings, religious organizations and certain other not-for-profit organizations.

(c) Other electric operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the revenue decoupling mechanism and other provisions of the company's rate plans.

(d) After adjusting for variations, principally weather and billing days, electric delivery volumes in CECONY's service area decreased 1.4 percent in nine months ended September 30, 2015 compared with the 2014 period.

Table of Contents

Operating revenues decreased \$219 million in the nine months ended September 30, 2015 compared with the 2014 period due primarily to lower purchased power (\$272 million) and fuel expenses (\$53 million), offset in part by higher revenues from the electric rate plan (\$101 million).

Purchased power expenses decreased \$272 million in the nine months ended September 30, 2015 compared with the 2014 period due to a decrease in unit costs (\$363 million), offset by higher purchased volumes (\$91 million).

Fuel expenses decreased \$53 million in the nine months ended September 30, 2015 compared with the 2014 period due to lower unit costs (\$52 million) and lower sendout volumes from the company's electric generating facilities (\$1 million).

Other operations and maintenance expenses decreased \$42 million in the nine months ended September 30, 2015 compared with the 2014 period due primarily to lower pension costs (\$64 million) and lower electric operating costs (\$27 million), offset in part by an increase in the surcharges for assessments and fees that are collected in revenues from customers (\$51 million).

Depreciation and amortization increased \$29 million in the nine months ended September 30, 2015 compared with the 2014 period due primarily to higher electric utility plant balances.

Taxes, other than income taxes increased \$24 million in the nine months ended September 30, 2015 compared with the 2014 period principally due to higher property taxes (\$15 million), sales and use tax refund received in 2014 (\$12 million), higher payroll taxes (\$2 million), offset in part by the elimination of the New York City subsidiary capital tax (\$5 million).

Gas

CECONY's results of gas operations for the nine months ended September 30, 2015 compared with the 2014 period is as follows:

(Millions of Dollars)	Nine Months Ended		
	September 30, 2015	September 30, 2014	Variation
Operating revenues	\$1,177	\$1,359	\$(182)
Gas purchased for resale	282	487	(205)
Other operations and maintenance	323	312	11
Depreciation and amortization	105	98	7
Taxes, other than income taxes	189	189	—
Gas operating income	\$278	\$273	\$5

CECONY's gas sales and deliveries, excluding off-system sales, for the nine months ended September 30, 2015 compared with the 2014 period were:

Description	Thousands of Dt Delivered				Revenues in Millions (a)

Table of Contents

- (a) Revenues from gas sales are subject to a weather normalization clause and a revenue decoupling mechanism as a result of which delivery revenues are generally not affected by changes in delivery volumes from levels assumed when rates were approved. Delivery revenues, however, are affected by changes in volumes attributable to changes in the average number of customers.
- (b) After adjusting for variations, principally weather and billing days, firm gas sales and transportation volumes in the company's service area increased 7.2 percent in the nine months ended September 30, 2015 compared with the 2014 period reflecting primarily increased volumes attributable to additional customers that have converted from oil-to-gas as heating fuel for their buildings.
- (c) Includes 1,809 and 5,914 thousands of Dt for 2015 and 2014 periods, respectively, which are also reflected in firm transportation and other.
- (d) Other gas operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the company's rate plans.

Operating revenues decreased \$182 million in the nine months ended September 30, 2015 compared with the 2014 period due primarily to a decrease in gas purchased for resale expenses (\$205 million), offset in part by higher revenues from the gas rate plan (\$30 million) reflecting primarily higher delivery volumes attributable to oil-to-gas conversions.

Gas purchased for resale decreased \$205 million in the nine months ended September 30, 2015 compared with the 2014 period due to lower unit costs (\$230 million), offset by higher sendout volumes (\$25 million).

Other operations and maintenance expenses increased \$11 million due primarily to higher operating costs attributable to emergency response (\$32 million), offset in part by lower pension costs (\$9 million), a decrease in surcharges for assessments and fees that are collected in revenues from customers (\$6 million) and lower costs for the support and protection of company underground facilities to accommodate New York City municipal projects (\$2 million).

Depreciation and amortization increased \$7 million in the nine months ended September 30, 2015 compared with the 2014 period due primarily to higher gas utility plant balances.

Steam

CECONY's results of steam operations for the nine months ended September 30, 2015 compared with the 2014 period is as follows:

<i>(Millions of Dollars)</i>	Nine Months Ended		
	September 30, 2015	September 30, 2014	Variation
Operating revenues	\$529	\$485	\$44
Purchased power	28	40	(12)
Fuel	120	82	38
Other operations and maintenance	140	141	(1)
Depreciation and amortization	58	58	—
Taxes, other than income taxes	83	67	16
Steam operating income	\$100	\$97	\$3

CECONY's steam sales and deliveries for the nine months ended September 30, 2015 compared with the 2014 period were:

Description	Millions of Pounds Delivered				Revenues in Millions			
	Nine Months Ended				Nine Months Ended			
	September 30, 2015	September 30, 2014	Variation	Percent Variation	September 30, 2015	September 30, 2014	Variation	Percent Variation
General	460	470	(10)	(2.1)%	\$24	\$24	\$—	—
Apartment house	5,056	4,956	100	2.0	145	135	10	7.4%
Annual power	12,593	12,551	42	0.3	379	365	14	3.8
Other operating revenues (a)	—	—	—	—	(19)	(39)	20	51.3
Total	18,109	17,977	132	0.7%	(b) \$529	\$485	\$44	9.1%

(a) Other steam operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the company's rate plans.

(b) After adjusting for variations, principally weather and billing days, steam sales and deliveries decreased 3.1 percent in nine months ended September 30, 2015 compared with the 2014 period.

Table of Contents

Operating revenues increased \$44 million in the nine months ended September 30, 2015 compared with the 2014 period due primarily to higher fuel expenses (\$38 million), the weather impact on revenues (\$9 million) and higher revenues from the steam rate plan (\$5 million), offset in part by lower purchased power costs (\$12 million).

Purchased power expenses decreased \$12 million in the nine months ended September 30, 2015 compared with the 2014 period due to a decrease in unit costs (\$11 million) and lower purchased volumes (\$1 million).

Fuel expenses increased \$38 million in the nine months ended September 30, 2015 compared with the 2014 period due to higher unit costs (\$36 million) and higher sendout volumes (\$2 million).

Other operations and maintenance expenses decreased \$1 million in the nine months ended September 30, 2015 compared with the 2014 period due primarily to lower costs for the support and protection of company underground facilities to accommodate New York City municipal projects (\$3 million), offset in part by higher steam operating costs (\$1 million).

Taxes, other than income taxes increased \$16 million in the nine months ended September 30, 2015 compared with the 2014 period principally due to higher property taxes (\$15 million) and a sales and use tax refund received in 2014 (\$1 million).

Other Income (Deductions)

Other income (deductions) decreased \$17 million in the nine months ended September 30, 2015 compared with the 2014 period due primarily to the gain on sale of certain non-utility properties in 2014.

Net Interest Expense

Net interest expense increased \$37 million in the nine months ended September 30, 2015 compared with the 2014 period due primarily to new debt issuances in late 2014.

Income Tax Expense

Income taxes increased \$19 million in the nine months ended September 30, 2015 compared with the 2014 period due primarily to higher income before income tax expense.

O&R

(Millions of Dollars)	Nine Months Ended September 30, 2015			Nine Months Ended September 30, 2014			2015-2014 Variation
	Electric	Gas	2015 Total	Electric	Gas	2014 Total

Table of Contents

Electric

O&R's results of electric operations for the nine months ended September 30, 2015 compared with the 2014 period is as follows:

<i>(Millions of Dollars)</i>	Nine Months Ended		
	September 30, 2015	September 30, 2014	Variation
Operating revenues	\$523	\$525	\$(2)
Purchased power	169	187	(18)
Other operations and maintenance	198	185	13
Depreciation and amortization	38	33	5
Taxes, other than income taxes	33	33	—
Electric operating income	\$85	\$87	\$(2)

O&R's electric sales and deliveries for the nine months ended September 30, 2015 compared with the 2014 period were:

Description	Millions of kWhs Delivered				Revenues in Millions (a)			
	Nine Months Ended				Nine Months Ended			
	September 30, 2015	September 30, 2014	Variation	Percent Variation	September 30, 2015	September 30, 2014	Variation	Percent Variation
Residential/Religious (b)	1,278	1,181	97	8.2%	\$246	\$237	\$9	3.8%
Commercial/Industrial	611	620	(9)	(1.5)	98	106	(8)	(7.5)
Energy choice customers	2,504	2,463	41	1.7	168	158	10	6.3
Public authorities	78	77	1	1.3	8	10	(2)	(20.0)
Other operating revenues (c)	—	—	—	—	3	14	(11)	(78.6)
Total	4,471	4,341	130	3.0% (d)	\$523	\$525	\$(2)	(0.4)%

(a) O&R's New York electric delivery revenues are subject to a revenue decoupling mechanism, as a result of which delivery revenues are generally not affected by changes in delivery volumes from levels assumed when rates were approved. O&R's electric sales in New Jersey and Pennsylvania are not subject to a decoupling mechanism, and as a result, changes in such volumes do impact revenues.

(b) "Residential/Religious" generally includes single-family dwellings, individual apartments in multi-family dwellings, religious organizations and certain other not-for-profit organizations.

(c) Other electric operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the company's electric rate plan.

(d) After adjusting for weather and other variations, electric delivery volumes in O&R's service area decreased 0.5 percent in the nine months ended September 30, 2015 compared with the 2014 period.

Operating revenues decreased \$2 million in the nine months ended September 30, 2015 compared with the 2014 period due primarily to lower purchased power expenses (\$18 million) and the charge-off of certain regulatory assets (\$4 million), offset in part by higher revenues from the New York electric rate plan (\$19 million). See "Rate Plans - O&R New York - Electric and Gas" in Note B to the Third Quarter Financial Statements.

Purchased power expenses decreased \$18 million in the nine months ended September 30, 2015 compared with the 2014 period due to a decrease in unit costs (\$20 million), offset by an increase in purchased volumes (\$2 million).

Other operations and maintenance expenses increased \$13 million in the nine months ended September 30, 2015 compared with the 2014 period due primarily to higher tree trimming costs (\$4 million), an increase in surcharges for assessments and fees that are collected in revenues from customers (\$4 million) and increase in storm costs (\$3 million).

Depreciation and amortization increased \$5 million in the nine months ended September 30, 2015 compared with the 2014 period due primarily to higher electric utility plant balances.

Gas

O&R's results of gas operations for the nine months ended September 30, 2015 compared with the 2014 period is as follows:

Table of Contents

<i>(Millions of Dollars)</i>	Nine Months Ended		
	September 30, 2015	September 30, 2014	Variation
Operating revenues	\$117	\$155	\$(38)
Gas purchased for resale	40	65	(25)
Other operations and maintenance	51	50	1
Depreciation and amortization	13	12	1
Taxes, other than income taxes	13	13	—
Gas operating income	\$—	\$15	\$(15)

O&R's gas sales and deliveries, excluding off-system sales, for the nine months ended September 30, 2015 compared with the 2014 period were:

Description	Thousands of Dt Delivered				Revenues in Millions (a)			
	Nine Months Ended				Nine Months Ended			
	September 30, 2015	September 30, 2014	Variation	Percent Variation	September 30, 2015	September 30, 2014	Variation	Percent Variation
Residential	5,789	5,493	296	5.4%	\$55	\$73	\$(18)	(24.7)%
General	1,294	1,238	56	4.5	10	14	(4)	(28.6)
Firm transportation	9,012	8,970	42	0.5	51	55	(4)	(7.3)
Total firm sales and transportation	16,095	15,701	394	2.5 (b)	116	142	(26)	(18.3)
Interruptible sales	3,237	3,236	1	—	2	2	—	—
Generation plants	25	58	(33)	(56.9)	—	1	(1)	Large
Other	674	663	11	1.7	—	—	—	—
Other gas revenues	—	—	—	—	(1)	10	(11)	Large
Total	20,031	19,658	373	1.9%	\$117	\$155	\$(38)	(24.5)%

(a) Revenues from New York gas sales are subject to a weather normalization clause and a revenue decoupling mechanism as a result of which delivery revenues are generally not affected by changes in delivery volumes from levels assumed when rates were approved. Delivery revenues, however, are affected by changes in volumes attributable to changes in the average number of customers.

(b) After adjusting for weather and other variations, total firm sales and transportation volumes increased 0.5 percent in nine months ended September 30, 2015 compared with the 2014 period.

Operating revenues decreased \$38 million in the nine months ended September 30, 2015 compared with the 2014 period due primarily to the decrease in gas purchased for resale expenses (\$25 million) and the charge-off of certain regulatory assets (\$14 million). See "Rate Plans - O&R New York - Electric and Gas" in Note B to the Third Quarter Financial Statements.

Gas purchased for resale decreased \$25 million in the nine months ended September 30, 2015 compared with the 2014 period due to a decrease in purchased volumes (\$19 million) and a decrease in unit costs (\$6 million).

Other operations and maintenance expenses increased \$1 million in the nine months ended September 30, 2015 compared with the 2014 period due primarily to an increase in surcharges for assessments and fees that are collected in revenues from customers.

Depreciation and amortization increased \$1 million in the nine months ended September 30, 2015 compared with the 2014 period due primarily to higher gas utility plant balances.

Other Income (Deductions)

Other income (deductions) decreased \$7 million in the nine months ended September 30, 2015 compared with the 2014 period due primarily to the impairment of certain assets held for sale (see Note O to the Third Quarter Financial Statements).

Income Tax Expense

Income taxes decreased \$11 million in the nine months ended September 30, 2015 compared with the 2014 period due primarily to lower income before income tax expense.

Table of Contents

Competitive Energy Businesses

The competitive energy businesses' results of operations for the nine months ended September 30, 2015 compared with the 2014 period is as follows:

<i>(Millions of Dollars)</i>	Nine Months Ended		
	September 30, 2015	September 30, 2014	Variation
Operating revenues	\$1,087	\$934	\$153
Purchased power	812	727	85
Gas purchased for resale	94	75	19
Other operations and maintenance	98	78	20
Depreciation and amortization	16	14	2
Taxes, other than income taxes	14	15	(1)
(Gain) on sale of solar electric production projects	—	(45)	45
Operating income	\$53	\$70	\$(17)

Operating revenues increased \$153 million in the nine months ended September 30, 2015 compared with the 2014 period, due primarily to higher electric retail revenues. Electric retail revenues increased \$147 million due to higher sales volumes (\$148 million), offset by lower unit prices (\$1 million). Wholesale revenues decreased \$8 million due to lower sales volume. Solar revenues increased \$6 million primarily due to an increase in solar electric production projects in operation. Net mark-to-market values decreased \$11 million, of which \$7 million in losses are reflected in purchased power expenses and \$4 million in losses are reflected in revenues. Other revenues increased \$12 million due primarily to higher energy services revenues.

Purchased power expenses increased \$85 million in the nine months ended September 30, 2015 compared with the 2014 period due primarily to higher volumes (\$117 million) and changes in mark-to-market losses (\$7 million), offset by lower unit prices (\$39 million).

Gas purchased for resale increased \$19 million in the nine months ended September 30, 2015 compared with the 2014 period due to higher purchased volumes.

Other operations and maintenance expenses increased \$20 million in the nine months ended September 30, 2015 compared with the 2014 period due primarily to an increase in energy services costs (\$8 million), other general operating expenses (\$8 million) and business development costs (\$4 million).

Depreciation and amortization increased \$2 million in the nine months ended September 30, 2015 compared with the 2014 period due an increase in solar electric production projects in operation during 2015.

Taxes, other than income taxes decreased \$1 million in the nine months ended September 30, 2015 compared with the 2014 period principally due to lower sales tax expense.

Gain on sale of solar electric production projects decreased \$45 million reflecting Con Edison Development's May 2014 sale of 50 percent of its membership interest in California Solar.

Net Interest Expense

Net interest expense increased \$14 million in the nine months ended September 30, 2015 compared to the 2014 period due primarily to adjustments in 2014 to accrued interest on taxes relating to the LIFO transactions which were terminated in 2013.

Income Tax Expense

Income taxes decreased \$20 million in the nine months ended September 30, 2015 compared with the 2014 period due primarily to lower income before income tax expense and higher production tax credits and amortization of investment tax credits (\$7 million).

Other

For Con Edison, "Other" includes parent company and consolidation adjustments.

Table of Contents

Liquidity and Capital Resources

The Companies' liquidity reflects cash flows from operating, investing and financing activities, as shown on their respective consolidated statement of cash flows and as discussed below.

Changes in the Companies' cash and temporary cash investments resulting from operating, investing and financing activities for the nine months ended September 30, 2015 and 2014 are summarized as follows:

<i>(Millions of Dollars)</i>	Con Edison			CECONY		
	2015	2014	Variance	2015	2014	Variance
Operating activities	\$2,199	\$1,751	\$448	\$1,802	\$1,306	\$496
Investing activities	(2,687)	(1,996)	(691)	(1,900)	(1,717)	(183)
Financing activities	(118)	(224)	106	(496)	(177)	(319)
Net change for the period	(606)	(469)	(137)	(594)	(588)	(6)
Balance at beginning of period	699	674	25	645	633	12
Balance at end of period	93	205	(112)	51	45	6
Less: Held for sale	2	—	2	—	—	—
Balance at the end of the period excluding held for sale	\$91	\$205	\$(114)	\$51	\$45	\$6

Cash Flows from Operating Activities

The Utilities' cash flows from operating activities reflect principally their energy sales and deliveries and cost of operations. The volume of energy sales and deliveries is affected primarily by factors external to the Utilities, such as growth of customer demand, weather, market prices for energy, economic conditions and measures that promote energy efficiency. Under the revenue decoupling mechanisms in the Utilities' New York electric and gas rate plans, changes in delivery volumes from levels assumed when rates were approved may affect the timing of cash flows but generally not net income. The prices at which the Utilities provide energy to their customers are determined in accordance with their rate plans. In general, changes in the Utilities' cost of purchased power, fuel and gas may affect the timing of cash flows but not net income because the costs are recovered in accordance with rate plans.

Net income is the result of cash and non-cash (or accrual) transactions. Only cash transactions affect the Companies' cash flows from operating activities. Principal non-cash charges or credits include depreciation, deferred income tax expense and amortizations of certain regulatory assets and liabilities. Non-cash charges or credits may also be accrued under the revenue decoupling and cost reconciliation mechanisms in the Utilities' New York electric and gas rate plans.

Net cash flows from operating activities for the nine months ended September 30, 2015 for Con Edison and CECONY were \$448 million and \$496 million higher, respectively, than in 2014. The increase in net cash flows for Con Edison and CECONY reflect primarily the lower income taxes paid, net of refunds received in 2015 (\$642 million and \$606 million, respectively), offset in part by increased pension contributions (\$171 million and \$161 million, respectively).

The change in net cash flows also reflects the timing of payments for and recovery of energy costs. This timing is reflected within changes to accounts receivable – customers, recoverable energy costs and accounts payable balances.

Cash Flows Used in Investing Activities

Net cash flows used in investing activities for Con Edison and CECONY were \$691 million and \$183 million higher, respectively, for the nine months ended September 30, 2015 compared with the 2014 period. The changes for Con Edison and CECONY reflect increased utility construction expenditures in 2015 (\$175 million and \$178 million, respectively). In addition, the change for Con Edison reflects primarily increased non-utility construction expenditures related to renewable electric production projects (\$214 million), the proceeds from sale of solar electric production projects in 2014 (\$108 million) and the increased investments in/acquisitions of renewable electric production projects (\$105 million).

Cash Flows Used In Financing Activities

Net cash flows used in financing activities for Con Edison and CECONY were \$106 million lower and \$319 million higher, respectively, in the nine months ended September 30, 2015 compared with the 2014 period.

Table of Contents

In June 2015, O&R issued \$120 million of 4.95 percent 30-year debentures, the net proceeds from the sale of which were used to repay short-term borrowings and for other general corporate purposes. In April 2015, O&R redeemed at maturity \$40 million of 5.30 percent 10-year debentures. In August 2015, O&R redeemed at maturity \$55 million of 2.50 percent 5-year debentures and \$44 million of variable rate tax-exempt 20-year debt.

In June 2015, a Con Edison Development subsidiary issued \$118 million aggregate principal amount of 3.94 percent Senior Notes maturing in 2036.

In March 2014, CECONY issued \$850 million of 4.45 percent 30-year debentures, the net proceeds from the sale of which were used to repay short-term borrowings and for other general corporate purposes. In February 2014, CECONY redeemed at maturity \$200 million of 4.70 percent 10-year debentures. In April 2014, CECONY redeemed at maturity \$275 million of 5.55 percent 5-year debentures.

Cash flows used in financing activities of the Companies also reflect commercial paper issuance. The commercial paper amounts outstanding at September 30, 2015 and 2014 and the average daily balances for the nine months ended September 30, 2015 and 2014 for Con Edison and CECONY were as follows:

<i>(Millions of Dollars, except Weighted Average Yield)</i>	2015		2014	
	Outstanding at September 30,	Daily average	Outstanding at September 30,	Daily average
Con Edison	\$1,160	\$765	\$1,425	\$933
CECONY	\$649	\$367	\$1,201	\$813
Weighted average yield	0.3%	0.4%	0.2%	0.2%

Capital Requirements and Resources

Con Edison has increased its estimates of capital expenditures by its competitive energy businesses from \$375 million to \$835 million for 2015 and from \$366 million to \$985 million for 2016 to reflect additional renewable energy project development. See "Con Edison Development," below.

For each of the Companies, the ratio of earnings to fixed charges (Securities and Exchange Commission basis) for the nine months ended September 30, 2015 and 2014 and the twelve months ended December 31, 2014 was:

	Ratio of Earnings to Fixed Charges		
	For the Nine Months Ended September 30, 2015	For the Nine Months Ended September 30, 2014	For the Twelve Months Ended December 31, 2014
Con Edison (a)	3.9	4.3	3.6
CECONY	4.1	4.3	3.8

(a) Reflects after-tax benefit/(charge) to earnings relating to Con Edison Development's LILCO transactions of \$7 million and \$(1) million for the nine months ended September 30, 2014 and twelve months ended December 31, 2014, respectively. Also reflects an after-tax benefit to earnings relating to Con Edison Development's gain on sale of solar electric production projects of \$26 million for the nine months ended September 30, 2014 and twelve months ended December 31, 2014.

For each of the Companies, the common equity ratio at September 30, 2015 and December 31, 2014 was:

	Common Equity Ratio (Percent of total capitalization)	
	September 30, 2015	December 31, 2014
Con Edison	53.1	52.0
CECONY	52.2	50.7

Table of Contents

Other Changes in Assets and Liabilities

The following table shows changes in certain assets and liabilities at September 30, 2015, compared with December 31, 2014.

<i>(Millions of Dollars)</i>	Con Edison	CECONY
	2015 vs. 2014 Variance	2015 vs. 2014 Variance
Assets		
Prepayments	\$568	\$336
Assets held for sale	194	—
Regulatory asset — Unrecognized pension and other postretirement costs	(638)	(601)
Income taxes receivable	(194)	—
Liabilities		
Deferred income taxes and investment tax credits	\$522	\$457
Liabilities held for sale	82	—
Pension and retiree benefits	(846)	(785)

Prepayments

The increase in prepayments for Con Edison and CECONY reflects primarily the portion allocable to the 2015 fourth quarter of CECONY's July 2015 payment of its New York City semi-annual property taxes.

Assets Held for Sale and Liabilities Held for Sale

The increase in assets held for sale and liabilities held for sale reflects Con Edison's plan to actively market and sell the retail electric supply business of its competitive energy businesses and O&R's entry into an agreement to sell Pike. See Note O to the Third Quarter Financial Statements.

Regulatory Asset for Unrecognized Pension and Other Postretirement Costs and Liability for Pension and Retiree Benefits

The decrease in the regulatory asset for unrecognized pension and other postretirement costs and the liability for pension and retiree benefits reflects the final actuarial valuation of the pension and other retiree benefit plans as measured at December 31, 2014, in accordance with the accounting rules for retirement benefits. The change in the regulatory asset also reflects the year's amortization of accounting costs. The change in the liability for pension and retiree benefits reflects in part contributions to the plans made by the Utilities in 2015. See Notes B, E and F to the Third Quarter Financial Statements.

Income Taxes Receivable

The decrease in income taxes receivable for Con Edison reflects the refund received in March 2015 from the Internal Revenue Service as a result of the extension of bonus depreciation in December 2014 (\$224 million), offset by a federal refund request that Con Edison will file by year end carrying back unused general business tax credits (\$30 million). See Note I to the Third Quarter Financial Statements.

Deferred Income Taxes and Investment Tax Credits

The increase in the liability for deferred income taxes and investment tax credits reflects primarily accelerated tax deductions for plant, as well as investment tax credits primarily related to Con Edison's renewable electric production projects at its competitive energy businesses.

Off-Balance Sheet Arrangements

None of the Companies' interests in variable interest entities (VIEs) meet the Securities and Exchange Commission definition of off-balance sheet arrangements. For information regarding the Companies' VIEs, see Note M to the Third Quarter Financial Statements.

Regulatory Matters

In February 2015, the New York State Public Service Commission (NYSPSC) issued an order in its Reforming the Energy Vision (REV) proceeding in which, among other things, the NYSPSC:

Table of Contents

- Ordered CECONY, O&R and the other electric utilities to file distributed system implementation plans pursuant to which the utilities, under the NYSPSC's authority and supervision, would serve as distributed system platforms to optimize the use of distributed energy resources (DER);
- Indicated that the utilities will be allowed to own DER only under limited circumstances, and that utility affiliate ownership of DER within the utility's service territory will require market power protections;
- Ordered the utilities to file energy efficiency plans with their program costs to be recovered through rates (instead of through the current surcharge);
- Instituted a separate track in the REV proceeding to consider large-scale renewable generation; and
- Indicated that the design and implementation of the reformed energy system will occur over a period of years.

In June 2015, the New York State Energy Research and Development Authority (NYSERDA) submitted a report in the large-scale renewable generation track of the REV proceeding. The report included program design principles and strategies. The NYSPSC requested comments on, among other things: ratepayer funding mechanisms; utility-backed power purchase agreements; financing options; and utility-owned generation.

In July 2015, the NYSPSC staff submitted a white paper on ratemaking and utility business models in the REV proceeding. The NYSPSC staff indicated that the proposals included in the white paper reflect several foundational principles: align earning opportunities with customer value; maintain flexibility; provide accurate and appropriate value signals; maintain a sound electric industry; shift balance of regulatory incentives to market incentives; and achieve public policy objectives. The white paper, among other things, included proposals for: market based earnings opportunities, including distributed system platform revenues; adoption of earnings impact mechanisms to incent peak demand reduction, energy efficiency, customer engagement and information access, affordability and interconnection; retention of existing safety, reliability, customer service and utility-specific performance mechanisms; modifications to rate plan net utility plant reconciliations to encourage cost-effective use of operating resources and third-party investment; tying rate plan earnings sharing mechanisms to a performance index; pre-approval, where appropriate, of investments in distributed system platform capabilities; three-year rate plans, with an opportunity for two-year extensions; and rate design and DER compensation, including net energy metering, standby service tariffs, study of demand charges and facilitation of time-of use rates. The NYSPSC is expected to make policy determinations in 2016 on the regulatory design and regulatory matters addressed in the white paper.

In October 2015, CECONY submitted to the NYSPSC the company's advance metering infrastructure (AMI) plan for its electric and gas delivery businesses. The plan, which is subject to NYSPSC review and approval, addresses AMI's financial, operations and environmental benefits to customers and how AMI supports the REV proceeding's objectives. AMI components include smart meters, a communication network, information technology systems and business applications. The plan provides for full deployment of AMI to the company's customers to be implemented over a six-year period beginning in 2017. Under the plan, aggregate estimated capital expenditures for AMI implementation would be approximately \$1,300 million. If the plan is approved by the NYSPSC, the company would be authorized to invest \$68 million of capital expenditures for AMI in 2016. In addition, the company anticipates it would seek authorization for AMI capital expenditures in subsequent years when it next files requests for new electric and gas rate plans. O&R's electric and gas rate plans authorize, subject to NYSPSC modification or halt following its further consideration of AMI implementation, aggregate capital expenditures of approximately \$30 million to begin AMI implementation for the company's customers.

In June 2015, the New York State Energy Planning Board released its 2015 State Energy Plan. Under New York State law, any energy-related action or decision of State agencies must be reasonably consistent with the Plan. The Plan reflects clean energy initiatives, including the REV proceeding, NYSEDA's clean energy fund proposal (discussed below), and the following goals for New York State to meet by 2030: a 40 percent reduction in greenhouse gas emissions from 1990 levels; 50 percent of electric generation from renewable energy sources; and a 23 percent decrease in energy consumption in buildings from 2012 levels.

In June 2015, NYSEDA supplemented the clean energy fund proposal it submitted in September 2014 for NYSPSC approval. The proposal is for a 10-year, approximately \$5 billion plan, to fund four programs beginning in 2016: market development; innovation and research; NY Green Bank and NY Sun. As proposed, the Utilities would bill clean energy fund surcharges to customers and would no longer bill customers for the energy efficiency portfolio standard, the renewable portfolio standard and system benefit surcharges.

Table of Contents

In September 2015, CECONY requested NYSPSC authorization to defer for recovery as a regulatory asset \$29 million of costs for emergency response activities incurred in 2014 above the amount for such costs reflected in the company's gas rate plan. In addition, the company anticipates requesting deferral of such incremental emergency response costs following the remaining two years of the gas rate plan. At September 30, 2015, the company had not deferred any such increments costs. For information about the extension of CECONY's current electric rate plan through 2016, the new O&R electric and gas rate plans and additional regulatory matters, see Note B to the Third Quarter Financial Statements.

Environmental Matters

In August 2015, the United States Environmental Protection Agency (EPA) issued its Clean Power Plan to reduce carbon dioxide emissions from existing power plants 32 percent from 2005 levels by 2030. Under the Clean Power Plan, each state is required to submit for EPA approval a plan to reduce its emissions to specified rate-based or equivalent mass-based target levels (as determined in accordance with the Clean Power Plan) applicable to the state. For New York State, the emissions rate-based target level for 2030 is approximately 20 percent below its 2012 emissions rate. State plans may, among other things, include participation in regional cap-and-trade programs, such as the Regional Greenhouse Gas Initiative (in which New York State participates), and renewable energy and energy efficiency programs. State plans are to be submitted to the EPA in 2016, with possible extensions to 2018, and are to be in effect not later than 2022. The costs resulting from the Clean Power Plan could be substantial.

Con Edison Development

The following table provides information about the renewable electric production projects Con Edison Development owned at September 30, 2015:

Project Name	Production Technology	Generating Capacity (a) (MWs AC)	PPA Term (In Years)	Actual/Expected In-Service Date	Location (State)
<i>Wholly owned projects</i>					
Flemington	Solar	8	n/a (b)	2011	New Jersey
Frenchtown I, II and III	Solar	14	n/a (b)	2011-13	New Jersey
PA Solar	Solar	10	n/a (b)	2012	Pennsylvania
Shrewsbury	Solar	3	20 (b)	2012	Massachusetts
Groveland	Solar	3	20 (b)	2012	Massachusetts
White River 2	Solar	20	20	2014	California
Oak Tree Wind	Wind	20	20	2014	South Dakota
Texas Solar 3	Solar	6	25	2015	Texas
Corcoran 2	Solar	20	20	2015	California
Atwell West	Solar	20	20	2015	California
Texas Solar 5 (Partial) (c)	Solar	48	25	2015	Texas
Projects of less than 3 MW	Solar	14	Various	Various	Various
<i>Jointly owned projects</i>					
Pilesgrove	Solar	9	n/a (b)	2011	New Jersey
California Solar	Solar	55	25	2012-13	California
Mesquite Solar 1	Solar	83	20	2013	Arizona
Copper Mountain Solar 2 Phase 1 and 2	Solar	75	25	2013-15	Nevada
Copper Mountain Solar 3	Solar	128	20	2014-15	Nevada
Broken Bow II	Wind	38	25	2014	Nebraska
Texas Solar 4	Solar	32	25	2014	Texas
Total MW in Operation		606			
Texas Solar 5 (Partial) (c)	Solar	47	25	2015	Texas
Campbell County Wind (d)	Wind	95	30	2015	South Dakota
Corcoran 3	Solar	20	20	2015	California
California Solar 3 (e)	Solar	110	20	2016	California
Total MW in Construction		272			
Total MW		878 (f)			

(a) Represents Con Edison Development's ownership interest in the project.

(b) New Jersey, Pennsylvania and Massachusetts assets have 3-5 year Solar Renewable Energy Credit hedges in place.

Table of Contents

- (c) In May 2015, Con Edison Development purchased a company that is the owner of a 95 MW (AC) solar electric production project in Uvalde, Texas (Texas Solar 5). The total cost of the project is expected to be approximately \$310 million. Electricity generated by the project is to be purchased by the City of San Antonio pursuant to a long-term power purchase agreement.
- (d) In June 2015, Con Edison Development purchased a company that is the owner of a 95 MW (AC) wind electric production project in Campbell County, South Dakota (Campbell County Wind). The total cost of the project is expected to be approximately \$180 million. Electricity generated by the project is to be purchased by the Basin Electric Power Cooperative pursuant to a long-term power purchase agreement.
- (e) In January and February 2015, Con Edison Development purchased a company that is the owner of 110 MW (AC) of solar electric production projects in California (California Solar 3). The total cost of these projects is expected to be approximately \$300 million. Electricity generated by these projects is to be purchased by Pacific Gas and Electric Company and Southern California Edison pursuant to long-term power purchase agreements.
- (f) In addition, in September 2015, Con Edison Development purchased a 50 percent membership interest in Panoche Holdings, LLC, which owns a project company that is developing, but has not started constructing, a 247 MW (AC) solar electric production project in California. See Note M to the Third Quarter Financial Statements.

Con Edison Transmission

In April 2015, the Federal Energy Regulatory Commission (FERC) issued an order granting certain transmission incentives and setting the return on equity and the requested formula rate for hearing and settlement. FERC rejected the New York Transco LLC's (NY Transco) proposed cost allocation and laid out alternative approaches to address cost allocation. FERC also said it did not need to provide authorization for the sale of projects to NY Transco because they are expected to be sold before assets are placed in service.

In September 2015, the NYSPSC staff issued recommendations in the NYSPSC's competitive proceeding to select transmission projects that would relieve congestion between upstate and downstate. The NYSPSC staff recommended that the NYSPSC find that there is a public policy need for new transmission to address the congestion, such as a project (\$1,000 million estimated cost) proposed on behalf of the NY Transco. The NYSPSC staff also recommended that the NYSPSC direct certain developers, including the NY Transco, to submit project(s) to the New York Independent System Operator (NYISO) which, under its public policy planning process, will solicit and evaluate proposed project(s) that meet the public policy need and make a selection in accordance with its FERC-approved criteria. The cost of the project(s) selected by the NYISO would be recoverable through the NYISO's tariff.

In October 2015, CECONY requested the NYSPSC to confirm that the company need not construct certain forced cooling facilities (approximately \$220 million estimated cost) that are part of a transmission project if it does not exercise its option to renew certain transmission service provided pursuant to PJM Interconnection LLC's open access transmission tariff. The project, which the company expects to sell to the NY Transco, was part of the project portfolio (called the TOTS projects) approved by the NYSPSC in its proceeding to address potential needs that could arise should the Indian Point Energy Center (which is owned by Entergy Corporation subsidiaries) no longer be able to operate.

In November 2015, the NY Transco, certain New York transmission owners (including CECONY and O&R), the NYSPSC and other parties submitted to FERC for approval a settlement agreement applicable to the TOTS Projects (other than costs that have not already been incurred for the forced cooling facilities) under NY Transco. The settlement agreement, among other things, provides for a 10 percent return on common equity (or 9.5 percent for capital costs in excess of \$228 million incurred prior to the projects' commercial operation date), a maximum common equity ratio of 53 percent and allocation of 63 percent of the costs of the projects to load serving entities in the CECONY and O&R service areas.

Financial and Commodity Market Risks

The Companies are subject to various risks and uncertainties associated with financial and commodity markets. The most significant market risks include interest rate risk, commodity price risk, credit risk and investment risk.

Table of Contents

Interest Rate Risk

The Companies' interest rate risk relates primarily to variable rate debt and to new debt financing needed to fund capital requirements, including the construction expenditures of the Utilities and maturing debt securities. Con Edison and its businesses manage interest rate risk through the issuance of mostly fixed-rate debt with varying maturities and through opportunistic refinancing of debt. Con Edison and CECONY estimate that at September 30, 2015, a 10 percent increase in interest rates applicable to its variable rate debt would result in an increase in annual interest expense of \$1 million. Under CECONY's current gas, steam and electric rate plans, variations in actual variable rate tax-exempt debt interest expense are reconciled to levels reflected in rates.

Commodity Price Risk

Con Edison's commodity price risk relates primarily to the purchase and sale of electricity, gas and related derivative instruments. The Utilities and Con Edison's competitive energy businesses apply risk management strategies to mitigate their related exposures. See Note K to the Third Quarter Financial Statements.

Con Edison estimates that, as of September 30, 2015, a 10 percent decline in market prices would result in a decline in fair value of \$51 million for the derivative instruments used by the Utilities to hedge purchases of electricity and gas, of which \$46 million is for CECONY and \$5 million is for O&R. Con Edison expects that any such change in fair value would be largely offset by directionally opposite changes in the cost of the electricity and gas purchased. In accordance with provisions approved by state regulators, the Utilities generally recover from customers the costs they incur for energy purchased for their customers, including gains and losses on certain derivative instruments used to hedge energy purchased and related costs.

Con Edison's competitive energy businesses use a value-at-risk (VaR) model to assess the market price risk of their portfolio of electricity and gas commodity fixed-price purchase and sales commitments, physical forward contracts, generating assets and commodity derivative instruments. VaR represents the potential change in fair value of the portfolio due to changes in market prices, for a specified time period and confidence level. These businesses estimate VaR across their portfolio using a delta-normal variance/covariance model with a 95 percent confidence level. Since the VaR calculation involves complex methodologies and estimates and assumptions that are based on past experience, it is not necessarily indicative of future results. VaR for the portfolio, assuming a one-day holding period, for the nine months ended September 30, 2015 and the year ended December 31, 2014, respectively, was as follows:

95% Confidence Level, One-Day Holding Period	September 30, 2015	December 31, 2014
	<i>(Millions of Dollars)</i>	
Average for the period	\$1	\$1
High	2	7
Low	1	—

The competitive energy businesses compare the measured VaR results against performance due to actual prices and stress test the portfolio each quarter using an assumed 30 percent price change from forecast. The stress test includes an assessment of the impact of volume changes on the portfolio because the businesses generally commit to sell their customers their actual requirements, an amount which is estimated when the sales commitments are made. The businesses limit the volume of commodity derivative instruments entered into relative to their estimated sale commitments to maintain net market price exposures to their estimated sale commitments within a certain percentage of maximum and minimum exposures.

Credit Risk

The Companies are exposed to credit risk related to transactions entered into primarily for the various energy supply and hedging activities by the Utilities and the competitive energy businesses. See Note K to the Third Quarter Financial Statements.

Investment Risk

The Companies' investment risk relates to the investment of plan assets for their pension and other postretirement benefit plans. The Companies' current investment policy for pension plan assets includes investment targets of 58 percent equities and 42 percent fixed income and other securities. At September 30, 2015, the pension plan investments consisted of 58 percent equity and 42 percent fixed income and other securities.

Table of Contents

For the Utilities' pension and other postretirement benefit plans, regulatory accounting treatment is generally applied in accordance with the accounting rules for regulated operations. In accordance with the Statement of Policy issued by the NYSPSC and its current electric, gas and steam rate plans, CECONY defers for payment to or recovery from customers the difference between the pension and other postretirement benefit expenses and the amounts for such expenses reflected in rates. Generally, O&R also defers such difference pursuant to its rate plans.

Material Contingencies

For information concerning potential liabilities arising from the Companies' material contingencies, see Notes B, G and H to the Third Quarter Financial Statements.

Table of Contents

Item 3: Quantitative and Qualitative Disclosures About Market Risk

For information about the Companies' primary market risks associated with activities in derivative financial instruments, other financial instruments and derivative commodity instruments, see "Financial and Commodity Market Risks," in Part I, Item 2 of this report, which information is incorporated herein by reference.

Item 4: Controls and Procedures

The Companies maintain disclosure controls and procedures designed to provide reasonable assurance that the information required to be disclosed in the reports that they submit to the Securities and Exchange Commission (SEC) is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Securities Exchange Act of 1934, as amended, is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. For each of the Companies, its management, with the participation of its principal executive officer and principal financial officer, has evaluated its disclosure controls and procedures as of the end of the period covered by this report and, based on such evaluation, has concluded that the controls and procedures are effective to provide such reasonable assurance. Reasonable assurance is not absolute assurance, however, and there can be no assurance that any design of controls or procedures would be effective under all potential future conditions, regardless of how remote.

There was no change in the Companies' internal control over financial reporting that occurred during the Companies' most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Companies' internal control over financial reporting.

Part II Other Information

Item 1: Legal Proceedings

For information about certain legal proceedings affecting the Companies, see Notes B, G and H to the financial statements in Part I, Item 1 of this report, which information is incorporated herein by reference. In addition, CECONY is a party to an administrative proceeding that may result in monetary sanctions of more than \$100,000 for violation of certain New York State provisions regulating the discharge of materials into, and for the protection of, the environment. In October 2015, CECONY received a notice of violation from the New York State Department of Environmental Conservation relating to a September 2015 discharge of dielectric fluid from an electric transmission line into the Bronx River.

Item 1A: Risk Factors

There were no material changes in the Companies' risk factors compared to those disclosed in Item 1A of the Form 10-K.

Table of Contents

Item 2: Unregistered Sales of Equity Securities and Use of Proceeds

ISSUER PURCHASES OF EQUITY SECURITIES

The following table provides information about Con Edison common shares purchased in open-market transactions for the quarter ended September 30, 2015. The number of shares purchased approximated the number of treasury shares used for the company's employee stock plans.

Period	Total Number of Shares (or Units) Purchased	Average Price Paid per Share (or Unit)	Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Appropriate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs
July 1, 2015 to July 31, 2015	102,842	\$60.74	—	—
August 1, 2015 to August 31, 2015	53,971	63.35	—	—
September 1, 2015 to September 30, 2015	—	—	—	—
Total	156,813	\$61.64	—	—

CERTIFICATIONS

I, John McAvoy, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2015 of Consolidated Edison, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATIONS

I, Robert Hoglund, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2015 of Consolidated Edison, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATIONS

I, John McAvoy, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2015 of Consolidated Edison Company of New York, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
