Consolidated Edison, Inc. Corporate Overview

The guiding principle of Con Edison's corporate strategy has always been, and continues to be, to enhance shareholder value. We place a high priority on the continued financial strength of the company as we move into the competitive arena. Our core business will remain the transmission and distribution of energy to our millions of customers – what we call our "wires and pipes" business. However, as we navigate the many changes in the industry, we also are seeking opportunities for our unregulated subsidiaries that offer a greater potential for increased financial growth over the long term. Our goal is to achieve this growth without undue risk by leveraging our experience, expertise and expanding customer base into new endeavors that are closely related to our core business.

The competitive energy and telecommunications markets are still evolving and there is much uncertainty about what the future holds. Over the years, we've developed a consistent, disciplined strategy that balances risk with reward and allows for steady growth and maximum value. Our solid financial track record enables us to approach our changing industry with enthusiasm and confidence.

For more than 175 years, Consolidated Edison, Inc. has served the world's most dynamic and demanding marketplace – New York City. Consolidated Edison Company of New York, Inc. (www.conEd.com) provides electric, gas and steam to customers throughout the five boroughs of New York City and to neighboring areas in Westchester County. Through its 1999 merger with Orange and Rockland Utilities (www.oru.com), Con Edison expanded its base to include Orange and Rockland counties in New York as well as parts of New Jersey and Pennsylvania. Con Edison today provides transmission and distribution services to 3.4 million electric customers, 1.2 million gas customers and 2,000 steam customers through our regulated businesses. Deregulation of the electric utility industry is creating new opportunities in the energy marketplace. We are leveraging our skill set and financial strength to build our competitive businesses and provide enhanced value to shareholders in this dynamic environment. Con Edison Solutions (www.conEdsolutions.com) is our retail energy and services marketing company. Con Edison Energy (www.conEdenergy.com) supplies wholesale energy and specialized energy supply services to customers in the electric and gas markets in the Northeast and Mid-Atlantic states. Con Edison Development complements both businesses by acquiring, developing, owning and operating electric generation assets in the Northeast to serve the customers of Solutions and Energy.

Con Edison Communications (www.electricfiber.com) leverages our Company's wires and pipes experience. It builds and operates its own independent fiber optic local network, which provides wholesale last-mile connections to other telecom carriers and Fortune 1000 corporations. Con Edison Communications has connected more than 80 buildings to its network. It also builds private networks, linking the local facilities of major businesses that are looking for redundant communications paths for reliability and security reasons.

Con Edison's track record of reliability in our operations is matched only by our financial performance. This reflects our focus on maximizing value for our shareholders. As a result of our strong financial performance, we have been able to increase our dividend each year for more than a quarter century. We remain committed to providing our shareholders a superior, low-risk long-term total return. At the same time, we continue to provide the most reliable electric service in the world.

Highlights of Recent Rate Agreements

Electric

Gas

Effective Oct-2000 through Mar-2005

Effective Oct-2001 through Sept-2004

- Modifies and expands the 1997 rate plan
- Incremental annual rate reduction of \$170.0 million effective October 1, 2000
- Earnings in excess of 12.9% (or 13.15% if certain demand reductions and supply increases exceed targeted projections) for the 12 months ending March 2002 and 11.75% thereafter (or 12.25% if certain customer service and reliability objectives are achieved for an additional 0.25% as well as exceeding targeted projections for demand reductions and supply increases for another 0.25%) are shared 65% with ratepayers and 35% with shareholders; no sharing of earnings for the rate year ending March 2001
- · Continues stranded cost recovery provisions from the 1997 rate agreement
- Rate reduction of \$25 million on an annual basis for the Company's firm full service and retail choice customers; eliminates \$20 million bill credits provided in prior agreement resulting in a net \$5.0 million incremental rate reduction
- Unbundles the cost of gas supply from base rates and recovers such costs through a separate monthly Gas Cost Factor Rate Adjustment
- Sets aside \$36.4 million of customer credits to be used towards recovery of certain costs related to the September 11, 2001 attack
- Continues 24 cents/dth credit to retail choice customers with Company funded 22.8 cents/dth from various customer credit sources
- Over the term of the agreement, Company retains earnings up to an 11.5% return on common equity; customer retains 100% of earnings between 11.5% and 12.0% with earnings in excess of 12.0% shared 50/50 between firm customers and shareholders.

Steam

Effective Oct-2000 through Sept-2004

- \$16.6 million base rate increase in first year
- Base rates frozen next three years
- One-half of average earnings, net of specified exclusions, in excess of 11.0% for the first rate year ending September 2001 (10.5% thereafter if the repowering of the East River steam-electric generating plant is not completed) will be shared equally between ratepayers and shareholders

PRESENT ELECTRIC SALES CLASSIFICATIONS

Residential - sales directly to residential customers and to religious institutions. **Commercial/Industrial** - sales to all types of general customers, including customers that include residential or commercial tenant-use in the rent and customers that resell energy to commercial and industrial tenants.

Railroads and Railways - sales to certain electrified railroads.

Public Authorities - sales to municipal and other governmental authorities.
 Delivery Service for Retail Choice - electricity purchased directly by customers from other suppliers and delivered by Con Edison.
 Delivery Service to NYPA Customers and Others - electricity supplied by NYPA and others and distributed by Con Edison.

Service for Municipal Agencies - electricity supplied by the New York City Public Utility Service and the County of Westchester Public Utility Service Agency and distributed by Con Edison.

Off-System and ESCO Sales - sales of electricity to other utilities, marketers, and ESCOs.

(a) Includes MWh sold to NYPA and also included in delivery service to NYPA: 2001 - 0; 2000 - 4, 349; 1999 - 5, 373; 1998 - 7, 732; 1997 - 54; and 1996 - 0. * Includes municipal agency sales

** Con Edison provides both energy supply and delivery service for full service customers.

PRESENT GAS SALES CLASSIFICATIONS

Residential - sales directly to residential customers and to religious institutions, including sales for heating.

General - sales to commercial, industrial, and governmental customers that use gas for various purposes in their operations.

Interruptible - sales to other general-use customers that use gas on an interruptible basis..

Off-System Sales - sales of gas outside Con Edison's gas franchise service area

Firm Transportation and Transportation of Customer-Owned Gas - gas purchased directly by customers, including Retail Choice customers, from other suppliers and delivered by Con Edison. Also includes gas transported by Con Edison for NYPA for use as boiler fuel at NYPA's Poletti Unit.

PRESENT STEAM SALES CLASSIFICATIONS

General - sales to small-use customers.

Annual Power - sales for power and heat use.

Apartment House - sales to apartment houses and hotels.

(a) Excludes ERAM/Modified ERAM accruals and billings: 2001 - \$0; 1999 - \$0; 1998 - \$0; 1997 - \$27.4 million; 1996 - \$38.3 million.

* Con Edison provides both energy supply and delivery service for full service customers.

Orange and Rockland Utilities, Inc. and Subsidiaries Electric and Gas Rate Changes

Highlights of Recent Rate Agreements

RECO - Electric Effective Aug-1999 through Jul-2003	 \$40.7 million cumulative revenue reduction over the four-year term of the plan Full retail access provided to all customers effective August 1, 1999 Differences between generation service revenues and costs deferred for term of the plan
O&R - Electric Effective Dec-1997 through Dec-2002	 \$32.4 million cumulative revenue reduction over the four-year period December 1997 through November 2001. The merger agreement effective April 2, 1999 modified and extended the 1997 agreement through December 2002. The major change was an additional rate decrease effective December 1999. Full retail access provided to all customers effective May 1, 1999 Divestiture of all generating assets to unaffiliated parties Earnings in excess of 11.4% shared 75%/25% between customers/shareholders through July 9, 1999, at which time the earnings sharing mechanism was eliminated in accordance with the merger agreement
O&R - Gas Effective Nov-2000 through Oct-2003	 Rates remain unchanged. O&R is authorized to retain and record to income over the three-year term of the agreement, a total of \$18.1 million, consisting of gas adjustment clause revenue and customer credits Earnings in excess of 11.1% shared 50%/50% between customers/shareholders; the 11.1% is subject to adjustment related to various gas performance mechanisms Variations from \$6.7 million imputation for interruptible sales, delivery of gas used in power generation, and off-system sales shared 80%/20% between customers/shareholders
