

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549
FORM 10-Q**

Quarterly Report Pursuant To Section 13 or 15(d) of the Securities Exchange Act of 1934
FOR THE QUARTERLY PERIOD ENDED JUNE 30, 2012

OR

Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the transition period from _____ to _____

<u>Commission File Number</u>	<u>Exact name of registrant as specified in its charter and principal office address and telephone number</u>	<u>State of Incorporation</u>	<u>I.R.S. Employer ID. Number</u>
1-14514	Consolidated Edison, Inc. 4 Irving Place, New York, New York 10003 (212) 460-4600	New York	13-3965100
1-1217	Consolidated Edison Company of New York, Inc. 4 Irving Place, New York, New York 10003 (212) 460-4600	New York	13-5009340

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Consolidated Edison, Inc. (Con Edison) Yes No
Consolidated Edison of New York, Inc. (CECONY) Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Con Edison Yes No
CECONY Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Con Edison
Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
CECONY
Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Con Edison Yes No
CECONY Yes No

As of July 31, 2012, Con Edison had outstanding 292,892,396 Common Shares (\$.10 par value). All of the outstanding common equity of CECONY is held by Con Edison.

Filing Format

This Quarterly Report on Form 10-Q is a combined report being filed separately by two different registrants: Consolidated Edison, Inc. (Con Edison) and Consolidated Edison Company of New York, Inc. (CECONY). CECONY is a subsidiary of Con Edison and, as such, the information in this report about CECONY also applies to Con Edison. As used in this report, the term the "Companies" refers to Con Edison and CECONY. However, CECONY makes no representation as to the information contained in this report relating to Con Edison or the subsidiaries of Con Edison other than itself.

Glossary of Terms

The following is a glossary of frequently used abbreviations or acronyms that are used in the Companies' SEC reports:

Con Edison Companies

Con Edison	Consolidated Edison, Inc.
CECONY	Consolidated Edison Company of New York, Inc.
Con Edison Development	Consolidated Edison Development, Inc.
Con Edison Energy	Consolidated Edison Energy, Inc.
Con Edison Solutions	Consolidated Edison Solutions, Inc.
O&R	Orange and Rockland Utilities, Inc.
Pike	Pike County Light & Power Company
RECO	Rockland Electric Company
The Companies	Con Edison and CECONY
The Utilities	CECONY and O&R

Regulatory Agencies, Government Agencies, and Quasi-governmental Not-for-Profits

EPA	U. S. Environmental Protection Agency
FERC	Federal Energy Regulatory Commission
IRS	Internal Revenue Service
ISO-NE	ISO New England Inc.
NJBPU	New Jersey Board of Public Utilities
NJDEP	New Jersey Department of Environmental Protection
NYISO	New York Independent System Operator
NYPA	New York Power Authority
NYSAG	New York State Attorney General
NYSDEC	New York State Department of Environmental Conservation
NYSERDA	New York State Energy Research and Development Authority
NYSpsc	New York State Public Service Commission
NYSRC	New York State Reliability Council, LLC
PAPUC	Pennsylvania Public Utility Commission
PJM	PJM Interconnection LLC
SEC	U.S. Securities and Exchange Commission

Accounting

ABO	Accumulated Benefit Obligation
ASU	Accounting Standards Update
FASB	Financial Accounting Standards Board
LILo	Lease In/Lease Out
OCI	Other Comprehensive Income
SFAS	Statement of Financial Accounting Standards
VIE	Variable interest entity

Environmental

CO ₂	Carbon dioxide
GHG	Greenhouse gases
MGP Sites	Manufactured gas plant sites
PCBs	Polychlorinated biphenyls
PRP	Potentially responsible party
SO ₂	Sulfur dioxide
Superfund	Federal Comprehensive Environmental Response, Compensation and Liability Act of 1980 and similar state statutes

Units of Measure

dths	Dekatherms
kV	Kilovolt
kWh	Kilowatt-hour
mdths	Thousand dekatherms
MMlbs	Million pounds
MVA	Megavolt ampere
MW	Megawatt or thousand kilowatts
MWH	Megawatt hour

Other

AFDC	Allowance for funds used during construction
COSO	Committee of Sponsoring Organizations of the Treadway Commission
EMF	Electric and magnetic fields
ERRP	East River Repowering Project
Fitch	Fitch Ratings
First Quarter Form 10-Q	The Companies' combined Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2012
Form 10-K	The Companies' combined Annual Report on Form 10-K for the year ended December 31, 2011
LTIP	Long Term Incentive Plan
Moody's	Moody's Investors Service
S&P	Standard & Poor's Financial Services LLC
Second Quarter Form 10-Q	The Companies' combined Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2012
VaR	Value-at-Risk

ITEM 1	Legal Proceedings	62
ITEM 1A	Risk Factors	62
ITEM 2	Unregistered Sales of Equity Securities and Use of Proceeds	62
ITEM 6	Exhibits	63
	Signatures	64

FORWARD-LOOKING STATEMENTS

This report includes forward-looking statements intended to qualify for the safe-harbor provisions of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements are statements of future expectation and not facts. Words such as “expects,” “estimates,” “anticipates,” “intends,” “believes,” “plans,” “will” and similar expressions identify forward-looking statements. Forward-looking statements are based on information available at the time the statements are made, and accordingly speak only as of that time. Actual results or developments might differ materially from those included in the forward-looking statements because of various risks, including:

- the failure to operate energy facilities safely and reliably could adversely affect the Companies;
- the failure to properly complete construction projects could adversely affect the Companies;
- the failure of processes and systems and the performance of employees and contractors could adversely affect the Companies;
- the Companies are extensively regulated and are subject to penalties;
- the Utilities’ rate plans may not provide a reasonable return;
- the Companies may be adversely affected by changes to the Utilities’ rate plans;
- the Companies are exposed to risks from the environmental consequences of their operations;
- a disruption in the wholesale energy markets or failure by an energy supplier could adversely affect the Companies;
- the Companies have substantial unfunded pension and other postretirement benefit liabilities;
- Con Edison’s ability to pay dividends or interest depends on dividends from its subsidiaries;
- the Companies require access to capital markets to satisfy funding requirements;
- the Internal Revenue Service has disallowed substantial tax deductions taken by the company;
- a cyber attack could adversely affect the Companies; and
- the Companies also face other risks that are beyond their control.

NOTES TO THE FINANCIAL STATEMENTS (UNAUDITED)

General

These combined notes accompany and form an integral part of the separate consolidated financial statements of each of the two separate registrants: Consolidated Edison, Inc. and its subsidiaries (Con Edison) and Consolidated Edison Company of New York, Inc. and its subsidiaries (CECONY). CECONY is a subsidiary of Con Edison and as such its financial condition and results of operations and cash flows, which are presented separately in the CECONY consolidated financial statements, are also consolidated, along with those of Con Edison's other utility subsidiary, Orange and Rockland Utilities, Inc. (O&R), and Con Edison's competitive energy businesses (discussed below) in Con Edison's consolidated financial statements. The term "Utilities" is used in these notes to refer to CECONY and O&R.

As used in these notes, the term "Companies" refers to Con Edison and CECONY and, except as otherwise noted, the information in these combined notes relates to each of the Companies. However, CECONY makes no representation as to information relating to Con Edison or the subsidiaries of Con Edison other than itself.

The separate interim consolidated financial statements of each of the Companies are unaudited but, in the opinion of their respective managements, reflect all adjustments (which include only normally recurring adjustments) necessary for a fair presentation of the results for the interim periods presented. The

Companies' separate interim consolidated financial statements should be read together with their separate audited financial statements (including the combined notes thereto) included in Item 8 of their combined Annual Report on Form 10-K for the year ended December 31, 2011 and their separate unaudited financial statements (including the combined notes thereto) included in Part I, Item 1 of their combined Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2012. Certain prior period amounts have been reclassified to conform to the current period presentation.

Con Edison has two regulated utility subsidiaries: CECONY and O&R. CECONY provides electric service and gas service in New York City and Westchester County. The company also provides steam service in parts of Manhattan. O&R, along with its regulated utility subsidiaries, provides electric service in southeastern New York and adjacent areas of northern New Jersey and eastern Pennsylvania and gas service in southeastern New York and adjacent areas of eastern Pennsylvania. Con Edison has the following competitive energy businesses: Consolidated Edison Solutions, Inc. (Con Edison Solutions), a retail energy services company that sells electricity and also offers energy-related services; Consolidated Edison Energy, Inc. (Con Edison Energy), a wholesale energy supply and services company; and Consolidated Edison Development, Inc. (Con Edison Development), a company that develops and participates in infrastructure projects.

Note A — Summary of Significant Accounting Policies

Earnings Per Common Share

For the three and six months ended June 30, 2012 and 2011, basic and diluted EPS for Con Edison are calculated as follows:

<i>(Millions of Dollars, except per share amounts/Shares in Millions)</i>	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2012	2011	2012	2011
Net income for common stock	\$ 214	\$ 165	\$ 491	\$ 477
Weighted average common shares outstanding – Basic	292.9	292.7	292.9	292.3
Add: Incremental shares attributable to effect of potentially dilutive securities	1.5	1.6	1.5	1.6
Adjusted weighted average common shares outstanding – Diluted	294.4	294.3	294.4	293.9
Net income for common stock per common share – basic	\$ 0.73	\$ 0.57	\$ 1.68	\$ 1.63
Net income for common stock per common share – diluted	\$ 0.73	\$ 0.56	\$ 1.67	\$ 1.62

Note B — Regulatory Matters

Rate Agreements

CECONY — Electric

In March 2012, the NYSPSC issued an order requiring that the \$134 million surcharge that was to have been collected from customers during the rate year ending March 2013 instead be offset using certain CECONY regulatory liabilities that would have otherwise been refundable to or applied for the benefit of customers after the rate year.

O&R — Electric

On February 24, 2012, O&R, the staff of the NYSPSC and the Utility Intervention Unit of New York State's Division of Consumer Protection entered into a Joint Proposal with respect to the Company's rates for electric delivery service rendered in New York. The Joint Proposal, which the NYSPSC approved in June 2012, covers the three-year period from July 2012 through June 2015. The Joint Proposal provides for electric base rate increases of \$19.4 million, \$8.8 million and \$15.2 million, effective July 2012, 2013 and 2014, respectively, which is being implemented, at the NYSPSC's option, with increases of \$15.2 million effective July 2012 and 2013 and an increase of \$13.1 million, together with a surcharge of \$2.1 million, effective July 2014. The Joint Proposal reflects the following major items:

- a weighted average cost of capital of 7.61 percent, 7.65 percent and 7.48 percent for the rate years ending June 30, 2013, 2014 and 2015, respectively, reflecting:

- a return on common equity of 9.4 percent, 9.5 percent and 9.6 percent for the rate years ending June 30, 2013, 2014 and 2015, respectively;
- cost of long-term debt of 6.07 percent for each of the rate years ending June 30, 2013 and 2014 and 5.64 percent for the rate year ending June 30, 2015;
- common equity ratio of 48 percent for each of the rate years ending June 30, 2013, 2014 and 2015; and
- average rate base of \$671 million, \$708 million and \$759 million for the rate years ending June 30, 2013, 2014 and 2015, respectively;
- sharing with electric customers of any actual earnings, excluding the effects of any penalties and certain other items, above specified percentage returns on common equity (based on the actual average common equity ratio, subject to a 50 percent maximum):
 - the company will allocate to customers the revenue requirement equivalent of 50 percent, 75 percent and 90 percent of any such earnings for each rate year in excess of 80 basis points, 180 basis points and 280 basis points, respectively, above the return on common equity for that rate year indicated above; and
 - the earnings sharing allocation between the company and customers will be done on a cumulative basis at the end of rate year three;
- continuation of a revenue decoupling mechanism;

- continuation of a provision which defers as a regulatory liability for the benefit of customers or, subject to certain limitations, a regulatory asset for recovery from customers, as the case may be, the revenue requirement impact of the amount by which actual average net utility plant for each rate year is different than the average net utility plant reflected in rates (\$678 million, \$704 million and \$753 million for the rate years ending June 30, 2013, 2014 and 2015, respectively);
- continuation of the rate provisions pursuant to which the company recovers its purchased power costs from customers;
- continuation of rate provisions under which pension and other post-retirement benefit expenses, environmental remediation expenses, tax-exempt debt costs, property taxes and certain other expenses are reconciled to amounts for those expenses reflected in rates; and
- continuation of provisions for potential operations penalties of up to \$3 million annually if certain customer service and system reliability performance targets are not met.

Other Regulatory Matters

In February 2009, the NYSPSC commenced a proceeding to examine the prudence of certain

CECONY expenditures (see “Investigations of Vendor Payments” in Note H). Pursuant to NYSPSC orders, a portion of the company’s revenues (currently, \$249 million, \$32 million and \$6 million on an annual basis for electric, gas and steam service, respectively) is being collected subject to potential refund to customers. At June 30, 2012, the company had collected an estimated \$959 million from customers subject to potential refund in connection with this proceeding. In October 2010, a NYSPSC consultant reported its \$21 million provisional assessment, which the company has disputed, of potential overcharges for construction work. The potential overcharges related to transactions that involved certain employees who were arrested and a contractor that performed work for the company. The NYSPSC’s consultant is expected to continue to review the company’s expenditures. At June 30, 2012, the company had a \$15 million regulatory liability relating to this matter. The company is unable to estimate the amount, if any, by which any refund required by the NYSPSC may exceed this regulatory liability.

In February 2011, the NYSPSC initiated a proceeding to examine the existing mechanisms pursuant to which utilities recover site investigation and remediation costs and possible alternatives. See Note G.

Regulatory Assets and Liabilities

Regulatory assets and liabilities at June 30, 2012 and December 31, 2011 were comprised of the following items:

<i>(Millions of Dollars)</i>	Con Edison		CECONY	
	2012	2011	2012	2011
Regulatory assets				
Unrecognized pension and other postretirement costs	\$5,407	\$5,852	\$5,159	\$5,554

Other	125	206	106	192
Regulatory liabilities – long-term	1,029	977	906	861
Electric surcharge offset	104	—	104	—
Refundable energy costs – current	69	51	38	12
Revenue decoupling mechanism	59	66	59	66
Deferred derivative gains – current	1	1	1	1
Regulatory liabilities – current	233	118	202	79
Total Regulatory Liabilities	\$1,262	\$1,095	\$1,108	\$ 940

Note C — Capitalization

In March 2012, CECONY issued \$400 million of 4.20 percent 30-year debentures, \$239 million of the net proceeds from the sale of which were used to redeem

on May 1, 2012 all outstanding shares of its \$5 Cumulative Preferred Stock and Cumulative Preferred Stock (\$100 par value).

The carrying amounts and fair values of long-term debt are:

<i>(Millions of Dollars)</i>	June 30, 2012		December 31, 2011	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Long-Term Debt (including current portion)				
Con Edison	\$11,071	\$13,310	\$10,673	\$12,744
CECONY	\$10,144	\$12,135	\$ 9,745	\$11,593

Fair values of long-term debt have been estimated primarily using available market information. For Con Edison, \$12,674 million and \$636 million of the fair value of long-term debt at June 30, 2012 are classified as Level 2 and Level 3, respectively. For CECONY, \$11,499 million and \$636 million of the fair value of long-term debt at June 30, 2012 are classified as Level 2 and Level 3, respectively (see Note K). The \$636 million of long-term debt classified as Level 3 is CECONY's tax-exempt, auction-rate securities for which the market is highly illiquid and there is a lack of observable inputs.

Note E — Pension Benefits Net Periodic Benefit Cost

The components of the Companies' net periodic benefit costs for the three and six months ended June 30, 2012 and 2011 were as follows:

<i>(Millions of Dollars)</i>	For the Three Months Ended June 30,			
	Con Edison		CECONY	
	2012	2011	2012	2011
Service cost – including administrative expenses	\$ 59	\$ 47	\$ 55	\$ 44
Interest cost on projected benefit obligation	137	140	128	131

Amortization of net actuarial loss	354	264	335	250
Amortization of prior service costs	4	4	3	4
NET PERIODIC BENEFIT COST	\$ 398	\$ 276	\$ 370	\$ 254
Amortization of regulatory asset	1	1	1	1
TOTAL PERIODIC BENEFIT COST	\$ 399	\$ 277	\$ 371	\$ 255
Cost capitalized	(135)	(96)	(126)	(89)
Reconciliation to rate level	(32)	(57)	(36)	(59)
Cost charged to operating expenses	\$ 232	\$ 124	\$ 209	\$ 107

Note D — Short-Term Borrowing

At June 30, 2012, Con Edison had \$800 million of commercial paper outstanding, all of which was outstanding under CECONY's program. The weighted average interest rate was 0.4 percent for each of Con Edison and CECONY. The Companies have not borrowed under their October 2011 credit agreement. Con Edison had \$252 million of letters of credit outstanding under the credit agreement (including \$237 million for CECONY).

Expected Contributions

The Companies expect to make contributions to the pension plan during 2012 of \$775 million (of which \$721 million is to be contributed by CECONY). During the first six months of 2012, CECONY

contributed \$438 million to the pension plan and also funded \$12 million for the non-qualified supplemental plan. The Companies' policy is to fund their accounting cost to the extent tax deductible.

Note F — Other Postretirement Benefits Net Periodic Benefit Cost

The components of the Companies' net periodic postretirement benefit costs for the three and six months ended June 30, 2012 and 2011 were as follows:

	For the Three Months Ended June 30,			
	Con Edison		CECONY	
(Millions of Dollars)	2012	2011	2012	2011
Service cost	\$ 6	\$ 6	\$ 5	\$ 5
Interest cost on accumulated other postretirement benefit obligation	18	21	15	18
Expected return on plan assets	(21)	(22)	(18)	(19)
Amortization of net actuarial loss	24	22	21	20
Amortization of prior service cost	(5)	(2)	(4)	(3)
Amortization of transition obligation	1	1	1	1
NET PERIODIC POSTRETIREMENT BENEFIT COST	\$ 23	\$ 26	\$ 20	\$ 22

	For the Six Months Ended June 30,			
	Con Edison		CECONY	
(Millions of Dollars)	2012	2011	2012	2011
Service cost	\$ 13	\$ 12	\$ 10	\$ 10
Interest cost on accumulated other postretirement benefit obligation	36	42	32	36
Expected return on plan assets	(42)	(44)	(38)	(38)
Amortization of net actuarial loss	49	44	44	40
Amortization of prior service cost	(11)	(4)	(9)	(6)
Amortization of transition obligation	1	2	1	2
NET PERIODIC POSTRETIREMENT BENEFIT COST	\$ 46	\$ 52	\$ 40	\$ 44
Cost capitalized	(16)	(18)	(14)	(15)
Reconciliation to rate level	14	9	8	7
Cost charged to operating expenses	\$ 44	\$ 43	\$ 34	\$ 36

Expected Contributions

Con Edison expects to make a contribution of \$83 million, including \$71 million for CECONY, to the other postretirement benefit plans in 2012.

Note G — Environmental Matters Superfund Sites

Hazardous substances, such as asbestos, polychlorinated biphenyls (PCBs) and coal tar, have been used or generated in the course of operations of the Utilities and their predecessors and are present at sites and in facilities and equipment they currently or previously

owned, including sites at which gas was manufactured or stored.

The Federal Comprehensive Environmental Response, Compensation and Liability Act of 1980 and similar state statutes (Superfund) impose joint and several liability, regardless of fault, upon generators of hazardous substances for investigation and remediation costs (which include costs of demolition, removal, disposal, storage, replacement, containment, and monitoring) and natural resource damages. Liability under these laws can be material and may be imposed

for contamination from past acts, even though such past acts may have been lawful at the time they occurred. The sites at which the Utilities have been asserted to have liability under these laws, including their manufactured gas plant sites and any neighboring areas to which contamination may have migrated, are referred to herein as “Superfund Sites.”

For Superfund Sites where there are other potentially responsible parties and the Utilities are not managing the site investigation and remediation, the accrued liability represents an estimate of the amount the Utilities will need to pay to investigate and, where determinable, discharge their related obligations. For Superfund Sites (including the manufactured gas plant sites) for which one of the Utilities is managing the investigation and remediation, the accrued liability represents an estimate of the company’s share of undiscounted cost to investigate the sites and, for sites that have been investigated in whole or in part, the cost to remediate the sites, if remediation is necessary and if a reasonable estimate of such cost can be made. Remediation costs are estimated in light of the information available, applicable remediation standards, and experience with similar sites.

The accrued liabilities and regulatory assets related to Superfund Sites at June 30, 2012 and December 31, 2011 were as follows:

<i>(Millions of Dollars)</i>	Con Edison		CECONY	
	2012	2011	2012	2011
Accrued Liabilities:				
Manufactured gas plant sites	\$469	\$422	\$354	\$307
Other Superfund Sites	70	67	69	66
Total	\$539	\$489	\$423	\$373
Regulatory assets	\$730	\$681	\$615	\$564

Most of the accrued Superfund Site liability relates to sites that have been investigated, in whole or in part. However, for some of the sites, the extent and associated cost of the required remediation has not yet been determined. As investigations progress and information pertaining to the required remediation becomes available, the Utilities expect that additional liability may be accrued, the amount of which is not presently determinable but may be material. Under their current rate agreements, the Utilities are

permitted to recover or defer as regulatory assets (for subsequent recovery through rates) certain site investigation and remediation costs. In February 2011, the NYSPSC initiated a proceeding to examine the existing mechanisms pursuant to which utilities recover such costs and possible alternatives.

Environmental remediation costs incurred and insurance recoveries received related to Superfund Sites for the three and six months ended June 30, 2012 and 2011, were as follows:

<i>(Millions of Dollars)</i>	For the Three Months Ended June 30,			
	Con Edison		CECONY	
	2012	2011	2012	2011
Remediation costs incurred	\$8	\$10	\$7	\$8
Insurance recoveries received	—	—	—	—

<i>(Millions of Dollars)</i>	For the Six Months Ended June 30,			
	Con Edison		CECONY

Remediation costs incurred	\$15	\$16	\$14	\$14
Insurance recoveries received	—	—	—	—

In 2010, CECONY estimated that for its manufactured gas plant sites, its aggregate undiscounted potential liability for the investigation and remediation of coal tar and/or other manufactured gas plant-related environmental contaminants could range up to \$1.9 billion. In 2010, O&R estimated that for its manufactured gas plant sites, each of which has been investigated, the aggregate undiscounted potential liability for the remediation of such contaminants could range up to \$200 million. These estimates were based on the assumption that there is contamination at all sites, including those that have not yet been fully investigated and additional assumptions about the extent of the contamination and the type and extent of the remediation that may be required. Actual experience may be materially different.

Asbestos Proceedings

Suits have been brought in New York State and federal courts against the Utilities and many other defendants, wherein a large number of plaintiffs sought large amounts of compensatory and punitive damages for deaths and injuries allegedly caused by exposure to asbestos at various premises of the Utilities. The suits

that have been resolved, which are many, have been resolved without any payment by the Utilities, or for amounts that were not, in the aggregate, material to them. The amounts specified in all the remaining thousands of suits total billions of dollars; however, the Utilities believe that these amounts are greatly exaggerated, based on the disposition of previous claims. In 2010, CECONY estimated that its aggregate undiscounted potential liability for these suits and additional suits that may be brought over the next 15 years is \$10 million. The estimate was based upon a combination of modeling, historical data analysis and risk factor assessment. Actual experience may be materially different. In addition, certain current and former employees have claimed or are claiming workers' compensation benefits based on alleged disability from exposure to asbestos. Under its current rate agreements, CECONY is permitted to defer as regulatory assets (for subsequent recovery through rates) costs incurred for its asbestos lawsuits and workers' compensation claims. The accrued liability for asbestos suits and workers' compensation proceedings (including those related to asbestos exposure) and the amounts deferred as regulatory assets for the Companies at June 30, 2012 and December 31, 2011 were as follows:

<i>(Millions of Dollars)</i>	Con Edison		CECONY	
	2012	2011	2012	2011
Accrued liability – asbestos suits	\$10	\$10	\$10	\$10
Regulatory assets – asbestos suits	\$10	\$10	\$10	\$10
Accrued liability – workers' compensation	\$95	\$98	\$91	\$93
Regulatory assets – workers' compensation	\$21	\$23	\$20	\$23

Note H — Other Material Contingencies Manhattan Steam Main Rupture

In July 2007, a CECONY steam main located in midtown Manhattan ruptured. It has been reported that one person died and others were injured as a result of the incident. Several buildings in the area were damaged. Debris from the incident included dirt and mud containing asbestos. The response to the incident required the closing of several buildings and streets for various periods. Approximately 93 suits are pending against the company seeking generally unspecified

compensatory and, in some cases, punitive damages, for personal injury, property damage and business interruption. The company has not accrued a liability for the suits. The company has notified its insurers of the incident and believes that the policies in force at the time of the incident will cover most of the company's costs, which the company is unable to estimate, but which could be substantial, to satisfy its liability to others in connection with the incident.

Investigations of Vendor Payments

In January 2009, CECONY commenced an internal investigation relating to the arrests of certain employees and retired employees (all of whom have since been convicted) for accepting kickbacks from contractors that performed construction work for the company. The company has retained a law firm, which has retained an accounting firm, to assist in the company's investigation. The company has provided information to governmental authorities, which consider the company to be a victim of unlawful conduct, in connection with their investigation of the arrested employees and contractors. The company has terminated its employment of the arrested employees and its contracts with the contractors. In February 2009, the NYSPSC commenced a proceeding that, among other things, will examine the prudence of certain of the company's expenditures relating to the arrests and consider whether additional expenditures should also be examined (see "Other Regulatory Matters" in Note B).

CECONY is also investigating the September 2010 arrest of a retired employee (who has since been convicted of participating in a bribery scheme in which the employee received payments from two companies that supplied materials to the company) and the January 2011 arrest of an employee (for accepting kickbacks from an engineering firm that performed work for the company). CECONY has provided information to governmental authorities in connection with their ongoing investigations of these matters.

The company, based upon its evaluation of its internal controls for 2011 and previous years, believes that the controls were effective to provide reasonable assurance that its financial statements have been fairly presented,

in all material respects, in conformity with generally accepted accounting principles. Because the company's investigations are ongoing, the company is unable to predict the impact of any of the employees' unlawful conduct on the company's internal controls, business, results of operations or financial position.

Lease In/Lease Out Transactions

In each of 1997 and 1999, Con Edison Development entered into a transaction in which it leased property and then immediately subleased it back to the lessor (termed "Lease In/Lease Out," or LILLO transactions). The transactions respectively involve electric generating and gas distribution facilities in the Netherlands, with a total investment of \$259 million. The transactions were financed with \$93 million of equity and \$166 million of non-recourse, long-term debt secured by the underlying assets. In accordance with the accounting rules for leases, Con Edison is accounting for the two LILLO transactions as leveraged leases. Accordingly, the company's investment in these leases, net of non-recourse debt, is carried as a single amount in Con Edison's consolidated balance sheet and income is recognized pursuant to a method that incorporates a level rate of return for those years when net investment in the lease is positive, based upon the after-tax cash flows projected at the inception of the leveraged leases. The company's investment in these leveraged leases was \$(69) million at June 30, 2012 and \$(55) million at December 31, 2011 and is comprised of a \$228 million gross investment less \$297 million of deferred tax liabilities at June 30, 2012 and \$234 million gross investment less \$289 million of deferred tax liabilities at December 31, 2011.

On audit of Con Edison's tax return for 1997, the IRS disallowed the tax losses in connection with the 1997 LILLO transaction. In December 2005, Con Edison paid a \$0.3 million income tax deficiency asserted by the IRS for the tax year 1997 with respect to the 1997 LILLO transaction. In April 2006, the company paid interest of \$0.2 million associated with the deficiency and commenced an action in the United States Court of Federal Claims, entitled Consolidated Edison Company of New York, Inc. v. United States, to obtain a refund of this tax payment and interest. A trial was completed in November 2007. In October 2009,

the court issued a decision in favor of the company concluding that the 1997 LILLO transaction was, in substance, a true lease that possessed economic substance, the loans relating to the lease constituted bona fide indebtedness, and the deductions for the 1997 LILLO transactions claimed by the company in its 1997 federal income tax return are allowable. The IRS appealed the decision in December 2011.

In connection with its audit of Con Edison's federal income tax returns for 1998 through 2007, the IRS disallowed \$416 million of net tax deductions taken with respect to both of the LILLO transactions for the tax years. Con Edison is pursuing administrative appeals of these audit level disallowances. In connection with its audit of Con Edison's federal income tax returns for 2010, 2009 and 2008, the IRS has disallowed \$40 million, \$41 million and \$42 million, respectively, of net tax deductions taken with respect to both of the LILLO transactions. When these audit level disallowances become appealable, Con Edison intends to file an appeal of the disallowances.

Con Edison believes that its LILLO transactions have been correctly reported, and has not recorded any reserve with respect to the disallowance of tax losses, or related interest, in connection with its LILLO transactions. Con Edison's estimated tax savings, reflected in its financial statements, from the two LILLO transactions through June 30, 2012, in the aggregate, was \$244 million. If Con Edison were required to repay all or a portion of these amounts, it would also be required to pay interest of up to \$118 million net of tax at June 30, 2012.

Pursuant to the accounting rules for leveraged lease transactions, the expected timing of income tax cash flows generated by Con Edison's LILLO transactions are required to be reviewed at least annually. If the expected timing of the cash flows is revised, the rate of return and the allocation of income would be recalculated from the inception of the LILLO transactions, and the company would be required to recalculate the accounting effect of the LILLO transactions, which would result in a charge to earnings that could have a material adverse effect on the company's results of operations.

Guarantees

Con Edison and its subsidiaries enter into various agreements providing financial or performance assurance primarily to third parties on behalf of their subsidiaries. Maximum amounts guaranteed by Con Edison totaled \$795 million and \$760 million at June 30, 2012 and December 31, 2011, respectively.

A summary, by type and term, of Con Edison's total guarantees at June 30, 2012 is as follows:

Guarantee Type	0 – 3 years	4 – 10 years	> 10 years	Total
	<i>(Millions of Dollars)</i>			
Energy transactions	\$658	\$12	\$66	\$736
Intra-company guarantees	15	—	1	16
Other guarantees	38	5	—	43
TOTAL	\$711	\$17	\$67	\$795

Energy Transactions — Con Edison guarantees payments on behalf of its competitive energy businesses in order to facilitate physical and financial transactions in gas, pipeline capacity, transportation, oil, electricity and energy services. To the extent that liabilities exist under the contracts subject to these guarantees, such liabilities are included in Con Edison's consolidated balance sheet.

Intra-company Guarantees — Con Edison guarantees electricity sales made by Con Edison Energy and Con Edison Solutions to O&R and CECONY.

Other Guarantees — Con Edison and Con Edison Development also guarantee the following:

- \$7 million relates to guarantees issued by Con Edison to CECONY covering a former Con Edison subsidiary's lease payment to use CECONY's conduit system in accordance with a tariff approved by the NYSPSC and a guarantee issued by Con Edison to a landlord to guarantee the former subsidiary's obligations under a building lease. The former subsidiary is obligated to reimburse Con Edison for any payments made under these guarantees. This obligation is fully secured by letters of credit;
- \$25 million for guarantees provided by Con Edison to Travelers Insurance Company for indemnity agreements for surety bonds in connection with energy service projects performed by Con Edison Solutions;
- \$11 million for guarantees provided by Con Edison Development to Travelers Insurance Company for indemnity agreements for surety bonds in connection with the construction and operation of solar facilities performed by its subsidiaries; and
- Con Edison, on behalf of Con Edison Solutions, as a retail electric provider, issued a guarantee to the Public Utility Commission of Texas with no specified limitation on the amount guaranteed, covering the payment of all obligations of a retail electric provider. Con Edison's estimate of the maximum potential obligation is \$5 million as of June 30, 2012.

Note I — Financial Information by Business Segment

The financial data for the business segments are as follows:

<i>(Millions of Dollars)</i>	For the Three Months Ended June 30,

Note J — Derivative Instruments and Hedging Activities

Under the accounting rules for derivatives and hedging, derivatives are recognized on the balance sheet at fair value, unless an exception is available under the accounting rules. Certain qualifying derivative contracts have been designated as normal purchases or normal sales contracts. These contracts are not reported at fair value under the accounting rules.

Energy Price Hedging

Con Edison's subsidiaries hedge market price fluctuations associated with physical purchases and sales of electricity, natural gas, and steam by using derivative

instruments, including futures, forwards, basis swaps, options, transmission congestion contracts and financial transmission rights contracts. The fair values of the Companies' commodity derivatives at June 30, 2012 and December 31, 2011 were as follows:

<i>(Millions of Dollars)</i>	Con Edison		CECONY	
	2012	2011	2012	2011
Fair value of net derivative assets/ (liabilities) – gross	\$(195)	\$(249)	\$(111)	\$(144)
Impact of netting of cash collateral	102	110	51	46
Fair value of net derivative assets/ (liabilities) – net	\$ (93)	\$(139)	\$ (60)	\$ (98)

Credit Exposure

The Companies are exposed to credit risk related to transactions entered into primarily for the various energy supply and hedging activities by the Utilities and the competitive energy businesses. The Companies use credit policies to manage this risk, including an established credit approval process, monitoring of counterparty limits, netting provisions within agreements, collateral or prepayment arrangements, credit insurance and credit default swaps.

At June 30, 2012, Con Edison and CECONY had \$112 million and \$12 million of credit exposure in connection with energy supply and hedging activities, net of collateral, respectively. Con Edison's net credit exposure consisted of \$37 million with investment-

grade counterparties, \$34 million with commodity exchange brokers, \$39 million with independent system operators and \$2 million with non-rated counterparties. CECONY's net credit exposure consisted of \$1 million with investment-grade counterparties and \$11 million with commodity exchange brokers.

Economic Hedges

The Companies enter into certain derivative instruments that do not qualify or are not designated as hedges under the accounting rules for derivatives and hedging. However, management believes these instruments represent economic hedges that mitigate exposure to fluctuations in commodity prices.

The fair values of the Companies' commodity derivatives at June 30, 2012 were:

<i>(Millions of Dollars)</i>	Fair Value of Commodity Derivatives (a) Balance Sheet Location	Con Edison	CECONY
	Derivative Assets		
Current	Other current assets	\$ 118	\$ 22
Long-term	Other deferred charges and non-current assets	22	9
		\$ 140	\$ 31
Total derivative assets			
Impact of netting		(79)	(6)
Net derivative assets		\$ 61	\$ 25
	Derivative Liabilities		
Current	Fair value of derivative liabilities	\$ 253	\$ 96
Long-term	Fair value of derivative liabilities	82	46
		\$ 335	\$142
Total derivative liabilities			
Impact of netting		(181)	(57)
Net derivative liabilities		\$ 154	\$ 85

(a) Qualifying derivative contracts, which have been designated as normal purchases or normal sales contracts, are not reported at fair value under the accounting rules for derivatives and hedging and, therefore, are excluded from the table.

The fair values of the Companies' commodity derivatives at December 31, 2011 were:

<i>(Millions of Dollars)</i>	Fair Value of Commodity Derivatives (a) Balance Sheet Location	Con Edison	CECONY
	Derivative Assets		
Current	Other current assets	\$139	\$ 16
Long-term	Other deferred charges and non-current assets	26	14
		\$165	\$ 30
Total derivative assets			
Impact of netting		(95)	(6)
Net derivative assets		\$ 70	\$ 24
	Derivative Liabilities		
Current	Fair value of derivative liabilities	\$331	\$127
Long-term	Fair value of derivative liabilities	83	48
		\$414	\$175
Total derivative liabilities			
Impact of netting		(205)	(53)
Net derivative liabilities		\$209	\$122

(a) Qualifying derivative contracts, which have been designated as normal purchases or normal sales contracts, are not reported at fair value under the accounting rules for derivatives and hedging and, therefore, are excluded from the table.

The Utilities generally recover all of their prudently incurred fuel, purchased power and gas cost, including hedging gains and losses, in accordance with rate provisions approved by the applicable state utility commissions. In accordance with the accounting rules for regulated operations, the Utilities record a regulatory asset or liability to defer recognition of unrealized gains and losses on their electric and gas

derivatives. As gains and losses are realized in future periods, they will be recognized as purchased power, gas and fuel costs in the Companies' consolidated income statements. Con Edison's competitive energy businesses record realized and unrealized gains and losses on their derivative contracts in earnings in the reporting period in which they occur.

The following tables present the changes in the fair values of commodity derivatives that have been deferred or recognized in earnings for the three and six months ended June 30, 2012:

**Realized and Unrealized Gains/(Losses) on Commodity Derivatives (a)
Deferred or Recognized in Income for the Three Months Ended June 30, 2012**

<i>(Millions of Dollars)</i>	Balance Sheet Location	Con Edison	CECONY
Pre-tax gains/(losses) deferred in accordance with accounting rules for regulated operations:			
Current	Deferred derivative gains	\$ (1)	\$ (1)
Total deferred gains		\$ (1)	\$ (1)
Current	Deferred derivative losses	\$ 66	\$ 55
Current	Recoverable energy costs	(63)	(56)
Long-term	Deferred derivative losses	8	16
Total deferred losses		\$ 11	\$ 15
Net deferred gains/(losses)		\$ 10	\$ 14
Income Statement Location			
Pre-tax gain/(loss) recognized in income			
	Purchased power expense	\$ 27(b)	\$ —
	Gas purchased for resale	(1)	—
	Non-utility revenue	(8)(b)	—
Total pre-tax gain/(loss) recognized in income		\$ 18	\$ —

- (a) Qualifying derivative contracts, which have been designated as normal purchases or normal sales contracts, are not reported at fair value under the accounting rules for derivatives and hedging and, therefore, are excluded from the table.
- (b) For the three months ended June 30, 2012, Con Edison recorded in non-utility revenues and purchased power expense an unrealized pre-tax (loss)/gain of \$(9) million and \$72 million, respectively.

**Realized and Unrealized Gains/(Losses) on Commodity Derivatives (a)
Deferred or Recognized in Income for the Six Months Ended June 30, 2012**

<i>(Millions of Dollars)</i>	Balance Sheet Location	Con Edison	CECONY
Pre-tax gains/(losses) deferred in accordance with accounting rules for regulated operations:			
Current	Deferred derivative gains	\$ —	\$ —
Total deferred gains		\$ —	\$ —
Current	Deferred derivative losses	\$ 38	\$ 36
Current	Recoverable energy costs	(127)	(112)
Long-term	Deferred derivative losses	(11)	(1)
Total deferred losses		\$(100)	\$ (77)
Net deferred gains/(losses)		\$(100)	\$ (77)
Income Statement Location			
Pre-tax gain/(loss) recognized in income			
	Purchased power expense	\$ (59)(b)	\$ —
	Gas purchased for resale	(2)	—
	Non-utility revenue	(11)(b)	—
Total pre-tax gain/(loss) recognized in income		\$ (72)	\$ —

- (a) Qualifying derivative contracts, which have been designated as normal purchases or normal sales contracts, are not reported at fair value under the accounting rules for derivatives and hedging and, therefore, are excluded from the table.
- (b) For the six months ended June 30, 2012, Con Edison recorded in non-utility revenues and purchased power expense an unrealized pre-tax (loss)/gain of \$(13) million and \$45 million, respectively.

The following tables present the changes in the fair values of commodity derivatives that have been deferred or recognized in earnings for the three and six months ended June 30, 2011:

**Realized and Unrealized Gains/(Losses) on Commodity Derivatives (a)
Deferred or Recognized in Income for the Three Months Ended June 30, 2011**

<i>(Millions of Dollars)</i>	Balance Sheet Location	Con Edison	CECONY
Pre-tax gains/(losses) deferred in accordance with accounting rules for regulated operations:			
Current	Deferred derivative gains	\$ (4)	\$ (4)
Long-term	Regulatory liabilities	(1)	—
Total deferred gains		\$ (5)	\$ (4)
Current	Deferred derivative losses	\$ 25	\$ 18
Current	Recoverable energy costs	(53)	(39)
Long-term	Regulatory assets	12	9
Total deferred losses		\$ (16)	\$ (12)
Net deferred gains/(losses)		\$ (21)	\$ (16)
Income Statement Location			
Pre-tax gain/(loss) recognized in income			
	Purchased power expense	\$ 73(b)	\$ —
	Gas purchased for resale	17	—
	Non-utility revenue	7(b)	—
Total pre-tax gain/(loss) recognized in income		\$ 97	\$ —

- (a) Qualifying derivative contracts, which have been designated as normal purchases or normal sales contracts, are not reported at fair value under the accounting rules for derivatives and hedging and, therefore, are excluded from the table.
- (b) For the three months ended June 30, 2011, Con Edison recorded in non-utility revenues and purchased power expense an unrealized pre-tax (loss)/gain of \$(12) million and \$10 million, respectively.

**Realized and Unrealized Gains/(Losses) on Commodity Derivatives (a)
Deferred or Recognized in Income for the Six Months Ended June 30, 2011**

<i>(Millions of Dollars)</i>	Balance Sheet Location	Con Edison	CECONY
Pre-tax gains/(losses) deferred in accordance with accounting rules for regulated operations:			
Current	Deferred derivative gains	\$ 2	\$ 1
Long-term	Regulatory liabilities	2	2
Total deferred gains		\$ 4	\$ 3
Current	Deferred derivative losses	\$ 69	\$ 53
Current	Recoverable energy costs	(102)	(81)
Long-term	Regulatory assets	28	20
Total deferred losses		\$ (5)	\$ (8)
Net deferred losses		\$ (1)	\$ (5)
Income Statement Location			
Pre-tax gain/(loss) recognized in income			
	Purchased power expense	\$ 52(b)	\$ —
	Gas purchased for resale	11	—
	Non-utility revenue	17(b)	—
Total pre-tax gain/(loss) recognized in income		\$ 80	\$ —

- (a) Qualifying derivative contracts, which have been designated as normal purchases or normal sales contracts, are not reported at fair value under the accounting rules for derivatives and hedging and, therefore, are excluded from the table.
- (b) For the six months ended June 30, 2011, Con Edison recorded in non-utility revenues and purchased power expense an unrealized pre-tax loss/(gain) of \$(25) million and \$60 million, respectively.

As of June 30, 2012, Con Edison had 1,483 contracts, including 706 CECONY contracts, which were considered to be derivatives under the accounting rules for derivatives and hedging (excluding qualifying derivative contracts, which have been designated as normal purchases or normal sales contracts). The following table presents the number of contracts by commodity type:

	Electric Derivatives				Gas Derivatives		Total Number of Contracts (a)
	Number of Energy Contracts (a)	MWhs (b)	Number of Capacity Contracts (a)	MWs (b)	Number of Contracts (a)	Dths (b)	
Con Edison	681	16,351,706	77	12,273	725	96,403,140	1,483
CECONY	137	3,879,800	—	—	569	89,220,000	706

- (a) Qualifying derivative contracts, which have been designated as normal purchases or normal sales contracts, are not reported at fair value under the accounting rules for derivatives and hedging and, therefore, are excluded from the table.
(b) Volumes are reported net of long and short positions.

The Companies also enter into electric congestion and gas basis swap contracts to hedge the congestion and transportation charges which are associated with electric and gas contracts and hedged volumes.

The collateral requirements associated with the clearing and settlement of derivative transactions are included in net cash flows from operating activities in the

Companies' consolidated statement of cash flows. Most derivative instrument contracts contain provisions that may require the Companies to provide collateral on derivative instruments in net liability positions. The amount of collateral to be provided will depend on the fair value of the derivative instruments and the Companies' credit ratings.

The aggregate fair value of all derivative instruments with credit-risk-related contingent features that are in a net liability position and collateral posted at June 30, 2012, and the additional collateral that would have been required to be posted had the lowest applicable credit rating been reduced one level and to below investment grade were:

<i>(Millions of Dollars)</i>	Con Edison (a)	CECONY (a)
Aggregate fair value – net liabilities	\$124	\$84
Collateral posted	\$ 62	\$56
Additional collateral (b) (downgrade one level from current ratings (c))	\$ 9	\$ 3
Additional collateral (b) (downgrade to below investment grade from current ratings (c))	\$101(d)	\$46(d)

- (a) Non-derivative transactions for the purchase and sale of electricity and gas and qualifying derivative instruments, which have been designated as normal purchases or normal sales, are excluded from the table. These transactions primarily include purchases of electricity from independent system operators. In the event the Utilities and Con Edison's competitive energy businesses were no longer extended unsecured credit for such purchases, the Companies would be required to post collateral, which at June 30, 2012, would have amounted to an estimated \$28 million for Con Edison, including \$0 million for CECONY. For certain other such non-derivative transactions, the Companies could be required to post collateral under certain circumstances, including in the event counterparties had reasonable grounds for insecurity.
(b) The Companies measure the collateral requirements by taking into consideration the fair value amounts of derivative instruments that contain credit-risk-related contingent features that are in a net liabilities position plus amounts owed to counterparties for settled transactions and amounts required by counterparties for minimum financial security. The fair value amounts represent unrealized losses, net of any unrealized gains where the Companies have a legally enforceable right of setoff.
(c) The current ratings are Moody's, S&P and Fitch long-term credit rating of, as applicable, Con Edison (Baa1/BBB+/BBB+), CECONY (A3/A-/A-) or O&R (Baa1/A-/A-). Credit ratings assigned by rating agencies are expressions of opinions that are subject to revision or withdrawal at any time by the assigning rating agency.
(d) Derivative instruments that are net assets have been excluded from the table. At June 30, 2012, if Con Edison had been downgraded to below investment grade, it would have been required to post additional collateral for such derivative instruments of \$24 million.

Interest Rate Swaps

O&R has an interest rate swap pursuant to which it pays a fixed-rate of 6.09 percent and receives a LIBOR-based variable rate. The fair value of this interest rate swap at June 30, 2012 was an unrealized loss of \$7 million, which has been included in Con Edison's consolidated balance sheet as a noncurrent liability/fair value of derivative liabilities and a

regulatory asset. The increase in the fair value of the swap for the three and six months ended June 30, 2012 was \$1 million. In the event O&R's credit rating was downgraded to BBB- or lower by S&P or Baa3 or lower by Moody's, the swap counterparty could elect to terminate the agreement and, if it did so, the parties would then be required to settle the transaction.

Note K – Fair Value Measurements

The accounting rules for fair value measurements and disclosures define fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in a principal or most advantageous market. Fair value is a market-based measurement that is determined based on inputs, which refer broadly to assumptions that market participants use in pricing assets or liabilities. These inputs can be readily observable, market corroborated, or generally unobservable firm inputs. The Companies often make certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, and the risks inherent in the inputs to valuation techniques. The Companies use valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs.

The accounting rules for fair value measurements and disclosures established a fair value hierarchy, which prioritizes the inputs to valuation techniques used to measure fair value in three broad levels. The rules require that assets and liabilities be classified in their entirety based on the level of input that is significant to the fair value measurement. Assessing the significance of a particular input may require judgment considering factors specific to the asset or liability, and may affect the valuation of the asset or liability and their placement within the fair value hierarchy. The Companies classify fair value balances based on the fair value hierarchy defined by the accounting rules for fair value measurements and disclosures as follows:

- Level 1 – Consists of assets or liabilities whose value is based on unadjusted quoted prices in active markets at the measurement date. An active market is one in which transactions for assets or liabilities occur with sufficient frequency and volume to provide pricing information on an ongoing basis. This category includes contracts traded on active exchange markets valued using unadjusted prices quoted directly from the exchange.
- Level 2 – Consists of assets or liabilities valued using industry standard models and based on prices,

other than quoted prices within Level 1, that are either directly or indirectly observable as of the measurement date. The industry standard models consider observable assumptions including time value, volatility factors, and current market and contractual prices for the underlying commodities, in addition to other economic measures. This category includes contracts traded on active exchanges or in over-the-counter markets priced with industry standard models.

- Level 3 – Consists of assets or liabilities whose fair value is estimated based on internally developed models or methodologies using inputs that are generally less readily observable and supported by little, if any, market activity at the measurement date. Unobservable inputs are developed based on the best available information and subject to cost benefit constraints. This category includes contracts priced using models that are internally developed and contracts placed in illiquid markets. It also includes contracts that expire after the period of time for which quoted prices are available and internal models are used to determine a significant portion of the value.

Effective January 1, 2012, the Companies adopted Accounting Standards Update (ASU) No. 2011-04, “Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs”. The amendments expand existing disclosure requirements for fair value measurements and make other amendments. For fair value measurements in Level 3, this update requires the Companies to provide a description of the valuation process in place, a quantitative disclosure of unobservable inputs and assumptions used in the measurement as well as a narrative description of the sensitivity of the fair value to changes in unobservable inputs and interrelationships between those inputs. The update also requires the Companies to disclose any transfers between Levels 1 and 2 of fair value hierarchy measurements and the reasons for the transfers.

Assets and liabilities measured at fair value on a recurring basis as of June 30, 2012 are summarized below.

<i>(Millions of Dollars)</i>	Level 1		Level 2		Level 3		Netting Adjustments (4)		Total	
	Con Edison	CECONY	Con Edison	CECONY	Con Edison	CECONY	Con Edison	CECONY	Con Edison	CECONY

- (1) A portion of the commodity derivatives categorized in Level 3 is valued using an internally developed model with observable inputs. The models also include some less readily observable inputs resulting in the classification of the entire contract as Level 3. See Note J.
- (2) See Note J.
- (3) Other assets are comprised of assets such as life insurance contracts within the deferred compensation plan and non-qualified retirement plans.

- (4) Amounts represent the impact of legally-enforceable master netting agreements that allow the Companies to net gain and loss positions and cash collateral held or placed with the same counterparties.
- (5) The Companies' policy is to recognize transfers into and transfers out of the levels at the end of the reporting period.
- (6) Transferred from Level 2 to Level 3 because of reassessment of the levels in the fair value hierarchy within which certain inputs fall.
- (7) Transferred from Level 3 to Level 2 because of availability of observable market data due to decrease in the terms of certain contracts from beyond one year as of December 31, 2010 to less than one year as of December 31, 2011.

The employees in the risk management groups of the Utilities and the competitive energy businesses develop and maintain the Companies' valuation policies and procedures for, and verify pricing and fair value valuation of, commodity derivatives. Under the Companies' policies and procedures, multiple independent sources of information are obtained for forward price curves used to value commodity derivatives. Fair value and changes in fair value of commodity derivatives are reported on a monthly basis to the Companies' risk committees, comprised of officers and employees of the Companies that oversee energy hedging at the Utilities and the competitive energy businesses. The managers of the risk management groups report to the Companies' Vice President and Treasurer.

<i>(Millions of Dollars)</i>	Fair Value of Level 3 at June 30, 2012	Valuation Techniques	Unobservable Inputs
Con Edison			
Commodity	\$(61)	Market approach (1)	Discount for inactive markets and/or illiquid locations (2)
CECONY			
Commodity	\$(10)	Market approach (1)	Discount for inactive markets and/or illiquid locations (2)

- (1) The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets and liabilities. The commodity derivatives are valued using quoted prices or internally developed models with observable inputs, adjusted for certain contracts that are traded in inactive markets and/or at illiquid locations. The unobservable inputs used in the Companies' models do not have a significant impact on the valuation.
- (2) Significant increases or decreases in any of these inputs in isolation would have a limited impact on fair value measurement. Generally, a change in the fair value measurement is linearly based on changes in these inputs.

The table listed below provides a reconciliation of the beginning and ending net balances for assets and liabilities measured at fair value for the three and six months ended June 30, 2012 and classified as Level 3 in the fair value hierarchy:

Total	\$66	\$—	\$21	\$11	\$—	\$—	\$(7)	\$5	\$96

(1) Amounts included in earnings are reported in investment and other income on the consolidated income statement.

For the Utilities, realized gains and losses on Level 3 commodity derivative assets and liabilities are reported as part of purchased power, gas and fuel costs. The Utilities generally recover these costs in accordance with rate provisions approved by the applicable state public utilities commissions. Unrealized gains and losses for commodity derivatives are generally deferred on the consolidated balance sheet in accordance with the accounting rules for regulated operations.

For the competitive energy businesses, realized and unrealized gains and losses on Level 3 commodity derivative assets and liabilities are reported in non-utility revenues (\$6 million loss and \$13 million loss) and purchased power costs (\$1 million loss and \$9 million loss) on the consolidated income statement for the three months ended June 30, 2012 and 2011, respectively. Realized and unrealized gains and losses on Level 3 commodity derivative assets and liabilities are reported in non-utility revenues (\$9 million loss and \$25 million loss), and purchased power costs (\$44 million loss and \$18 million gain) on the consolidated income statement for the six months ended June 30, 2012 and 2011, respectively. The change in fair value relating to Level 3 commodity derivative assets held at June 30, 2012 and 2011 is included in non-utility

revenues (\$6 million loss and \$13 million loss), and purchased power costs (\$31 million gain and \$6 million gain) on the consolidated income statement for the three months ended June 30, 2012 and 2011, respectively. For the six months ended June 30, 2012 and 2011, the change in fair value relating to Level 3 commodity derivative assets and liabilities is included in non-utility revenues (\$9 million loss and \$25 million loss), and purchased power costs (\$24 million gain and \$36 million gain) on the consolidated income statement, respectively.

The accounting rules for fair value measurements and disclosures require consideration of the impact of nonperformance risk (including credit risk) from a market participant perspective in the measurement of the fair value of assets and liabilities. At June 30, 2012, the Companies determined that nonperformance risk would have no material impact on their financial position or results of operations. To assess nonperformance risk, the Companies considered information such as collateral requirements, master netting arrangements, letters of credit and parent company guarantees, and applied a market-based method by using the counterparty (for an asset) or the Companies' (for a liability) credit default swaps rates.

Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations

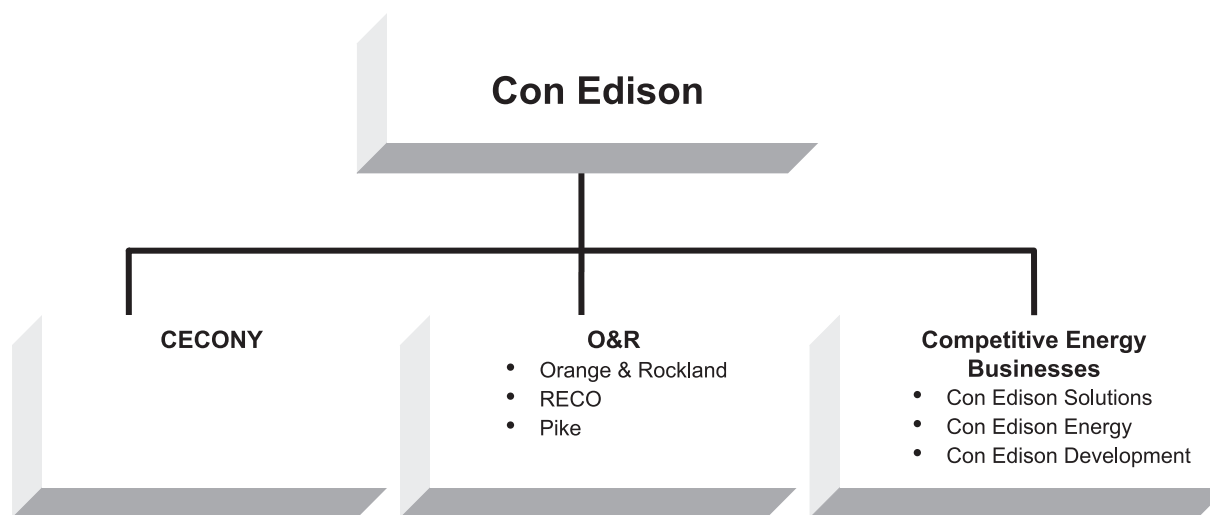

This combined management's discussion and analysis of financial condition and results of operations (MD&A) relates to the consolidated financial statements (the Second Quarter Financial Statements) included in this report of two separate registrants: Consolidated Edison, Inc. (Con Edison) and Consolidated Edison Company of New York, Inc. (CECONY). This MD&A should be read in conjunction with the financial statements and the notes thereto. As used in this report, the term the "Companies" refers to Con Edison and CECONY. CECONY is a subsidiary of Con Edison and, as such, information in this management's discussion and analysis about CECONY applies to Con Edison.

This MD&A should be read in conjunction with the Second Quarter Financial Statements and the notes thereto and the MD&A in Item 7 of the Companies' combined Annual Report on Form 10-K for the year

ended December 31, 2011 (File Nos. 1-14514 and 1-1217, the Form 10-K) and the MD&A in Part 1, Item 2 of the Companies' combined Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2012 (File Nos. 1-14514 and 1-1217).

Information in any item of this report referred to in this discussion and analysis is incorporated by reference herein. The use of terms such as "see" or "refer to" shall be deemed to incorporate by reference into this discussion and analysis the information to which reference is made.

Con Edison, incorporated in New York State in 1997, is a holding company which owns all of the outstanding common stock of CECONY, Orange and Rockland Utilities, Inc. (O&R) and the competitive energy businesses. As used in this report, the term the "Utilities" refers to CECONY and O&R.

CECONY's principal business operations are its regulated electric, gas and steam delivery businesses. O&R's principal business operations are its regulated electric and gas delivery businesses. The competitive energy businesses sell electricity to retail and wholesale customers, provide certain energy-related services, and participate in energy infrastructure projects. Con Edison is evaluating additional opportunities to invest in electric and gas-related businesses.

Con Edison's strategy is to provide reliable energy services, maintain public and employee safety, promote energy efficiency, and develop cost-effective ways of performing its business. Con Edison seeks to be a responsible steward of the environment and enhance its relationships with customers, regulators and members of the communities it serves.

CECONY

Electric

CECONY provides electric service to approximately 3.3 million customers in all of New York City (except part of Queens) and most of Westchester County, an approximately 660 square mile service area with a population of more than nine million.

Gas

CECONY delivers gas to approximately 1.1 million customers in Manhattan, the Bronx and parts of Queens and Westchester County.

In June 2012, the company increased its forecast of average annual growth of the peak gas demand in its service area over the next five years at design conditions from approximately 3.5 percent to 4.3 percent, reflecting, among other things, oil to gas conversions anticipated to result from changes to New York City regulations that will phase out the use of certain types of heating oil and the relative prices of oil and natural gas.

Steam

CECONY operates the largest steam distribution system in the United States by producing and delivering more than 22,000 MMBtu of steam annually to approximately 1,735 customers in parts of Manhattan.

Collective Bargaining Agreement

In July 2012, CECONY reached a four-year collective bargaining agreement covering approximately 8,000 employees (which is subject to ratification by the employees) ending a 26-day work stoppage involving those employees. During the work stoppage, the

company operated its electric, gas and steam businesses with approximately 5,500 employees and additional resources.

O&R

Electric

O&R and its utility subsidiaries, Rockland Electric Company (RECO) and Pike County Light & Power Company (Pike) (together referred to herein as O&R) provide electric service to approximately 0.3 million customers in southeastern New York and in adjacent areas of northern New Jersey and northeastern Pennsylvania, an approximately 1,350 square mile service area.

Gas

O&R delivers gas to over 0.1 million customers in southeastern New York and adjacent areas of northeastern Pennsylvania.

Competitive Energy Businesses

Con Edison pursues competitive energy opportunities through three wholly-owned subsidiaries: Con Edison Solutions, Con Edison Energy and Con Edison Development. These businesses include the sales and related hedging of electricity to retail and wholesale customers, sales of certain energy-related products and services, and participation in energy infrastructure projects. At June 30, 2012, Con Edison's equity investment in its competitive energy businesses was \$385 million and their assets amounted to \$857 million. For information about the July 2012 purchase of a solar energy company, see "Liquidity and Capital Resources – Capital Requirements and Resources," below.

Certain financial data of Con Edison's businesses is presented below:

(Millions of Dollars, except percentages)	Three Months Ended June 30, 2012				Six Months Ended June 30, 2012				At June 30, 2012	
	Operating Revenues		Net Income for Common Stock		Operating Revenues		Net Income for Common Stock		Assets	
CECONY	\$2,309	83%	\$163	76%	\$4,870	83%	\$436	89%	\$36,109	90%
O&R	164	6%	11	5%	374	6%	30	6%	2,444	6%
Total Utilities	2,473	89%	174	81%	5,244	89%	466	95%	38,553	96%

Other (b)	(4)	—%	(5)	(2)%	(10)	—%	(9)	(2)%	584	2%
Total Con Edison	\$2,771	100%	\$214	100%	\$5,849	100%	\$491	100%	\$40,049	100%

(a) Net income from the competitive energy businesses for the three and six months ended June 30, 2012 includes \$36 million and \$18 million, respectively, of net after-tax mark-to-market gains/(losses) (Con Edison Solutions, \$37 million and \$20 million and Con Edison Energy, \$(1) million and \$(2) million).

(b) Represents inter-company and parent company accounting. See "Results of Operations," below.

Con Edison's net income for common stock for the three months ended June 30, 2012 was \$214 million or \$0.73 a share (\$0.73 on a diluted basis) compared with \$165 million or \$0.57 a share (\$0.56 on a diluted basis) for the three months ended June 30, 2011. Net income for common stock for the six months ended June 30, 2012 was \$491 million or \$1.68 a share (\$1.67 on a

diluted basis) compared with earnings of \$477 million or \$1.63 a share (\$1.62 on a diluted basis) for the six months ended June 30, 2011. See "Results of Operations – Summary," below. For segment financial information, see Note I to the Second Quarter Financial Statements and "Results of Operations," below.

Results of Operations — Summary

Net income for common stock for the three and six months ended June 30, 2012 and 2011 was as follows:

<i>(millions of dollars)</i>	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
CECONY	\$163	\$157	\$436	\$426
O&R	11	4	30	23
Competitive energy businesses (a)	45	9	34	36
Other (b)	(5)	(5)	(9)	(8)
Con Edison	\$214	\$165	\$491	\$477

(a) Includes \$36 million and \$(1) million of net after-tax mark-to-market gains/(losses) for the three months ended June 30, 2012 and 2011, respectively.

Includes \$18 million and \$21 million of net after-tax mark-to-market gains for the six months ended June 30, 2012 and 2011, respectively.

(b) Consists of inter-company and parent company accounting.

The Companies' results of operations for the three and six months ended June 30, 2012, as compared with the 2011 periods, reflect changes in the Utilities' rate plans and the effects of the milder winter weather on steam revenues. These rate plans provide for additional revenues to cover expected increases in certain operations and maintenance expenses, and depreciation. The results of operations include the operating results of the competitive energy businesses, including net mark-to-market effects.

Operations and maintenance expenses were higher in the 2012 periods due to pension costs and the support and maintenance of company underground facilities to accommodate municipal projects and, in the six month period were offset in part, by lower operating costs attributable to the milder winter. Depreciation was higher in the 2012 period reflecting the impact from higher utility plant balances.

The following table presents the estimated effect on earnings per share and net income for common stock for the three and six months ended 2012 as compared with the 2011 period, resulting from these and other major factors:

	Three Months Variation		Six Months Variation	
	Earnings per Share	Net Income (millions of dollars)	Earnings per Share	Net Income (millions of dollars)
CECONY				
Rate plans, primarily to recover increases in certain costs	\$ 0.21	\$ 62	\$ 0.41	\$120
Weather impact on steam revenues	(0.02)	(6)	(0.10)	(28)
Operations and maintenance expenses	(0.14)	(41)	(0.24)	(70)
Depreciation	(0.03)	(10)	(0.06)	(18)
Other	—	1	0.02	6
Total CECONY	0.02	6	0.03	10
O&R	0.02	7	0.02	7
Competitive energy businesses (a)	0.12	36	—	(2)
Other, including parent company expenses	—	—	—	(1)
Total variations	\$ 0.16	\$ 49	\$ 0.05	\$ 14

(a) These variations reflect after-tax net mark-to-market gains/(losses) of \$36 million or \$0.12 a share and \$(1) million for the three months ended June 30, 2012 and 2011, respectively, and after-tax net mark-to-market gains of \$18 million or \$0.06 a share and \$21 million or \$0.07 a share for the six months ended June 30, 2012 and 2011, respectively.

See "Results of Operations" below for further discussion and analysis of results of operations.

Liquidity and Capital Resources

The Companies' liquidity reflects cash flows from operating, investing and financing activities, as shown on their respective consolidated statement of cash flows and as discussed below. Changes in the Companies' cash and temporary cash investments resulting from operating, investing and financing activities for the six months ended June 30, 2012 and 2011 are summarized as follows:

Con Edison

<i>(millions of dollars)</i>	Con Edison			CECONY		
	2012	2011	Variance	2012	2011	Variance
Operating activities	\$ 1,247	\$ 1,589	\$(342)	\$ 1,105	\$1,425	\$(320)
Investing activities	(1,105)	(1,129)	24	(1,057)	(983)	(74)
Financing activities	591	(306)	897	613	(346)	959
Net change	733	154	579	661	96	565
Balance at beginning of period	648	338	310	372	78	294
Balance at end of period	\$ 1,381	\$ 492	\$ 889	\$ 1,033	\$ 174	\$ 859

Cash Flows from Operating Activities

The Utilities' cash flows from operating activities reflect principally their energy sales and deliveries and cost of operations. The volume of energy sales and deliveries is dependent primarily on factors external to the Utilities, such as growth of customer demand, weather, market prices for energy, economic conditions and measures that promote energy efficiency. Under the revenue decoupling mechanisms in CECONY's electric and gas rate plans and O&R's New York electric and gas rate plans, changes in delivery volumes from levels assumed when rates were approved may affect the timing of cash flows but not net income. The prices at which the Utilities provide energy to their customers are determined in accordance with their rate agreements. In general, changes in the Utilities' cost of purchased power, fuel and gas may affect the timing of cash flows but not net income because the costs are recovered in accordance with rate agreements.

Net income is the result of cash and non-cash (or accrual) transactions. Only cash transactions affect the Companies' cash flows from operating activities. Principal non-cash charges include depreciation and deferred income tax expense. Principal non-cash credits include amortizations of certain net regulatory liabilities. Non-cash charges or credits may also be accrued under the revenue decoupling and cost reconciliation mechanisms in the Utilities' electric and gas rate plans in New York.

Net cash flows from operating activities for the six months ended June 30, 2012 for Con Edison and

CECONY were \$342 million and \$320 million lower, respectively, compared with the 2011 period. The Companies' cash flows from operating activities reflect the timing of the deduction for income tax purposes of their construction expenditures. The decrease in net cash flows reflect primarily the higher estimated income tax payments, net of refunds received, in 2012 (\$200 million for Con Edison and \$173 million for CECONY) and higher cash collateral paid to brokers and counterparties in the 2012 period (\$69 million for Con Edison and \$53 million for CECONY).

The change in net cash flows also reflects the timing of payments for and recovery of energy costs. This timing is reflected within changes to accounts receivable – customers, recoverable energy costs and accounts payable balances.

The changes in regulatory assets principally reflect changes in deferred pension costs in accordance with the accounting rules for retirement benefits. See Note B to the Second Quarter Financial Statements.

Cash Flows Used in Investing Activities

Net cash flows used in investing activities for Con Edison and CECONY were \$24 million lower and \$74 million higher, respectively, for the six months ended June 30, 2012 compared with the 2011 period. The changes for Con Edison and CECONY reflect increased utility construction expenditures in 2012. In addition, for Con Edison, the change reflects the return

of investment resulting from the receipt of government grant proceeds at the Pilesgrove solar project, proceeds from investment tax credits and grants related to other renewable investments and lower non-utility construction expenditures.

Cash Flows from Financing Activities

Net cash flows from financing activities for Con Edison and CECONY were \$897 million and \$959 million

Cash flows from financing activities of the Companies also reflect commercial paper issuances (included on the consolidated balance sheets as “Notes payable”). The commercial paper amounts outstanding at June 30, 2012 and 2011 and the average daily balances for the six months ended June 30, 2012 and 2011 for Con Edison and CECONY were as follows:

	2012		2011	
	Outstanding at June 30	Daily average	Outstanding at June 30	Daily average
<i>(millions of dollars, except Weighted Average Yield)</i>				
Con Edison	\$800	\$19	\$—	\$110
CECONY	\$800	\$19	\$—	\$110
Weighted average yield	0.4%	0.3%	—%	0.3%

Other Changes in Assets and Liabilities

The following table shows changes in certain assets and liabilities at June 30, 2012, compared with December 31, 2011.

<i>(millions of dollars)</i>	Con Edison	CECONY
	2012 vs. 2011 Variance	2012 vs. 2011 Variance
Assets		
Cash and temporary cash investments	\$733	\$661
Regulatory asset – Unrecognized pension and other postretirement costs	(445)	(395)
Liabilities		
Notes payable	\$800	\$800
Pension and retiree benefits	(450)	(420)
Deferred income taxes and investment tax credits	180	160

Cash and Temporary Cash Investments and Notes Payable

The increases in cash and temporary cash investments and notes payable reflect commercial paper issuances by CECONY in June 2012 in advance of its July 2012 semi-annual payment of New York City property taxes (\$603 million) and the July 2012 maturity of its 5.625 percent 10-year debentures (\$300 million).

Regulatory Asset for Unrecognized Pension and Other Postretirement Costs and Noncurrent Liability for Pension and Retiree Benefits

The decrease in the regulatory asset for unrecognized pension and other postretirement costs and the

higher, respectively, in the six months ended June 30, 2012 compared with the 2011 period.

In March 2012, CECONY issued \$400 million of 4.20 percent 30-year debentures, \$239 million of the net proceeds from the sale of which were used to redeem on May 1, 2012 all outstanding shares of its \$5 Cumulative Preferred Stock and Cumulative Preferred Stock (\$100 par value). The Companies had no issuances of long-term debt in 2011.

noncurrent liability for pension and retiree benefits reflects the final actuarial valuation of the pension and other retiree benefit plans as measured at December 31, 2011 in accordance with the accounting rules for retirement benefits. The change in the regulatory asset also reflects the year’s amortization of accounting costs. The decrease in the noncurrent liability for pension and retiree benefits reflects in part contributions to the plans made by the Utilities in 2012. See Notes B, E and F to the Second Quarter Financial Statements.

Deferred Income Taxes and Investment Tax Credits

The increase in the liability for deferred income taxes and investment tax credits reflects the timing of the deduction of expenditures for utility plant which resulted in amounts being collected from customers to pay income taxes in advance of when the income tax payments will be required. See “Cash Flows from Operating Activities,” above.

Capital Requirements and Resources

As of June 30, 2012, there was no material change in the Companies’ capital requirements, contractual obligations and capital resources compared to those disclosed under “Capital Requirements and Resources” in Item 1 of the Form 10-K other than as described below and in Note C to the Second Quarter Financial Statements.

For each of the Companies, the ratio of earnings to fixed charges (Securities and Exchange Commission basis) for the six months ended June 30, 2012 and 2011 and the twelve months ended December 31, 2011 was:

	Ratio of Earnings to Fixed Charges		
	For the Six Months Ended June 30, 2012	For the Twelve Months Ended December 31, 2011	For the Six Months Ended June 30, 2011
Con Edison	3.3	3.6	3.2
CECONY	3.3	3.8	3.3

For each of the Companies, the common equity ratio at June 30, 2012 and December 31, 2011 was:

	Common Equity Ratio (Percent of total capitalization)	
	June 30, 2012	December 31, 2011
Con Edison	54.1	52.5
CECONY	53.6	52.0

Regulatory Matters

CECONY’s current electric rate plan covers the three-year period ending March 31, 2013. Either the company or the New York State Public Service Commission (NYSPSC) can initiate a proceeding for a new rate plan. A new rate plan filed by the company would take effect automatically in approximately 11 months unless prior to such time the NYSPSC adopts a rate plan. CECONY understands that the base rates determined pursuant to the current rate plan and the other provisions of the current rate plan would continue in effect after March 31, 2013 until a new rate

In July 2012, Con Edison Development purchased a company that is developing 70 MW of solar energy projects in Alpaugh, California. Electricity generated by the projects is to be purchased by Pacific Gas and Electric Company pursuant to long-term power purchase agreements. Con Edison has increased its estimate of capital expenditures in 2012 by its competitive energy businesses from \$119 million to approximately \$450 million to reflect the costs to purchase the solar energy company and complete the projects. The acquisition of the solar energy company was funded at the closing with available cash balances and commercial paper issuances. Con Edison is evaluating long-term financing for the projects. Con Edison expects to receive investment tax credits or grants for the projects.

plan is effective. The company is preparing to file a new rate plan with the NYSPSC in November 2012. A new rate plan is expected to be effective in October 2013.

CECONY’s current gas and steam rate agreements cover the three-year period ending September 30, 2013. The company is preparing to file new gas and steam rate plans with the NYSPSC in November 2012. New gas and steam rate plans, are expected to be effective in October 2013.

For information about a March 2012 NYSPSC order relating to a surcharge that CECONY was to have collected from customers and O&R’s February 2012 Joint Proposal (which was adopted by the NYSPSC in June 2012) with respect to its rates for electric service rendered in New York, see Note B to the Second Quarter Financial Statements.

Financial and Commodity Market Risks

The Companies are subject to various risks and uncertainties associated with financial and commodity markets. The most significant market risks include interest rate risk, commodity price risk, credit risk and investment risk.

Interest Rate Risk

The interest rate risk relates primarily to variable rate debt and to new debt financing needed to fund capital requirements, including the construction expenditures of the Utilities and maturing debt securities. Con Edison and its businesses manage interest rate risk through the issuance of mostly fixed-rate debt with varying maturities and through opportunistic refinancing of debt. Con Edison and CECONY estimate that at June 30, 2012, a 10 percent variation in interest rates applicable to its variable rate debt would not result in a material change in annual interest expense. Under CECONY's current gas, steam and electric rate plans, variations in actual long-term debt interest rates are reconciled to levels reflected in rates. Under O&R's current New York rate plans, variations in actual tax-exempt (and under the gas rate plan, taxable) long-term debt interest expense are reconciled to the level set in rates.

In addition, from time to time, Con Edison and its businesses enter into derivative financial instruments to hedge interest rate risk on certain debt securities. See "Interest Rate Swaps" in Note J to the Second Quarter Financial Statements.

Commodity Price Risk

Con Edison's commodity price risk relates primarily to the purchase and sale of electricity, gas and related derivative instruments. The Utilities and Con Edison's competitive energy businesses apply risk management strategies to mitigate their related exposures. See Note J to the Second Quarter Financial Statements.

Con Edison estimates that, as of June 30, 2012, a 10 percent decline in market prices would result in a decline in fair value of \$57 million for the derivative instruments used by the Utilities to hedge purchases of electricity and gas, of which \$46 million is for CECONY and \$11 million is for O&R. Con Edison

expects that any such change in fair value would be largely offset by directionally opposite changes in the cost of the electricity and gas purchased. In accordance with provisions approved by state regulators, the Utilities generally recover from customers the costs they incur for energy purchased for their customers, including gains and losses on certain derivative instruments used to hedge energy purchased and related costs.

Con Edison's competitive energy businesses use a value-at-risk (VaR) model to assess the market risk of their electricity and gas commodity fixed-price purchase and sales commitments, physical forward contracts and commodity derivative instruments. VaR represents the potential change in fair value of instruments or the portfolio due to changes in market factors, for a specified time period and confidence level. These businesses estimate VaR across their electricity and natural gas commodity businesses using a delta-normal variance/covariance model with a 95 percent confidence level. Since the VaR calculation involves complex methodologies and estimates and assumptions that are based on past experience, it is not necessarily indicative of future results. VaR for transactions associated with hedges on generating assets and commodity contracts, assuming a one-day holding period, for the six months ended June 30, 2012 and the year ended December 31, 2011, respectively, was as follows:

95% Confidence Level, One-Day Holding Period	June 30, 2012	December 31, 2011
	<i>(millions of dollars)</i>	
Average for the period	\$ 1	\$ 1
High	1	1
Low	—	—

Credit Risk

The Companies are exposed to credit risk related to transactions entered into primarily for the various energy supply and hedging activities by the Utilities and the competitive energy businesses. Credit risk relates to the loss that may result from a counterparty's nonperformance. The Companies use credit policies to manage this risk, including an established credit approval process, monitoring of counterparty limits,

netting provisions within agreements and collateral or prepayment arrangements, credit insurance and credit default swaps. The Companies measure credit risk exposure as the replacement cost for open energy commodity and derivative positions plus amounts owed from counterparties for settled transactions. The replacement cost of open positions represents unrealized gains, net of any unrealized losses where the Companies have a legally enforceable right of setoff. See “Credit Exposure” in Note J to the Second Quarter Financial Statements.

Investment Risk

The Companies’ investment risk relates to the investment of plan assets for their pension and other postretirement benefit plans. The Companies’ current investment policy for pension plan assets includes investment targets of 60 percent equities and 40 percent fixed income and other securities. At June 30, 2012, the pension plan investments consisted of 62 percent equity and 38 percent fixed income and other securities.

Material Contingencies

For information concerning potential liabilities arising from the Companies’ material contingencies, see Notes B, G, and H to the Second Quarter Financial Statements.

Results of Operations

See “Results of Operations – Summary,” above.

Results of operations reflect, among other things, the Companies’ accounting policies and rate plans that limit the rates the Utilities can charge their customers. Under the revenue decoupling mechanisms currently

applicable to CECONY’s electric and gas businesses and O&R’s electric and gas businesses in New York, the Utilities’ delivery revenues generally will not be affected by changes in delivery volumes from levels assumed when rates were approved. Delivery revenues for CECONY’s steam business and O&R’s businesses in New Jersey and Pennsylvania are affected by changes in delivery volumes resulting from weather, economic conditions and other factors. See Note B to the Second Quarter Financial Statements.

In general, the Utilities recover on a current basis the fuel, gas purchased for resale and purchased power costs they incur in supplying energy to their full-service customers. Accordingly, such costs do not generally affect the Companies’ results of operations. Management uses the term “net revenues” (operating revenues less such costs) to identify changes in operating revenues that may affect the Companies’ results of operations. Management believes that, although “net revenues” may not be a measure determined in accordance with accounting principles generally accepted in the United States of America, the measure facilitates the analysis by management and investors of the Companies’ results of operations.

Con Edison’s principal business segments are CECONY’s regulated utility activities, O&R’s regulated utility activities and Con Edison’s competitive energy businesses. CECONY’s principal business segments are its regulated electric, gas and steam utility activities. A discussion of the results of operations by principal business segment for the three and six months ended June 30, 2012 and 2011 follows. For additional business segment financial information, see Note I to the Second Quarter Financial Statements.

Three Months Ended June 30, 2012 Compared with Three Months Ended June 30, 2011

The Companies' results of operations (which were discussed above under "Results of Operations – Summary") in 2012 compared with 2011 were:

<i>(millions of dollars)</i>	CECONY		O&R		Competitive Energy Businesses and Other (a)		Con Edison (b)

Electric

CECONY's results of electric operations for the three months ended June 30, 2012 compared with the 2011 period is as follows:

<i>(millions of dollars)</i>	Three Months Ended		
	June 30, 2012	June 30, 2011	Variation
Operating revenues	\$1,961	\$2,013	\$ (52)
Purchased power	498	609	(111)
Fuel	29	40	(11)
Net revenues	1,434	1,364	70
Operations and maintenance	573	504	69
Depreciation and amortization	175	162	13
Taxes, other than income taxes	338	348	(10)
Electric operating income	\$ 348	\$ 350	\$ (2)

CECONY's electric sales and deliveries, excluding off-system sales, for the three months ended June 30, 2012 compared with the 2011 period were:

Description	Millions of kWhs Delivered				Revenues in Millions			
	Three Months Ended				Three Months Ended			
	June 30, 2012	June 30, 2011	Variation	Percent Variation	June 30, 2012	June 30, 2011	Variation	Percent Variation
Residential/Religious (a)	2,248	2,462	(214)	(8.7)%	\$ 600	\$ 652	\$(52)	(8.0)%
Commercial/Industrial	2,269	2,614	(345)	(13.2)	470	556	(86)	(15.5)
Retail access customers	5,991	5,630	361	6.4	632	554	78	14.1
NYPA, Municipal Agency and other sales	2,585	2,530	55	2.2	151	140	11	7.9
Other operating revenues	—	—	—	—	108	111	(3)	(2.7)
Total	13,093	13,236	(143)	(1.1)%	\$1,961	\$2,013	\$(52)	(2.6)%

(a) "Residential/Religious" generally includes single-family dwellings, individual apartments in multi-family dwellings, religious organizations and certain other not-for-profit organizations.

CECONY's electric operating revenues decreased \$52 million in the three months ended June 30, 2012 compared with the 2011 period due primarily to lower purchased power (\$111 million) and fuel costs (\$11 million), offset in part by higher revenues from the electric rate plan (\$85 million). CECONY's revenues from electric sales are subject to a revenue decoupling mechanism, as a result of which delivery revenues generally are not affected by changes in delivery volumes from levels assumed when rates were approved. Other electric operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the revenue decoupling mechanism and other provisions of the company's rate plan.

Electric delivery volumes in CECONY's service area decreased 1.1 percent in the three months ended June 30, 2012 compared with the 2011 period. After

adjusting for variations, principally weather and billing days, electric delivery volumes in CECONY's service area decreased 0.1 percent in the three months ended June 30, 2012 compared with the 2011 period reflecting lower average use per customer.

CECONY's electric purchased power costs decreased \$111 million in the three months ended June 30, 2012 compared with the 2011 period due to a decrease in purchased volumes (\$85 million) and unit costs (\$26 million). Electric fuel costs decreased \$11 million in the three months ended June 30, 2012 compared with the 2011 period due to lower unit costs (\$13 million), offset by higher sendout volumes from the company's electric generating facilities (\$2 million).

CECONY's electric operating income decreased \$2 million in the three months ended June 30, 2012 compared with the 2011 period. The decrease reflects

primarily higher operations and maintenance costs (\$69 million) and higher depreciation and amortization (\$13 million) offset by higher net revenues (\$70 million, due primarily to the electric rate plan) and lower taxes, other than income taxes (\$10 million, principally property taxes). The increase in operations and maintenance costs of \$69 million is due primarily to higher pension expense (\$40 million), an increase in the collection of surcharges from customers (\$7 million) and higher support and maintenance of company underground facilities to accommodate municipal projects (\$4 million). See “Regulatory Assets and Liabilities” in Note B to the Second Quarter Financial Statements.

Gas

CECONY’s results of gas operations for the three months ended June 30, 2012 compared with the 2011 period is as follows:

<i>(millions of dollars)</i>	Three Months Ended		
	June 30, 2012	June 30, 2011	Variation
Operating revenues	\$265	\$296	\$(31)
Gas purchased for resale	50	92	(42)
Net revenues	215	204	11
Operations and maintenance	79	90	(11)
Depreciation and amortization	30	27	3
Taxes, other than income taxes	52	56	(4)
Gas operating income	\$ 54	\$ 31	\$ 23

CECONY’s gas sales and deliveries, excluding off-system sales, for the three months ended June 30, 2012 compared with the 2011 period were:

Description	Thousands of dths Delivered				Revenues in Millions			
	Three Months Ended				Three Months Ended			
	June 30, 2012	June 30, 2011	Variation	Percent Variation	June 30, 2012	June 30, 2011	Variation	Percent Variation
Residential	5,760	7,373	(1,613)	(21.9)%	\$115	\$145	\$(30)	(20.7)%
General	4,694	5,175	(481)	(9.3)	52	72	(20)	(27.8)
Firm transportation	10,127	11,273	(1,146)	(10.2)	77	74	3	4.1
Total firm sales and transportation	20,581	23,821	(3,240)	(13.6)	244	291	(47)	(16.2)
Interruptible sales (a)	1,168	2,697	(1,529)	(56.7)	6	22	(16)	(72.7)
NYP&A	11,020	5,315	5,705	Large	1	1	—	—
Generation plants	19,217	21,847	(2,630)	(12.0)	7	9	(2)	(22.2)
Other	4,858	5,132	(274)	(5.3)	9	11	(2)	(18.2)
Other operating revenues	—	—	—	—	(2)	(38)	36	94.7
Total	56,844	58,812	(1,968)	(3.3)%	\$ 265	\$ 296	\$(31)	(10.5)%

(a) Includes 10 mdths and 1,126 mdths for the three months ended June 30, 2012 and 2011, respectively, which are also reflected in firm transportation and other.

CECONY’s gas operating revenues decreased \$31 million in the three months ended June 30, 2012 compared with the 2011 period due primarily to a decrease in gas purchased for resale costs (\$42 million). CECONY’s revenues from gas sales are subject to a weather normalization clause and a revenue decoupling mechanism as a result of which delivery revenues are generally not affected by changes in delivery volumes from levels assumed when rates were approved. Other gas operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the company’s rate plan.

CECONY’s sales and transportation volumes for firm customers decreased 13.6 percent in the three months ended June 30, 2012 compared with the 2011 period. After adjusting for variations, principally weather and billing days, firm gas sales and transportation volumes in the company’s service area increased 0.7 percent in the three months ended June 30, 2012.

CECONY’s purchased gas cost decreased \$42 million in the three months ended June 30, 2012 compared with the 2011 period due to lower unit costs (\$48 million), offset by higher sendout volumes (\$6 million).

CECONY's gas operating income increased \$23 million in the three months ended June 30, 2012 compared with the 2011 period. The increase reflects primarily higher net revenues (\$11 million), lower operations and maintenance costs (\$11 million, due primarily to a decrease in the collection of surcharges from customers (\$7 million)) and lower taxes, other than income taxes (\$4 million, principally property taxes and local revenue taxes), offset by higher depreciation (\$3 million).

Steam

CECONY's results of steam operations for the three months ended June 30, 2012 compared with the 2011 period is as follows:

<i>(millions of dollars)</i>	Three Months Ended		
	June 30, 2012	June 30, 2011	Variation
Operating revenues	\$ 83	\$107	\$(24)
Purchased power	6	12	(6)
Fuel	17	28	(11)
Net revenues	60	67	(7)
Operations and maintenance	41	37	4
Depreciation and amortization	16	16	—
Taxes, other than income taxes	25	25	—
Steam operating income	\$(22)	\$(11)	\$(11)

CECONY's steam sales and deliveries for the three months ended June 30, 2012 compared with the 2011 period were:

Description	Millions of Pounds Delivered				Revenues in Millions			
	Three Months Ended				Three Months Ended			
	June 30, 2012	June 30, 2011	Variation	Percent Variation	June 30, 2012	June 30, 2011	Variation	Percent Variation
General	48	73	(25)	(34.2)%	\$ 3	\$ 4	\$(1)	(25.0)%
Apartment house	970	1,124	(154)	(13.7)	24	30	(6)	(20.0)
Annual power	2,578	3,059	(481)	(15.7)	63	81	(18)	(22.2)
Other operating revenues	—	—	—	—	(7)	(8)	1	12.5
Total	3,596	4,256	(660)	(15.5)%	\$83	\$107	\$(24)	(22.4)%

CECONY's steam operating revenues decreased \$24 million in the three months ended June 30, 2012 compared with the 2011 period due primarily to lower fuel costs (\$11 million), the impact of milder weather (\$11 million) and lower purchased power costs (\$6 million), offset by the net change in rates under the steam rate plan (\$5 million). Other steam operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the company's rate plan.

Steam sales and delivery volumes decreased 15.5 percent in the three months ended June 30, 2012 compared with the 2011 period reflecting milder weather. After adjusting for variations, principally weather and billing days, steam sales and deliveries decreased 2.4 percent in the three months ended

June 30, 2012, reflecting lower average normalized use per customer.

CECONY's steam fuel costs decreased \$11 million in the three months ended June 30, 2012 compared with the 2011 period due to lower unit costs (\$10 million) and sendout volumes (\$1 million). Steam purchased power costs decreased \$6 million in the three months ended June 30, 2012 compared with the 2011 period due to a decrease in unit costs (\$6 million).

Steam operating income decreased \$11 million in the three months ended June 30, 2012 compared with the 2011 period. The decrease reflects primarily lower net revenues (\$7 million) and higher operations and maintenance costs (\$4 million, due primarily to higher pension expense (\$7 million)).

Net Interest Expense

Net interest expense increased \$4 million in the three months ended June 30, 2012 compared with the 2011 period due primarily to the issuance by CECONY in March 2012 of \$400 million of 4.20 percent 30-year debentures.

O&R

	Three Months Ended June 30, 2012			Three Months Ended June 30, 2011			2012-2011 Variation
	Electric	Gas	2012 Total	Electric	Gas	2011 Total	
<i>(millions of dollars)</i>							
Operating revenues	\$129	\$35	\$164	\$141	\$37	\$178	\$(14)
Purchased power	40	—	40	56	—	56	(16)
Gas purchased for resale	—	11	11	—	13	13	(2)
Net revenues	89	24	113	85	24	109	4
Operations and maintenance	53	16	69	54	16	70	(1)
Depreciation and amortization	9	4	13	8	4	12	1
Taxes, other than income taxes	11	3	14	9	3	12	2
Operating income	\$ 16	\$ 1	\$ 17	\$ 14	\$ 1	\$ 15	\$ 2

Electric

O&R's results of electric operations for the three months ended June 30, 2012 compared with the 2011 period is as follows:

	Three Months Ended		
	June 30, 2012	June 30, 2011	Variation
<i>(millions of dollars)</i>			
Operating revenues	\$129	\$141	\$(12)
Purchased power	40	56	(16)
Net revenues	89	85	4
Operations and maintenance	53	54	(1)
Depreciation and amortization	9	8	1
Taxes, other than income taxes	11	9	2
Electric operating income	\$ 16	\$ 14	\$ 2

O&R's electric sales and deliveries, excluding off-system sales, for the three months ended June 30, 2012 compared with the 2011 period were:

Description	Millions of kWhs Delivered				Revenues in Millions			
	Three Months Ended				Three Months Ended			
	June 30, 2012	June 30, 2011	Variation	Percent Variation	June 30, 2012	June 30, 2011	Variation	Percent Variation
Residential/Religious (a)	372	381	(9)	(2.4)%	\$ 55	\$ 66	\$(11)	(16.7)%
Commercial/Industrial	246	281	(35)	(12.5)	28	38	(10)	(26.3)
Retail access customers	741	664	77	11.6	42	36	6	16.7
Public authorities	29	26	3	11.5	2	2	—	—
Other operating revenues	—	—	—	—	2	(1)	3	Large
Total	1,388	1,352	36	2.7%	\$129	\$141	\$(12)	(8.5)%

(a) "Residential/Religious" generally includes single-family dwellings, individual apartments in multi-family dwellings, religious organizations and certain other not-for-profit organizations.

O&R's electric operating revenues decreased \$12 million in the three months ended June 30, 2012 compared with the 2011 period due primarily to lower purchased power costs (\$16 million), offset in part by

higher revenues from the New York rate plan (\$3 million). O&R's New York electric delivery revenues are subject to a revenue decoupling mechanism, as a result of which delivery revenues are generally not

affected by changes in delivery volumes from levels assumed when rates were approved. O&R's electric sales in New Jersey and Pennsylvania are not subject to a decoupling mechanism, and as a result, changes in such volumes do impact such revenues. Other electric operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the company's electric rate plan. See "Rate Agreements – O&R – Electric" in Note B to the Second Quarter Financial Statements.

Electric delivery volumes in O&R's service area increased 2.7 percent in the three months ended June 30, 2012 compared with the 2011 period. After

adjusting for weather and other variations, electric delivery volumes in O&R's service area increased 4.7 percent in the three months ended June 30, 2012 compared with the 2011 period.

Electric operating income increased \$2 million in the three months ended June 30, 2012 compared with the 2011 period. The increase reflects primarily higher net revenues (\$4 million) and lower operations and maintenance costs (\$1 million), offset by higher taxes, other than income taxes (\$2 million, principally property taxes) and depreciation and amortization (\$1 million).

Gas

O&R's results of gas operations for the three months ended June 30, 2012 compared with the 2011 period is as follows:

<i>(millions of dollars)</i>	Three Months Ended		
	June 30, 2012	June 30, 2011	Variation
Operating revenues	\$35	\$37	\$(2)
Gas purchased for resale	11	13	(2)
Net revenues	24	24	—
Operations and maintenance	16	16	—
Depreciation and amortization	4	4	—
Taxes, other than income taxes	3	3	—
Gas operating income	\$ 1	\$ 1	\$—

O&R's gas sales and deliveries, excluding off-system sales, for the three months ended June 30, 2012 compared with the 2011 period were:

Description	Thousands of dths Delivered				Revenues in Millions			
	Three Months Ended				Three Months Ended			
	June 30, 2012	June 30, 2011	Variation	Percent Variation	June 30, 2012	June 30, 2011	Variation	Percent Variation
Residential	822	965	(143)	(14.8)%	\$12	\$15	\$(3)	(20.0)%
General	162	191	(29)	(15.2)	2	3	(1)	(33.3)
Firm transportation	1,577	1,649	(72)	(4.4)	14	13	1	7.7
Total firm sales and transportation	2,561	2,805	(244)	(8.7)	28	31	(3)	(9.7)
Interruptible sales	944	991	(47)	(4.7)	1	1	—	—
Generation plants	—	652	(652)	Large	—	—	—	—
Other	101	136	(35)	(25.7)	—	—	—	—
Other gas revenues	—	—	—	—	6	5	1	20.0
Total	3,606	4,584	(978)	(21.3)%	\$35	\$37	\$(2)	(5.4)%

O&R's gas operating revenues decreased \$2 million in the three months ended June 30, 2012 compared with the 2011 period due primarily to the decrease in gas purchased for resale in 2012 (\$2 million). O&R's

New York revenues from gas are subject to a weather normalization clause and a revenue decoupling mechanism as a result of which delivery revenues are generally not affected by changes in delivery volumes

from levels assumed when rates were approved.

Sales and transportation volumes for firm customers decreased 8.7 percent in the three months ended June 30, 2012 compared with the 2011 period. After adjusting for weather and other variations, total firm sales and transportation volumes decreased 0.8 percent in the three months ended June 30, 2012 compared

with the 2011 period. O&R's New York revenues from gas sales are subject to a weather normalization clause that moderates, but does not eliminate, the effect of weather-related changes on net income.

Gas operating income was the same in the three months ended June 30, 2012 compared with the 2011 period.

Competitive Energy Businesses

The competitive energy businesses' results of operations for the three months ended June 30, 2012 compared with the 2011 period is as follows:

<i>(millions of dollars)</i>	Three Months Ended		
	June 30, 2012	June 30, 2011	Variation
Operating revenues	\$300	\$406	\$(106)
Purchased power	186	348	(162)
Gas purchased for resale	1	5	(4)
Net revenues	113	53	60
Operations and maintenance	29	32	(3)
Depreciation and amortization	2	2	—
Taxes, other than income taxes	4	5	(1)
Operating income	\$ 78	\$ 14	\$ 64

The competitive energy businesses' operating revenues decreased \$106 million in the three months ended June 30, 2012 compared with the 2011 period, due primarily to lower electric retail and wholesale revenues. Electric wholesale revenues decreased \$37 million in the three months ended June 30, 2012 as compared with the 2011 period, due to lower sales volumes (\$30 million) and unit prices (\$7 million). Electric retail revenues decreased \$70 million, due to lower sales volume (\$42 million) and unit prices (\$28 million). Net mark-to-market values increased \$65 million in the three months ended June 30, 2012 as compared with the 2011 period, of which \$62 million in gains are reflected in purchased power costs and \$3 million in gains are reflected in revenues. Other revenues decreased \$2 million in the three months ended June 30, 2012 as compared with the 2011 period due primarily to lower energy services revenue.

Purchased power costs decreased \$162 million in the three months ended June 30, 2012 compared with the 2011 period, due primarily to lower volumes (\$61 million), lower unit prices (\$39 million) and changes in mark-to-market values (\$62 million). Operating income increased \$64 million in the three months ended June 30, 2012 compared with the 2011 period due primarily to net mark-to-market effects (\$65 million).

Other

For Con Edison, "Other" includes inter-company eliminations relating to operating revenues and operating expenses.

Six Months Ended June 30, 2012 Compared with Six Months Ended June 30, 2011

The Companies' results of operations (which were discussed above under "Results of Operations – Summary") in 2012 compared with 2011 were:

<i>(millions of dollars)</i>	CECONY		O&R		Competitive Energy Businesses and Other (a)		Con Edison (b)

Electric

CECONY's results of electric operations for the six months ended June 30, 2012 compared with the 2011 period is as follows:

<i>(millions of dollars)</i>	Six Months Ended		
	June 30, 2012	June 30, 2011	Variation
Operating revenues	\$3,696	\$3,734	\$ (38)
Purchased power	929	1,073	(144)
Fuel	80	116	(36)
Net revenues	2,687	2,545	142
Operations and maintenance	1,089	963	126
Depreciation and amortization	348	324	24
Taxes, other than income taxes	677	692	(15)
Electric operating income	\$ 573	\$ 566	\$ 7

CECONY's electric sales and deliveries, excluding off-system sales, for the six months ended June 30, 2012 compared with the 2011 period were:

Description	Millions of kWhs Delivered				Revenues in Millions			
	Six Months Ended				Six Months Ended			
	June 30, 2012	June 30, 2011	Variation	Percent Variation	June 30, 2012	June 30, 2011	Variation	Percent Variation
Residential/Religious (a)	4,658	5,126	(468)	(9.1)%	\$1,188	\$1,300	\$(112)	(8.6)%
Commercial/Industrial	4,653	5,474	(821)	(15.0)	910	1,118	(208)	(18.6)

Other operating revenues	—	—	—	—	99	32	67	Large
Total	26,481	27,092	(611)	(2.3)%	\$3,696	\$3,734	\$ (38)	(1.0)%

(a) "Residential/Religious" generally includes single-family dwellings, individual apartments in multi-family dwellings, religious organizations and certain other not-for-profit organizations.

CECONY's electric operating revenues decreased \$38 million in the six months ended June 30, 2012 compared with the 2011 period due primarily to lower purchased power (\$144 million) and fuel costs (\$36 million) offset in part by higher revenues from the electric rate plan (\$158 million). CECONY's revenues from electric sales are subject to a revenue decoupling mechanism, as a result of which delivery revenues generally are not affected by changes in delivery volumes from levels assumed when rates were approved. Other electric operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the revenue decoupling mechanism and other provisions of the company's rate plan.

Electric delivery volumes in CECONY's service area decreased 2.3 percent in the six months ended June 30, 2012 compared with the 2011 period. After adjusting for variations, principally weather and billing days,

electric delivery volumes in CECONY's service area decreased 0.4 percent in the six months ended June 30, 2012 compared with the 2011 period reflecting lower average use per customer.

CECONY's electric purchased power costs decreased \$144 million in the six months ended June 30, 2012 compared with the 2011 period due to a decrease in purchased volumes (\$136 million) and unit costs (\$8 million). Electric fuel costs decreased \$36 million in the six months ended June 30, 2012 compared with the 2011 period due to lower unit costs (\$35 million) and sendout volumes from the company's electric generating facilities (\$1 million).

CECONY's electric operating income increased \$7 million in the six months ended June 30, 2012 compared with the 2011 period. The increase reflects primarily higher net revenues (\$142 million, due primarily to the electric rate plan) and lower taxes,

other than income taxes (\$15 million, principally property taxes). The higher net revenues were offset by higher operations and maintenance costs (\$126 million, due primarily to higher pension expense (\$78 million), an increase in the collection of surcharges from customers (\$12 million) and higher support and maintenance of

company underground facilities to accommodate municipal projects (\$9 million)) and higher depreciation and amortization (\$24 million). See “Regulatory Assets and Liabilities” in Note B to the Second Quarter Financial Statements.

Gas

CECONY’s results of gas operations for the six months ended June 30, 2012 compared with the 2011 period is as follows:

	Six Months Ended		
	June 30, 2012	June 30, 2011	Variation
<i>(millions of dollars)</i>			
Operating revenues	\$828	\$959	\$(131)
Gas purchased for resale	219	355	(136)
Net revenues	609	604	5
Operations and maintenance	161	192	(31)
Depreciation and amortization	59	54	5
Taxes, other than income taxes	114	121	(7)
Gas operating income	\$275	\$237	\$ 38

CECONY’s gas sales and deliveries, excluding off-system sales, for the six months ended June 30, 2012 compared with the 2011 period were:

Description	Thousands of dths Delivered				Revenues in Millions			
	Six Months Ended				Six Months Ended

Other operating revenues	—	—	—	—	(16)	(60)	44	73.3
Total	137,833	144,369	(6,536)	(4.5)%	\$828	\$959	\$(131)	(13.7)%

(a) Includes 181 mdths and 2,075 mdths for the six months ended June 30, 2012 and 2011, respectively, which are also reflected in firm transportation and other.

CECONY’s gas operating revenues decreased \$131 million in the six months ended June 30, 2012 compared with the 2011 period due primarily to a decrease in gas purchased for resale costs (\$136 million). CECONY’s revenues from gas sales are subject to a weather normalization clause and a revenue decoupling mechanism as a result of which delivery revenues are generally not affected by changes in delivery volumes from levels assumed when rates were approved. Other gas operating revenues generally

reflect changes in regulatory assets and liabilities in accordance with the company’s rate plan.

CECONY’s sales and transportation volumes for firm customers decreased 14.8 percent in the six months ended June 30, 2012 compared with the 2011 period. After adjusting for variations, principally weather and billing days, firm gas sales and transportation volumes in the company’s service area increased 0.9 percent in the six months ended June 30, 2012.

CECONY's purchased gas cost decreased \$136 million in the six months ended June 30, 2012 compared with the 2011 period due to lower unit costs (\$89 million) and sendout volumes (\$47 million).

CECONY's gas operating income increased \$38 million in the six months ended June 30, 2012 compared with the 2011 period. The increase reflects

primarily lower operations and maintenance costs (\$31 million, due primarily to a decrease in the collection of surcharges from customers (\$20 million)), lower taxes, other than income taxes (\$7 million, principally property taxes and local revenue taxes) and higher net revenues (\$5 million), offset by higher depreciation (\$5 million).

Steam

CECONY's results of steam operations for the six months ended June 30, 2012 compared with the 2011 period is as follows:

<i>(millions of dollars)</i>	Six Months Ended		
	June 30, 2012	June 30, 2011	Variation
Operating revenues	\$346	\$432	\$(86)
Purchased power	21	31	(10)
Fuel	74	128	(54)
Net revenues	251	273	(22)
Operations and maintenance	89	72	17
Depreciation and amortization	32	32	—
Taxes, other than income taxes	53	55	(2)
Steam operating income	\$ 77	\$114	\$(37)

CECONY's steam sales and deliveries for the six months ended June 30, 2012 compared with the 2011 period were:

Description	Millions of Pounds Delivered				Revenues in Millions			
	Six Months Ended				Six Months Ended			
	June 30, 2012	June 30, 2011	Variation	Percent Variation	June 30, 2012	June 30, 2011	Variation	Percent Variation
General	293	408	(115)	(28.2)%	\$ 16	\$ 20	\$ (4)	(20.0)%
Apartment house	3,042	3,716	(674)	(18.1)	95	114	(19)	(16.7)
Annual power	7,513	9,600	(2,087)	(21.7)	256	315	(59)	(18.7)
Other operating revenues	—	—	—	—	(21)	(17)	(4)	(23.5)
Total	10,848	13,724	(2,876)	(21.0)%	\$346	\$432	\$(86)	(19.9)%

CECONY's steam operating revenues decreased \$86 million in the six months ended June 30, 2012 compared with the 2011 period due primarily to lower fuel costs (\$54 million), the impact of milder weather (\$47 million) and lower purchased power costs (\$10 million), offset by the net change in rates under the steam rate plan (\$27 million). Other steam operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the company's rate plan.

Steam sales and delivery volumes decreased 21.0 percent in the six months ended June 30, 2012 compared with the 2011 period reflecting milder

winter weather. After adjusting for variations, principally weather and billing days, steam sales and deliveries decreased 1.6 percent in the six months ended June 30, 2012, reflecting lower average normalized use per customer.

CECONY's steam fuel costs decreased \$54 million in the six months ended June 30, 2012 compared with the 2011 period due to lower unit costs (\$37 million) and sendout volumes (\$17 million). Steam purchased power costs decreased \$10 million in the six months ended June 30, 2012 compared with the 2011 period due to a decrease in unit costs (\$8 million) and purchased volumes (\$2 million).

Steam operating income decreased \$37 million in the six months ended June 30, 2012 compared with the 2011 period. The decrease reflects primarily lower net revenues (\$22 million) and higher operations and maintenance costs (\$17 million, due primarily to higher pension expense (\$23 million)), offset by lower taxes, other than income taxes (\$2 million, principally local revenue taxes).

Net Interest Expense

Net interest expense increased \$5 million in the six months ended June 30, 2012 compared with the 2011

period due primarily to the issuance by CECONY in March 2012 of \$400 million of 4.20 percent 30-year debentures.

Income Taxes

Income taxes decreased \$11 million in the six months ended June 30, 2012 compared with the 2011 period due primarily to higher deductions for injuries and damages payments in the 2012 period.

O&R

<i>(millions of dollars)</i>	Six Months Ended June 30, 2012			Six Months Ended June 30, 2011			2012-2011 Variation
	Electric	Gas	2012 Total	Electric	Gas	2011 Total	
Operating revenues	\$257	\$117	\$374	\$289	\$130	\$419	\$(45)
Purchased power	80	—	80	123	—	123	(43)
Gas purchased for resale	—	37	37	—	53	53	(16)
Net revenues	177	80	257	166	77	243	14
Operations and maintenance	112	34	146	107	34	141	5
Depreciation and amortization	19	7	26	17	7	24	2
Taxes, other than income taxes	22	8	30	17	8	25	5
Operating income	\$ 24	\$ 31	\$ 55	\$ 25	\$ 28	\$ 53	\$ 2

Electric

O&R's results of electric operations for the six months ended June 30, 2012 compared with the 2011 period is as follows:

<i>(millions of dollars)</i>	Six Months Ended		
	June 30, 2012	June 30, 2011	Variation
Operating revenues	\$257	\$289	\$(32)
Purchased power	80	123	(43)
Net revenues	177	166	11
Operations and maintenance	112	107	5
Depreciation and amortization	19	17	2
Taxes, other than income taxes	22	17	5
Electric operating income	\$ 24	\$ 25	\$(1)

O&R's electric sales and deliveries, excluding off-system sales, for the six months ended June 30, 2012 compared with the 2011 period were:

Description	Millions of kWhs Delivered				Revenues in Millions			
	Six Months Ended				Six Months Ended			
	June 30, 2012	June 30, 2011	Variation	Percent Variation	June 30, 2012	June 30, 2011	Variation	Percent Variation
Residential/Religious (a)	747	810	(63)	(7.8)%	\$113	\$140	\$(27)	(19.3)%
Commercial/Industrial	489	597	(108)	(18.1)	56	79	(23)	(29.1)
Retail access customers	1,430	1,290	140	10.9	79	68	11	16.2
Public authorities	57	50	7	14.0	4	5	(1)	(20.0)
Other operating revenues	—	—	—	—	5	(3)	8	Large
Total	2,723	2,747	(24)	(0.9)%	\$257	\$289	\$(32)	(11.1)%

(a) "Residential/Religious" generally includes single-family dwellings, individual apartments in multi-family dwellings, religious organizations and certain other not-for-profit organizations.

O&R's electric operating revenues decreased \$32 million in the six months ended June 30, 2012 compared with the 2011 period due primarily to lower purchased power costs (\$43 million), offset in part by higher revenues from the New York rate plan (\$5 million). O&R's New York electric delivery revenues are subject to a revenue decoupling mechanism, as a result of which delivery revenues are generally not affected by changes in delivery volumes from levels assumed when rates were approved. O&R's electric sales in New Jersey and Pennsylvania are not subject to a decoupling mechanism, and as a result, changes in such volumes do impact such revenues. Other electric operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the company's electric rate plan. See "Rate Agreements – O&R – Electric" in Note B to the Second Quarter Financial Statements.

Electric delivery volumes in O&R's service area decreased 0.9 percent in the six months ended June 30, 2012 compared with the 2011 period. After adjusting for weather and other variations, electric delivery volumes in O&R's service area increased 1.3 percent in the six months ended June 30, 2012 compared with the 2011 period.

Electric operating income decreased \$1 million in the six months ended June 30, 2012 compared with the 2011 period. The decrease reflects primarily higher operations and maintenance costs (\$5 million, due to higher pension and health care expense), taxes other than income taxes (\$5 million, principally property taxes) and higher depreciation and amortization (\$2 million), offset by higher net revenues (\$11 million).

Gas

O&R's results of gas operations for the six months ended June 30, 2012 compared with the 2011 period is as follows:

(millions of dollars)	Six Months Ended		
	June 30, 2012	June 30, 2011	Variation
Operating revenues	\$117	\$130	\$(13)
Gas purchased for resale	37	53	(16)
Net revenues	80	77	3
Operations and maintenance	34	34	—
Depreciation and amortization	7	7	—
Taxes, other than income taxes	8	8	—
Gas operating income	\$ 31	\$ 28	\$ 3

O&R's gas sales and deliveries, excluding off-system sales, for the six months ended June 30, 2012 compared with the 2011 period were:

Description	Thousands of dths Delivered				Revenues in Millions			
	Six Months Ended				Six Months Ended			
	June 30, 2012	June 30, 2011	Variation	Percent Variation	June 30, 2012	June 30, 2011	Variation	Percent Variation
Residential	3,681	4,742	(1,061)	(22.4)%	\$ 51	\$ 68	\$(17)	(25.0)%
General	724	928	(204)	(22.0)	9	12	(3)	(25.0)
Firm transportation	5,949	6,952	(1,003)	(14.4)	45	45	—	—
Total firm sales and transportation	10,354	12,622	(2,268)	(18.0)	105	125	(20)	(16.0)
Interruptible sales	2,255	2,304	(49)	(2.1)	2	2	—	—
Generation plants	—	750	(750)	Large	—	—	—	—
Other	441	534	(93)	(17.4)	—	—	—	—
Other gas revenues	—	—	—	—	10	3	7	Large
Total	13,050	16,210	(3,160)	(19.5)%	\$117	\$130	\$(13)	(10.0)%

O&R's gas operating revenues decreased \$13 million in the six months ended June 30, 2012 compared with the 2011 period due primarily to the decrease in gas purchased for resale in 2012 (\$16 million). O&R's New York revenues from gas sales are subject to a weather normalization clause and a revenue decoupling mechanism as a result of which delivery revenues are generally not affected by changes in delivery volumes from levels assumed when rates were approved.

Sales and transportation volumes for firm customers

decreased 18.0 percent in the six months ended June 30, 2012 compared with the 2011 period. After adjusting for weather and other variations, total firm sales and transportation volumes increased 1.4 percent in the six months ended June 30, 2012 compared with the 2011 period.

Gas operating income increased \$3 million in the six months ended June 30, 2012 compared with the 2011 period. The increase reflects primarily higher net revenues (\$3 million).

Competitive Energy Businesses

The competitive energy businesses' results of operations for the six months ended June 30, 2012 compared with the 2011 period is as follows:

(millions of dollars)	Six Months Ended		
	June 30, 2012	June 30, 2011	Variation
Operating revenues	\$610	\$814	\$(204)
Purchased power	480	669	(189)
Gas purchased for resale	2	11	(9)
Net revenues	128	134	(6)
Operations and maintenance	56	63	(7)
Depreciation and amortization	4	3	1
Taxes, other than income taxes	9	10	(1)
Operating income	\$ 59	\$ 58	\$ 1

The competitive energy businesses' operating revenues decreased \$204 million in the six months ended June 30, 2012 compared with the 2011 period, due primarily to lower electric retail and wholesale revenues. Electric wholesale revenues decreased \$75 million in the six months ended June 30, 2012 as

compared with the 2011 period, due to lower sales volumes (\$54 million) and unit prices (\$21 million). Electric retail revenues decreased \$132 million, due to lower sales volume (\$71 million) and unit prices (\$61 million). Net mark-to-market values decreased \$3 million in the six months ended June 30, 2012 as

compared with the 2011 period, of which \$15 million in losses are reflected in purchased power costs and \$12 million in gains are reflected in revenues. Other revenues decreased \$9 million in the six months ended June 30, 2012 as compared with the 2011 period due primarily to lower energy services revenue.

Purchased power costs decreased \$189 million in the six months ended June 30, 2012 compared with the 2011 period, due primarily to lower volumes (\$106 million), lower unit prices (\$98 million) and changes in

mark-to-market values (\$15 million). Operating income increased \$1 million in the six months ended June 30, 2012 compared with the 2011.

Other

For Con Edison, “Other” includes inter-company eliminations relating to operating revenues and operating expenses..

Item 3: Quantitative and Qualitative Disclosures About Market Risk

For information about the Companies' primary market risks associated with activities in derivative financial instruments, other financial instruments and derivative commodity instruments, see "Financial and Commodity Market Risks," in Part I, Item 2 of this report, which information is incorporated herein by reference.

Item 4: Controls and Procedures

The Companies maintain disclosure controls and procedures designed to provide reasonable assurance that the information required to be disclosed in the reports that they submit to the Securities and Exchange Commission (SEC) is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Securities Exchange Act of 1934, as amended, is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. For each of the Companies, its management, with the participation of its principal executive officer and principal financial officer, has evaluated its disclosure controls and procedures as of the end of the period covered by this report and, based on such evaluation, has concluded that the controls and procedures are effective to provide such reasonable assurance. Reasonable assurance is not absolute assurance, however, and there can be no assurance that any design of controls or procedures would be effective under all potential future conditions, regardless of how remote.

There was no change in the Companies' internal control over financial reporting that occurred during the Companies' most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Companies' internal control over financial reporting.

The Utilities are undertaking a project with the objective of improving business processes and information systems. The Utilities expect the project to reduce costs, improve support of operating activities, reduce financial reporting risks, and simplify compliance activities. The focus of the project is the new financial and supply chain enterprise resource planning information systems that the Utilities began to use in July 2012. The Utilities expect the project to enhance the processes used by employees to record financial transactions and analyze data; purchase materials and services and manage inventory; develop business plans and budgets and report financial and purchasing data. The project is reasonably likely to materially affect the Companies' internal control over financial reporting.

Part II Other Information

Item 1: Legal Proceedings

For information about certain legal proceedings affecting the Companies, see Notes B, G and H to the financial statements in Part I, Item 1 of this report, which information is incorporated herein by reference.

Item 1A: Risk Factors

There were no material changes in the Companies' risk factors compared to those disclosed in Item 1A of the Form 10-K.

Item 2: Unregistered Sales of Equity Securities and Use of Proceeds
