1st Quarter 2018 Earnings Release Presentation

May 3, 2018

Available Information

On May 3, 2018, Consolidated Edison, Inc. issued a press release reporting its first quarter 2018 earnings and filed with the Securities and Exchange Commission the company's first quarter 2018 Form 10-Q. This presentation should be read together with, and is qualified in its entirety by reference to, the earnings press release and the Form 10-Q. Copies of the earnings press release and the Form 10-Q are available at: www.conedison.com (select "For Investors" and then select "Press Releases" and "SEC Filings", respectively).

Forward-Looking Statements

This presentation contains forward-looking statements that are intended to qualify for the safe-harbor provisions of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements are statements of future expectations and not facts. Words such as "forecasts," "expects," "estimates," "anticipates," "intends," "believes," "plans," "will" and similar expressions identify forward-looking statements. The forward-looking statements reflect information available and assumptions at the time the statements are made, and speak only as of that time. Actual results or developments may differ materially from those included in the forward-looking statements because of various factors such as those identified in reports the company has filed with the Securities and Exchange Commission, including that the company's subsidiaries are extensively regulated and are subject to penalties; its utility subsidiaries' rate plans may not provide a reasonable return; it may be adversely affected by changes to the utility subsidiaries' rate plans; the intentional misconduct of employees or contractors could adversely affect it; the failure of, or damage to, its subsidiaries' facilities could adversely affect it; a cyber-attack could adversely affect it; it is exposed to risks from the environmental consequences of its subsidiaries' operations; a disruption in the wholesale energy markets or failure by an energy supplier could adversely affect it; it has substantial unfunded pension and other postretirement benefit liabilities; its ability to pay dividends or interest depends on dividends from its subsidiaries; it requires access to capital markets to satisfy funding requirements; changes to tax laws could adversely affect it; its strategies may not be effective to address changes in the external business environment; and it also faces other risks that are beyond its control.

Non-GAAP Financial Measure

This presentation also contains a financial measure, adjusted earnings, that is not determined in accordance with generally accepted accounting principles in the United States of America (GAAP). This non-GAAP financial measure should not be considered as an alternative to net income, which is an indicator of financial performance determined in accordance with GAAP. Adjusted earnings excludes from net income the net mark-to-market changes in the fair value of the derivative instruments the subsidiaries of Con Edison Clean Energy Businesses, Inc. use to economically hedge market price fluctuations in related underlying physical transactions for the purchase or sale of electricity and gas. Adjusted earnings may also exclude from net income certain other items that the company does not consider indicative of its ongoing financial performance. Management uses this non-GAAP financial measure to facilitate the analysis of the company's financial performance as compared to its internal budgets and previous financial results. Management also uses this non-GAAP financial measure to communicate to investors and others the company's expectations regarding its future earnings and dividends on its common stock. Management believes that this non-GAAP financial measure is also useful and meaningful to investors to facilitate their analysis of the company's financial performance.

- a. Under the revenue decoupling mechanisms in the utilities' New York electric and gas rate plans and the weather-normalization clause applicable to their gas businesses, revenues are generally not affected by changes in delivery volumes from levels assumed when rates were approved. In general, the utilities recover on a current basis the fuel, gas purchased for resale and purchased power costs they incur in supplying energy to their full-service customers. Accordingly, such costs do not generally affect Con Edison's results of operations.

1Q 2018 Developments^(a)

CECONY & O&R

- In August and November 2017, the NYSPSC issued orders in its proceeding investigating a subway power outage. NYSPSC Case 17-E-0428 – In The Matter of an Investigation into the April 21, 2017 Metropolitan Transportation Authority Subway Power Outage and Consolidated Edison Company of New York, Inc.’s Restoration Efforts.
 - The orders require CECONY to take certain actions relating to the electrical equipment that serves the subway system. The company incurred costs related to this matter through March 31, 2018 of \$149 million. Included in this amount is \$27 million in capital and operating and maintenance costs reflected in the company’s electric rate plan and \$122 million deferred as a regulatory asset pursuant to the rate plan.
 - The company, which plans to complete the required actions in 2018, expects to incur costs related to this matter during the remainder of 2018 of \$115 million. Included in this amount is \$5 million in expected capital and operating and maintenance costs reflected in the rate plan and \$110 million expected to be deferred as a regulatory asset pursuant to the rate plan. (page 22)
- In January 2018, the NYSPSC initiated an audit of the income tax accounting of certain utilities, including CECONY and O&R. NYSPSC Case 18-M-0013 - In the Matter of a Focused Operations Audit to Investigate the Income Tax Accounting of Certain New York State Utilities. (page 23)
- In March 2018, Winter Storms Riley and Quinn caused damage to the utilities’ electric distribution systems and interrupted service to approximately 209,000 CECONY customers, 93,000 O&R customers and 44,000 RECO customers.
 - Through March 31, 2018, CECONY’s costs related to March 2018 storms, including Riley and Quinn, amounted to \$106 million, including operation and maintenance expenses reflected in its electric rate plan (\$15 million), operation and maintenance expenses charged against a storm reserve pursuant to its electric rate plan (\$56 million), capital expenditures (\$29 million) and removal costs (\$6 million). O&R and RECO had storm-related costs of \$31 million and \$11 million, respectively, most of which were deferred as regulatory assets pursuant to their electric rate plans.
 - Recovery of CECONY, O&R and RECO storm-related costs is subject to review by the NYSPSC and NJBPU, as applicable. The NYSPSC is investigating the preparation and response to the storms by CECONY, O&R and other New York electric utilities, including all aspects of their emergency response plans, and may penalize them. The NJBPU is investigating RECO’s preparation and response to the storms. The Companies are unable to estimate the amount or range of their possible loss in connection with the storms. (pages 23)
- In April 2018, O&R filed with the NYSPSC updates to the requests the company filed in January 2018 with the NYSPSC for increases in the rates it charges for electric and gas service rendered in New York, effective January 1, 2019. O&R increased its requested electric rate increase from \$20.3 million to \$22.5 million and decreased its requested gas rate increase from \$4.5 million to \$2.7 million. (page 22)

a. Page references to 1Q 2018 Form 10-Q.

1Q 2018 Developments (cont'd)^(a)

Clean Energy Businesses

- The 25-MW (AC) Big Timber wind energy project in Montana went into service. The Clean Energy Businesses have 1,561 MW (AC) of renewable energy production projects in service (1,383 MW) or under construction (178 MW). (page 54)
- 531 million of kWh of electricity was generated from solar projects and 234 million of kWh generated from wind projects during 1Q 2018. (page 54)

Con Edison Transmission

- Preliminary work began on the Mountain Valley Pipeline, which is targeted to be in service by the end of 2018. Con Edison Gas Pipeline and Storage, LLC (CET Gas) owns a 12.5% interest.
- Mountain Valley Pipeline LLC announced a proposed 70-mile Southgate project. CET Gas owns a 6.375% interest. (page 38)

a. Page references to 1Q 2018 Form 10-Q.

Tax Cuts and Jobs Act of 2017 (TCJA)^(a)

CECONY & O&R

- TCJA expected to result in decreased cash flows from operating activities, and require increased cash flows from financing activities, for the utilities as and when customers' rates are adjusted to reflect the reduction in tax rate
- Customer rates expected to be reduced to reflect the reduction in tax rate from 35% to 21%, elimination of bonus depreciation and the amortization of excess deferred federal income taxes the utilities collected from their customers that will not need to be paid to the Internal Revenue Service under the TCJA
- Upon enactment of the TCJA, CECONY, O&R and RECO re-measured their deferred tax assets and liabilities and accrued net regulatory liabilities for future income taxes of \$3,513 million, \$161 million and \$28 million, respectively.
 - Under the rate normalization requirements continued by the TCJA, the portion of their net regulatory liabilities related to certain accelerated tax depreciation benefits (\$2,542 million, \$126 million and \$16 million, respectively) is to be amortized over the remaining lives of the related assets.
 - The remainder (\$971 million, \$35 million and \$12 million, respectively) will be amortized as determined by the NYSPSC or NJBPU, as applicable.
- For the three months ended March 31, 2018, the Utilities deferred as regulatory liabilities estimated net benefits of \$112 million.
- NYSPSC Case 17-M-0815 - Proceeding on Motion of the Commission on Changes in Law that May Affect Rates
 - On March 29, 2018, the NYSPSC staff recommended that the NYSPSC require most utilities to begin on October 1, 2018 to credit their customers' bills with the net benefits of the TCJA as measured based on amounts reflected in their rate plans prior to the enactment of the TCJA.
 - A 90-day comment period follows the NYSPSC staff proposal
 - NYSPSC decision is expected after the comment period
- NJBPU Docket No. AX1801001 - In the Matter of the Board's Consideration of the 2017 Tax Cuts and Jobs Act
 - In March 2018, the NJBPU approved a \$2.9 million interim decrease in Rockland Electric Company's (RECO) electric base rates, effective April 1, 2018, subject to the outcome of the NJBPU proceeding.
 - NJBPU decision tentatively expected in June
- FERC Docket No. EL18-111-000
 - In March 2018, the Federal Energy Regulatory Commission (FERC) issued an order directing RECO to propose revisions to its transmission revenue requirement to reflect the TCJA.

RECO	Electric		195	199	202	211	225	234	253	268

(a) Changes to rate base resulting from the TCJA will affect the utilities' net income as and when the changes are reflected in each of the utilities' next rate plans (assumed to be 2020 for CECONY; 2019 for O&R and RECO). Forecast for 2020 reflects, in addition to changes in net utility plant, estimated increase in average rate base due to decreased deferred taxes resulting from TCJA end of bonus depreciation for utilities and application of TCJA reduced tax rate to 2018 and 2019 temporary book/tax differences for CECONY, O&R and RECO of \$415 million, \$21 million and \$3.4 million, respectively. Forecast reflects no change in rate base from amortization of \$3,700 million regulatory liability for future income tax relating to excess deferred income taxes because amortization of entire regulatory liability over the same period that would have applied prior to TCJA is assumed. Also, forecast assumes no change in rate base relating to any regulatory liability for revenue requirement impact of reduced tax rate.

Earnings Adjustment Mechanisms and Positive Incentives

Earnings Adjustment Mechanisms

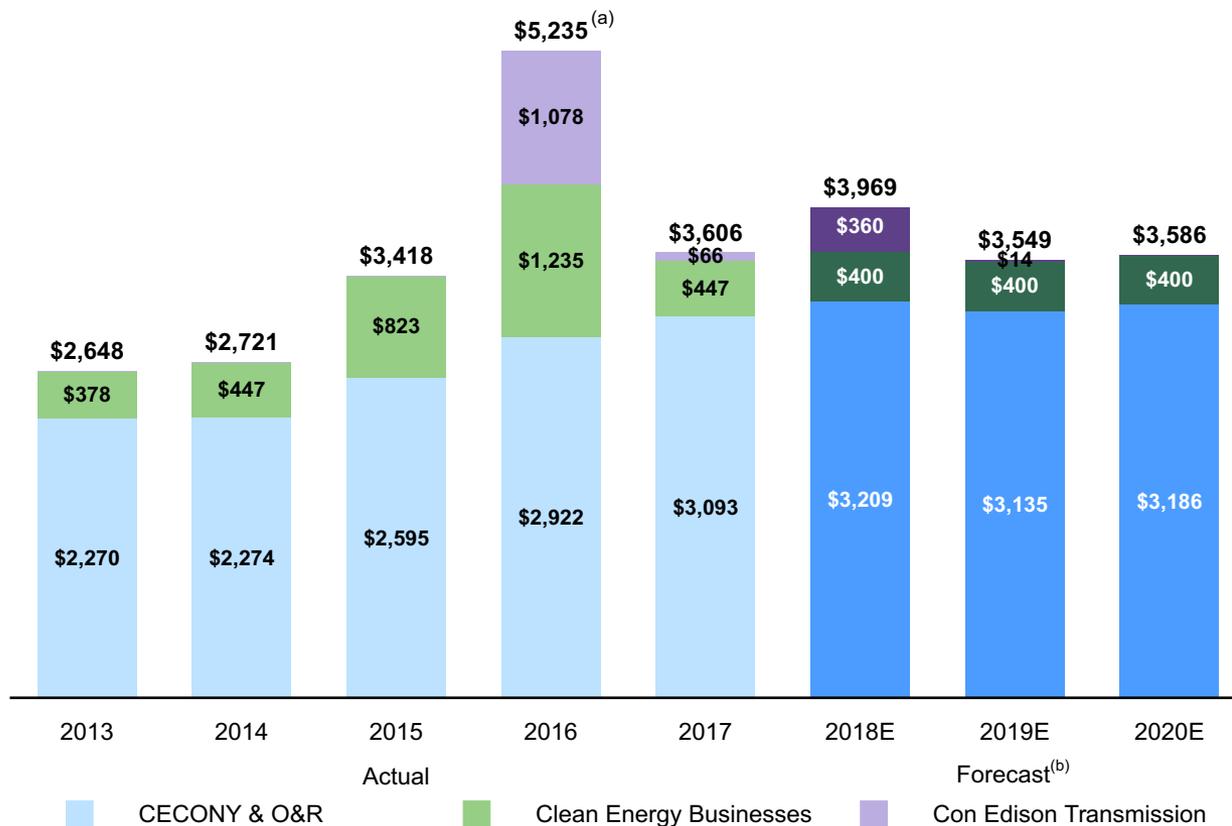

Positive Incentives^{(a) (b)}

- In 2017, CECONY achieved positive incentives of \$12 million, one third of which, pursuant to the accounting rules for alternative revenue recognition of the collection of such incentives under the rate plans (GAAP), will be recorded ratably from 2018 to 2020 and also reflected in the positive incentives projected, minimum and maximum amounts for the related period.
- Pursuant to GAAP, one third of the positive incentives achieved in 2018, if any, will be recorded ratably from 2018 to 2020 and also reflected in the positive incentives projected and maximum amounts for the related period. Two thirds and one third of the positive incentives achieved in 2019, if any, will be recorded in 2019 and 2020, respectively, and also reflected in the positive incentives projected and maximum amounts for the related period.
- Does not reflect negative earnings adjustment of \$5 million that CECONY recorded in 2017.
